

BERLIN SENDS TROOPS TO SAXONY

SELL WHEAT TO CUT WAR DEBT, NESTOS URGES

Would Have U. S. Give Credit
to Hard-Pressed European
Countries Taking Surplus

TRACES WHEAT PROBLEM

Tells Governors of Other
States It Is Problem for En-
tire U. S. to Consider

West Baden Springs, Ind., Oct. 18.—Creation of an emergency governmental agency to dispose of our wheat surplus abroad and granting of power to this agency to sell wheat to European nations indebted to the United States, reducing their debt in an amount equal to that invested in our wheat in the next three to five years, was urged by Governor B. A. Nestos of North Dakota, speaking before the national Governors' conference here today, as one means of bettering the condition of the wheat farmer.

"During the process of reducing the American surplus, and while there still is a surplus to sell abroad, the agency should be empowered to sell our wheat to some of the European nations, who are now indebted to us almost beyond their ability to repay, for whatever price may be agreed upon and that agency be authorized to grant such nations a reduction in their indebtedness to us equivalent to the amount invested by them in our wheat during the next three to five years," the North Dakota executive told the governors of other states of the union.

"I believe that this can be done with such safeguards and under such conditions as to insure the ready disposition of our surplus and at the same time help our European neighbors restore the morale and the working power of their people, rebuild their industrial life, and leave them in position where there will be a chance that in time they may be able to pay the balance of their indebtedness to us," he continued.

Whole Country's Problem.
The Governor told the other executives that while the people of North Dakota, South Dakota and Montana feel the burden of the plight of the wheat grower, "the same it is conceded that agriculture is our basic industry and farming our largest business, the prosperity of the farmer becomes so essential to the maintenance of the general prosperity of our country that it is with the utmost confidence of a favorable hearing and a serious and helpful consideration of this grave problem that I appeal to you as Governors of the various commonwealths to aid in restoring and maintaining the prosperity of the farmers."

The subject of the North Dakota executive's address of "Wheat in the Nation's Business." Governors from most of the states of the union were in the West Baden Springs hotel conference room today, and at the conclusion of the conference tomorrow they will go to Washington to meet President Coolidge.

In opening his address Governor Nestos declared that "those who transact the nation's business are too prone to forget the importance of agricultural prosperity in the process of establishing a lasting national prosperity."

He traced the course of recent agricultural history and the difficulties of the wheat farmer and declared that if the plight of the wheat farmer is continued it will disastrously affect the nation's business. The farmer suffers, he said, because the price of products he sells is far below the level of prices he pays for products. Not only he said, does the farmer find the purchasing power of his dollar low, but he is not receiving anything near the cost of producing his wheat, quoting the figures of Rex Willard, farm economist of the North Dakota Agricultural college, in support.

Freight Rates Too High.

He continued:
"This unfortunate condition is aggravated by the high freight rates on wheat. Northwestern Minnesota, North Dakota, South Dakota, and Montana raise a hard spring wheat rich in gluten and essential to successful flour making. But the chief competitors in the production of this high grade wheat are right across the line from the wheat raisers in Canada where the wheat rates are about the same as in the United States. The great mills at Buffalo are much lower than they are on the American side; so much lower in fact that the resulting advantage, together with the much larger yield per acre, has enabled the Canadian farmers to compete successfully for the American business with their American neighbors across the line, despite the duty of 30 cents which they are removed to pay."

"Not only is Secretary Wallace right in saying that these freight rates must come down but the situation presents another strong argument added to the many already presented for the early completion of the Great Lakes-St. Lawrence River Waterway."

"There are two factors that seem to play an important part in preventing the early completion of the waterway."

CALLS ON PRESIDENT

William Cuno, ex-chancellor of Germany (left), now in this country, was a recent visitor at the White House. With Dr. Delehorst, charge d'affaires of the German embassy, he called upon President Coolidge.

EXPECT MANY TO SEE WORLD CHAMP CATTLE

Half-Million Dollar Dairy
Special Stops Here Friday
At 4:40 p. m.

ON A LONG TRIP

The half-million dollar dairy special will arrive in Bismarck at 4:40 p. m. and leave at 5:45 p. m. Friday Oct. 19. It was announced at the Northern Pacific ticket office today. The previous announcement was that the train would stop at 4 p. m., but longer stops east have delayed its arrival 40 minutes. The train will stop in front of the passenger depot. The cars are very large, and all people who call will have opportunity to see the cattle, horses and ponies. It is said.

(Special to The Tribune)

Chicago, Ill., Oct. 18.—Still proclaiming doctrine of better milk and more of it, this carnation herd of blue ribbon Holstein dairy cattle on exhibit and demonstration at a number of stock shows and last week at the national dairy show, Syracuse, N. Y., left here yesterday on a special train for Portland, Oregon, to be exhibited at the Pacific International Livestock exhibition the week of November third.

Entertainment here marked the beginning of the second half of the \$9,000 mile trip which shall have been made before cattle are again allowed peace in home pastures.

One carnation cow on the train, Tillamook Daisy Butter King Dekol Senior and grand champion cow and second highest producer in the four-year old class has a record of 16,224 quarts of milk in one year and through her example and that of others like her that it is hoped to raise the standard of dairy cows throughout the United States.

The object of the long trip is purely educational and it has been sought to stimulate press, public and dairy interest in particular to the need of a greater and better milk supply which in turn means more abundant and more wholesome food for millions of persons.

The cow special runs on passenger time schedule and will reach Portland, Oct. 20.

The schedule included stops at Ashippun, Wis. and St. Paul today. From St. Paul the special will make stops at Valley City, Jamestown, Bismarck and Mandan, North Dakota, Glendive, Miles City, Forsyth, Billings, Livingston, and Bozeman, Helena, Mont. and Spokane, Wash.

At Billings, Mont. stock will be unloaded and exhibited at the Billings corn show. At Chicago and other points en route the following stock will join trains: Devon and Short-horn herds from Bachelor farms, Mount Vernon, New Hampshire; Pickard and son championship herd of Jersey cattle, Marion, Oregon; championship ponies from Hill farms, Washington, Illinois; J. O. Singmaster's Grand Champion Percheron stallion of America, Keosauqua, Iowa; and W. W. Marsh's Champion Guernsey bull, Waterloo, Iowa.

The shipment of blue ribbon dairy cattle is the largest ever made in point of number the value is \$500,000.

Governors of states through which train will pass have been invited to join the train and address the people on subject of dairying and stock breeding. At the close of the Pacific International at Portland the same blue ribbon cattle and horses will be shipped to Kansas City for the American Royal Livestock Show and from there to Chicago for International livestock show.

After the Chicago show the Carnation cattle return home near Seattle, having completed in the interests of better dairy stock and dairying methods journey more than eight thousand miles.

LADD FORESEES SHOALS QUIZ

Washington, Oct. 18.—Senator Ladd, Republican, North Dakota, issued a statement today, "fully inquiring" into the validity of the opinion under which the government recently disposed of the Gorgas plant at Muscle Shoals, Ala., to the Alabama Power company.

Secretary Weeks' action in closing the deal for the plant, Mr. Ladd said, looked to him like "a feverish effort to get the property into the hands of the power company before congress had an opportunity to dispose of it."

In two opinions he added, the company's option had been declared invalid by the attorney general.

Senator Ladd was one of those who at the last session favored acceptance of Henry Ford's offer for the Muscle Shoals property.

SALVATION ARMY DRIVE GOES AHEAD

Some of Workers Have Not
Reported, But Other Fine
Reports Are Coming In

STILL SHORT OF QUOTA

Five of the Salvation Army workers who were assigned part of the business district have not reported to headquarters at the Association of Commerce. Judge Christensen is very anxious that these reports be turned in at the earliest possible moment. A goodly sum has already been deposited with J. L. Bell treasurer, but it is way short of the desired quota. Grand Forks has just gone over the top for the Salvation Army with over \$5,000 subscribed, it was said at headquarters today.

A bit of good news came to headquarters this morning. Judge Nussle not only functioned 100% in the solicitation but went further and sent a letter to the Washburn Lignite Coal Co. suggesting that it would be a fine thing for the company to donate a car load of coal. A reply approving the good work of the Army has been received, advising that the company would be glad to deliver a car load of coal to the Army and would instruct their local manager to deliver same wherever it may be needed. The letter was signed by W. P. Macomber.

"This is a fine gift said Ensign 'Sherping' and is being promptly procured. We will be able to keep this winter."

Mrs. Martha B. Gale, Chairman of the Women's Division, has fifty women in the residence district today and is determined to bring in more money than the men who have worked in the business district. The women will finish their allotted task by Friday night and the campaign will be over and out of the way by Saturday night.

No matter how thorough the canvass may be, there are always a large number of people missed. The General Chairman invites those who have been overlooked to send or bring their contributions to headquarters at the Association of Commerce, Lodi and Clubs have been asked to help. Gifts from these groups are needed and will be appreciated. It is hoped by those interested that Bismarck will go over the top for the Army. But, this much desired result cannot be attained unless everyone does their individual bit.

DEBT BODY IS ASKED TO MEET

Washington, Oct. 18.—Secretary Mellon today called the debt commission to meet Saturday, October 20, but declined to disclose what subjects will be considered aside from the commission's annual report.

KU KLUX, BONUS CAUSE DEBATE AT CONVENTION

Legion Resolutions Committee
Wrestles to Harmonize
Views of the Members

NOW IN FOURTH DAY

Organization Policy Develop-
ed Satisfactory on Most
Points During Session

ASK CHILD LABOR AMENDMENT

San Francisco, Calif., Oct. 18.—An amendment to the Constitution of the United States to give Congress power concurrent with that of all the states to limit the labor and hire of children under 15 years of age was recommended by the child labor committee of the American Legion here today.

OPPOSE RECOGNITION
San Francisco, Calif., Oct. 18.—Opposition to the recognition of Soviet Russia and demands for the annual registration of all aliens in the United States formed the high lights of the American Legion Americanism committee report submitted to the convention today.

San Francisco, Oct. 18.—Interest of delegates attending the Fifth annual convention of the American Legion centered in the stand to be taken by the organization on important public questions as the fourth day of the convalescence opened this morning.

Confronted with the necessity of speedy action on resolutions prepared by committees during the last two days, the delegates today wrestled with the recommendations of the committees and found the harmonizing of widely divergent views among the Legionnaires their most difficult task.

Protracted committee sessions yesterday and last night resulted in the preparation of resolutions defining the attitude of the Legion on organization policy in a manner generally considered satisfactory, although committee leaders refused to reveal the proposal prior to the convention sessions.

The Ku Klux Klan issue, which developed into a deadlock yesterday centering in the resolutions committee with Michigan delegates holding out for complete repudiation of the organization, was one of the major questions confronting the delegates today. Likewise the bonus problem, on which some of the delegates hold divergent views, loomed forth importantly in today's deliberations. A spirit of compromise developed in connection with both issues last night.

USES PLANE FOR BUSINESS

Scott Cameron, Local Attorney,
Conserves Time by
New Method

Even high-powered automobiles are too slow for business these days. Scott Cameron, Bismarck attorney, was asked to be in Linton today on business. To conserve time he decided to use an airplane.

With "Chuck" Westfall piloting Harry Potter's plane, he flew from Bismarck to Linton in 45 minutes and back against the wind in one hour. The distance by auto is about 74 miles.

Mr. Cameron left his office at 9 o'clock and was back before 1 p. m.

Henrich Schatz, McLean County Pioneer, Dies

Underwood, N. D., Oct. 18.—Henrich Schatz, passed peacefully in death on Oct. 18, 1923, at nine o'clock p. m., at the home of his son, Andreas Schatz, Underwood, N. D., at the age of 89 years, 2 months and 14 days. Funeral services were conducted from the German Baptist church at Underwood, on Monday at 2 o'clock p. m. by the Rev. Breckel of Washburn officiating. Interment was made in the cemetery of the church. Deceased is survived by two sons, Andreas Schatz, Underwood, N. D., and Henry Schatz, Lodi, Calif., and one daughter, Mrs. Henry Serr, Portland, Ore.

Henrich Schatz was born in Odesa, Russia, in the year of 1834, and immigrated to this country in the year of 1874, forty-nine years ago, settling at Yankton, S. D., where he resided for a few years. Before removing to North Dakota he has resided in North Dakota continuously up to the time of his death.

The occurrence of the death of his beloved wife just five months and fourteen days previous to the death of Mr. Schatz is brought to mind particularly at this time. Husband and wife are buried side by side at Underwood.

DRY OFFICER HURT DURING FIGHT ON GANG

Effort to Prevent Raid on
Minnesota Brewery Is Fol-
lowed by Attack

AID BEING RUSHED

Federal Judge Excuses Many
Agents From Court to Aid
in Tracing Violators

Minneapolis, Oct. 18.—A. E. Whitney, special prohibition agent attached to the Minneapolis office in a St. Cloud hospital with a fractured skull as a result of a fight between agents and a gang of liquor law violators at New Munich, Minnesota, Wednesday night, it was revealed here today.

Federal agents, raided a brewery at New Munich Monday night and seized a large quantity of beer. H. L. Duncan, district enforcement chief, Wednesday received word that some of the beer seized by the agents and which had been left at the brewery pending its removal to Minneapolis had been stolen.

Whitney and several other agents were sent to Munich to investigate. According to meager reported received today agents caught a gang of men removing more of the beer Wednesday night and a fight ensued. John F. McGee instructed Mr. Duncan to take all available agents and rush to New Munich immediately. Every available man save those necessary in cases now pending before the federal court were accompanied by Mr. Duncan.

CREWS WORK DESPERATELY TO ENTER MINE

Hope About Given Up That
Any of Entombed Miners
Will Be Found Alive

Bingham, Utah, Oct. 18.—For 37 hours six crews working in relays have been striving to penetrate the mammoth pile of rock and mine timbers which has entombed and probably killed four workmen and the superintendent of the Utah-Apex Metal mine. No trace of the men has been found and mine officials say it will be a miracle if the entombed men are taken out alive.

The body of foreman Dan Egan, who was nearest to the level when the cave-in occurred, was recovered yesterday.

At midnight the rescue crew had made sufficient headway to assure them that the cave-in was greater than they thought and that possibility that men were above the fall-in rock was very scant. Unless other cave-ins occurred it is hoped to have the slope cleared today.

NEW YORK MAY BE DEMS' HOST

New York, Oct. 18.—Cleveland has withdrawn as a contender for the next Democratic national convention, according to John R. Young, secretary of the committee, which is seeking to bring the gathering to New York. Chicago withdrew several weeks ago. Mr. Young said, declaring the two withdrawals appeared to leave this city alone in the field as a contender.

BORAH WOULD REDUCE TAXES

New York, Oct. 18.—Senator William B. Borah of Idaho, here for conferences in connection with prospective coal legislation, today issued a statement favoring the drive at the coming session of Congress to reduce the nation's tax burden.

FELLS BANDITS, IS SHOT IN ARM, BUT SAVES HIS \$210 FROM ROBBERS

Great Falls, Mont., Oct. 18.—Officers throughout northern Montana and southern Alberta are following the roads today for two highwaymen who yesterday wounded Tom Connors, proprietor of a pool hall at Neilhart, a mining town in the Little Belt Mountains, 60 miles south of here, while attempting to rob him of his day's receipts.

The highwaymen fled in an automobile and were last sighted at Loma, a point on the Missouri river more than 100 miles from the scene of the shooting. At Loma the officers were but two hours behind the bandits.

The highwaymen accosted Connors as he was going home with \$210 in his pocket and squashed under his arm. Instead of raising his hands he knocked one bandit down by bouncing the squash off his head and then swung his fist against the jaw of the other. One bandit shot Connors in the arm and they ran to their automobile and fled. The bandits got no money.

EDISON FORESEES 4-HOUR WORK DAY, BUT DOUBTS IF IT IS WISE; PRESIDENCY WOULD SPOIL FORD

New York, Oct. 18.—Thomas A. Edison, electrical wizard, in one of the first interviews he has granted newspapermen, spoke of the presidential possibilities of his friend, Henry Ford, and declared that it would "spoil a good man" if the nation sent Ford to the White House.

Mr. Edison expressed the opinion that the automobile manufacturer was more valuable to the nation as a private citizen and then turned to the prediction made recently by Charles P. Steinmetz, inventor, connected with the General Electric company, that electricity eventually would reduce the working day to four hours. With this opinion Mr. Edison agreed.

Mr. Edison was not sure that the four hour day would be a good thing for the nation. He expressed fear that too large a leisure class would be created and that this would have bad effect, particularly on the young.

Within a very few years, he said, coal would be transformed into electrical energy at the mines and distributed throughout the country in high power transmission lines, doing more quickly and efficiently the work now performed by the fuel after long haulage and many handlings.

Transportation costs and the various other charges now connected with getting fuel energy to the consumer would thus be obviated, he said.

Mr. Edison was animated in his discussion of the development of the daily hours in which the world's work is done.

"It can be done, and soon, although I don't know how soon," he said, "but I am not sure that it will be a good thing. It will create much leisure, and it all depends on what people will do with their idle hours."

The radio, he believed, has been the great modern factor in causing young people to think. It has widened the range of knowledge, he said, and will continue to do so.

Musical and other radio entertainment features, in his opinion, sooner or later, will be eliminated from programs, which will be confined more to speeches and market quotations. He characterized the entertainment programs as fads which would not live, largely because of the difficulties of perfect transmission.

HERE'S HUNTING STORY FOR ALL LOCAL NIMRODS

Bismarck hunters who boast of shooting a wild goose are plucky.

For here is a real goose, story told by Elmer Lillikoff, who travels for the Stacy Fruit Company, to his friends.

While driving south of Richardson Tuesday he spied a flock of wild geese on a pond. He walked over to see them. He stumbled on an old liar's rope.

Then, with memory of the recent fish stories, he got an idea.

He picked up the rope, crawled down in the rushes, and lassoed one of the geese, the rope coiling beautifully about the body.

The goose was brought back alive, but it is on the way to being a good dinner right now.

TARIFF BODY CONTINUES ITS SUGAR INQUIRY

National Phase of Investigation
Will Be Undertaken
On January 15

Washington, Oct. 18.—Public hearings to begin January 15 will mark the national phase of the tariff commission inquiry into the relation of present tariff duty to the price of sugar to the American consumer undertaken when the price soared to exorbitant levels months ago.

The commission has been directed to cause a peep into the duty of 1.78 cents a pound on imports from Cuba and 2.20 cents on other foreign sugar. In announcing its decision to hold hearings to supplement the cost production information gathered from sugar producers and manufacturers the commission said it hoped to be able to finally make a definite recommendation to President Coolidge as to the advisability of action under flexible provisions of the tariff act.

Gathering of data on production costs is being continued in this country but it has been completed in Cuba, Hawaii and Porto Rico.

Washington, Oct. 18.—Rev. George B. Safford, superintendent of the Minnesota Anti-Saloon League, was made defendant in a suit for \$50,000 damages filed in Hennepin county district court by the St. Paul Dispatch and Pioneer Press. The action charges Rev. Safford with slander.

The suit is based on a statement made by Rev. Safford before the Presbyterian synod of Minnesota last Thursday, when he is said to have declared that the St. Paul newspapers were owned in fact by a brewing company in that city.

No date has been set for the trial.

ANTI-SALOON OFFICIAL SUED

New York, Oct. 18.—United States Attorney Haywood today filed 54 injunction and common nuisance suits in federal court under the Volstead act to close alleged wet saloons, cafes, restaurants and cabarets in this city.

The names of the places were not available this morning as the complaints in the various cases had not been filed.

The evidence on which the suits were based was obtained by Assistant U. S. Attorney John Holly Clark.

INJUNCTION SUITS FILED

New York, Oct. 18.—United States Attorney Haywood today filed 54 injunction and common nuisance suits in federal court under the Volstead act to close alleged wet saloons, cafes, restaurants and cabarets in this city.

The names of the places were not available this morning as the complaints in the various cases had not been filed.

The evidence on which the suits were based was obtained by Assistant U. S. Attorney John Holly Clark.

Daughter of J. A. Kitchen Dies

Miss Nina Lois Kitchen, daughter of Commissioner of Agriculture and Labor Joseph A. and Pearl S. Kitchen, died at a local hospital this morning at 11:15 o'clock. Nina was taken to hospital last night, physically active, her ailment being paralysis. She was a member of the First Presbyterian church here and resided in Bismarck nearly two years. She was born February 12, 1911 at Sentinel Butte.

The remains will be taken to Sentinel Butte on No. 1 tomorrow. Reverend Harper Burns will accompany the party and officiate.

FLOUT DECREES OF MILITARY DICTATORSHIP

Saxon Government Appears
Inclined to go Its Own Way
In Conducting Affairs

STAND IS DEFIANT

Bavaria Watching Riots in
Industrial Section of Sax-
ony Close to Border

ULTIMATUM EXPIRES

Berlin, Oct. 18.—The government of Saxony, having ignored the ultimatum of General Von Mueller, commander of the Reichswehr in that state, expiring at 11 o'clock today, the general issued a second letter to Premier Seigler saying:

"As you have not thought it fit to answer my letter I beg to inform you that I have referred the affair to the minister of defense."

Berlin, Oct. 18.—The frequency of rioting in Saxony and the desert taken by the Saxon Communist ministry in that state are causing such concern here that the central government is prepared to send additional troops into Saxony should the situation require it.

Advices from Munich also indicate that Bavaria is watching the affairs of her neighbor state inasmuch as some of the disorders in the Saxony industrial districts have occurred near to the Bavarian border.

TWO ARRESTED AFTER FATAL FIRE IN HOME

Son-in-law of Playwright Is
Alleged to Have Burned
His Home in Brooklyn

ACTED FOR REVENGE

Dispute Over Business Mat-
ters Led to Burning; One
Man in Confession of Plot

New York, Oct. 18.—A sensational aftermath of a fire which Monday destroyed a Brooklyn home and caused the death of six persons came today with the arrest of William A. Ford, real estate broker and son-in-law of one of the victims, and Raymond Anderson on charges of murder and arson.

A third man, James R. Lynch, an accountant, was held as a witness and a fourth is being sought as an accomplice.

On the son-in-law of George Keim, playwright, whose death in the fire came on the eve of the production of his first play.

Fire Marshal Brophy declared he had obtained a confession from Anderson, ill-feeling between Keim and his son-in-law was said to have existed several years, according to Brophy, and Keim was to have appeared in court to testify against Ford the day of his death.

Anderson, according to Brophy, accused Ford and the unidentified man of having driven to the home Monday and fired the house. Keim, Cuba and 220 cents on other foreign sugar. In announcing its decision to hold hearings to supplement the cost production information gathered from sugar producers and manufacturers the commission said it hoped to be able to finally make a definite recommendation to President Coolidge as to the advisability of action under flexible provisions of the tariff act.

SAYS FREIGHT CUTS CANNOT BE MADE NOW

Vice-President of Pennsylv-
ania Says Credits of
Roads Must Be Restored

Philadelphia, Oct. 18.—Freight rate reductions are impossible because of the "low earnings of railroads," A. J. County, Vice-President of the Pennsylvania Railroad, declared last night in an address before the Philadelphia Bankers' Association.

If reductions are given to help one class, he said, they must be paid by the rest of the nation.

Although Mr. County did not mention the conference of President Coolidge and Samuel R. Palmon, President of the Pennsylvania Railroad, whom President Coolidge is said to have suggested that carry charges for export wheat be reduced, his remarks were construed by some as bearing on the conference.

"Sound railroad credit," Mr. County said, "can be regarded as the first condition for any reduction in freight rates. The railroads have no credit at present and they must have it before they can be able to pay cash to the government for the 10 percent dividends and have a margin of additional surplus."

NARROW ESCAPE

Westhope, N. D., Oct. 18.—George Jensen, wife and baby had a close call when a team which they were driving ran away, smashing through a fence. The team finally broke loose from the buggy and no one was injured.

BERLIN SENDS TROOPS TO SAXONY

SELL WHEAT TO CUT WAR DEBT, NESTOS URGES

Would Have U. S. Give Credit
to Hard-Pressed European
Countries Taking Surplus

TRACES WHEAT PROBLEM

Tells Governors of Other
States It Is Problem for En-
tire U. S. to Consider

West Baden Springs, Ind., Oct. 18.—Creation of an emergency govern-
mental agency to dispose of our
wheat surplus abroad and granting
of power to this agency to sell wheat
to European nations indebted to the
United States, reducing their debt
in an amount equal to that invested
in our wheat in the next three to
five years, was urged by Governor
R. A. Nestos of North Dakota, speak-
ing before the national governors' con-
ference here today, as one means
of bettering the condition of the
wheat farmer.

"During the process of reducing
the American surplus, and while
there still is such a surplus to sell
abroad, the agency should be em-
powered to sell our wheat to some
of the European nations, who are
now indebted to us almost beyond
their ability to repay, for whatever
price may be agreed upon and that
agency be authorized to grant such
nations a reduction in their indebt-
edness to us equivalent to the amount
invested by them in our wheat
during the next three to five years,"
the North Dakota executive told
the governors of other states of
the union.

"I believe that this can be done
with such safeguards and under such
conditions as to insure the ready
disposition of our surplus and at
the same time help our European
neighbors restore the morale and the
working power of their people, re-
build their industrial life, and leave
them in position where there will
be a chance that in time they may
be able to pay the balance of their
indebtedness to us," he continued.

Whole Country's Problem.
The Governor told the other execu-
tives that while the people of North
Dakota, South Dakota and Montana
feel the burden of the plight of the
wheat grower, "yet since it is con-
ceded that agriculture is our basic
industry and farming the basis of
business, the prosperity of the farmer
becomes so essential to the main-
tenance of the general prosperity of
our country that it is with the ut-
most confidence of a favorable hear-
ing and a serious and helpful con-
sideration of this grave problem
that I appeal to you as Governors of
the various commonwealths to aid
in restoring and maintaining the
prosperity of the farmer."

The subject of the North Dakota
executive's address of "Wheat in
the Nation's Business." Governors
from most of the states of the union
were in the West Baden Springs
hotel conference room today, and at
the conclusion of the conference to-
morrow they will go to Washington
to meet President Coolidge.

In opening his address Governor
Nestos declared that "those who
transact the nation's business are
too prone to forget the importance
of agricultural prosperity in the pro-
cess of establishing a lasting na-
tional prosperity."

He traced the course of recent
agricultural history and the disas-
ters of the wheat farmer, and de-
clared that if the plight of the wheat
farmer is continued it will disas-
trously affect the nation's business.
The farmer suffers, he said, because
the price of products he sells is far
below the level of prices he pays
for products. Not only, he said, does
the farmer find the purchasing power
of his dollar low, but he is not re-
ceiving anything like the cost of
producing his wheat, quoting the fig-
ures of Rex Willard, farm economist
of the North Dakota Agricultural
college, in support.

Freight Rates Too High.
He continued:
"This unfortunate condition is ag-
gravated by the high freight rates
on wheat. Northwestern Minnesota,
North Dakota, South Dakota, and
Montana raise a hard spring wheat
rich in gluten and essential to suc-
cessful flour making. But the chief
competitors in the production of this
high grade wheat are right across
the line from these states in Canada,
where the freight rates on wheat to
the great mills at Buffalo are much
lower than they are on the American
side, so much lower in fact that the
resulting advantage, together with
the much larger yield per acre, has
enabled the Canadian farmers to com-
pete successfully for the American
business with their American
neighbors across the line, despite
the duty of 30 cents which they are
required to pay.

"Not only is Secretary Wallace
right in saying that these freight
rates must come down, but the situ-
ation presents another strong argu-
ment, added to the many already
presented for the early completion
of the Great Lakes-St. Lawrence
canal waterway.

CALLS ON PRESIDENT

William Cuno, ex-chancellor of Germany (left), now in this country,
was a recent visitor at the White House. With Dr. Deichhoff, chargé
d'affaires of the German embassy, he called upon President Coolidge.

EXPECT MANY TO SEE WORLD CHAMP CATTLE

Half-Million Dollar Dairy
Special Stops Here Friday
At 4:40 p. m.

ON A LONG TRIP

The half-million dollar dairy
special will arrive in Bismarck
at 4:40 p. m. and leave at 5:45
p. m. Friday Oct. 19, it was an-
nounced at the Northern Pacific
ticket office today. The previous
announcement was that the train
would arrive at 4 p. m., but
longer stops east have delayed
its arrival 40 minutes. The train
will stop in front of the passen-
ger depot. The cars are very
large, and all people who call
will have opportunity to see the
cattle, horses and ponies, it is
said.

(Special to The Tribune)

Chicago, Ill., Oct. 18.—Still pro-
claiming doctrine of better milk
and more of it, the carnation herd
of blue ribbon Holstein dairy cattle on
exhibit and demonstration at a num-
ber of stock shows and last week at
the national dairy show, Syracuse,
N. Y., left here yesterday on a spe-
cial train for Portland, Oregon, to be
exhibited at the Pacific International
Livestock exhibition the week of
November third.

Entertainment here marked the be-
ginning of the second half of the
8,000 mile trip which shall have been
made before cattle are again allowed
peace in home pastures.

One carnation cow on the train,
Tillamook Daisy Butter King Deloit,
Senior and grand champion cow and
second highest world's producer in
the four-year old class has a record
of 16,224 quarts of milk in one year
and through her example and that of
others like her that it is hoped to
raise the standard of dairy cows
throughout United States.

The object of the long trip is
purely educational and it has been
sought to stimulate press, public and
dairy interests in particular to the
need of a greater and better milk
supply which in turn means more
abundant and more wholesome food
for millions of persons.

The cow special runs on passenger
time schedule and will reach Port-
land, Oct. 20.
The schedule included stops at
Ashippun, Wis. and St. Paul today.
From St. Paul the special will make
stops at Valley City, Jamestown, Bis-
marck and Mandan, North Dakota,
Glenview, Miles City, Forsyth, Bill-
ings, Livingston, and Bozeman, Hel-
ena, Mont. and Spokane, Wash.

At Billings, Mont. stock will be un-
loaded and exhibited at the Billings
carnation show. At Chicago and other
points en route the following stock
will join trains: Devon and Short-
horn herds from Bachelor farms,
Mount Vernon, New Hampshire;
Pickard and son championship herd
of Jersey cattle, Marion, Oregon;
champion ponies from Hill farms,
Washington, Illinois; J. O. Singmas-
ter's Grand Champion, Percheron
stallion or American, Kegota, Iowa,
and W. W. Marsh's Champion Guern-
sey bull, Waterloo, Iowa.

The shipment of blue ribbon dairy
cattle is the largest ever made in
point of number the value is \$500,-
000.

LADD FORESEES SHOALS QUIZ

Washington, Oct. 18.—Senator
Ladd, Republican, North Dakota, is-
sued a statement saying he had no
doubt congress would "fully inquire"
into the validity of the opinion un-
der which the government recently
disposed of the Gorgas plant at
Muscle Shoals, Ala., to the Alabama
Power company.

Secretary Weeks' action in closing
the deal for the plant, Mr. Ladd said,
looked to him like "a feverish effort
to get the property into the hands of
the power company before congress
had an opportunity to dispose of it.
In two opinions he added, the com-
pany's option had been declared in-
valid by the attorney general.

Senator Ladd was one of those who
at the last session favored accep-
tance of Henry Ford's offer for the
Muscle Shoals property.

SALVATION ARMY DRIVE GOES AHEAD

Some of Workers Have Not
Reported, But Other Fine
Reports Are Coming In

STILL SHORT OF QUOTA

Five of the Salvation Army
workers who were assigned part
of the business district have not
reported to headquarters at the
Association of Commerce, Lodges and Clubs
building. Mrs. B. B. Gale, chairman
of the women's division, has fifty
women in the residence district to-
day and is determined to bring in
more money than the men who
have worked in the business district.
The women will finish their
allotted task by Friday night and
the campaign will be over and out
of the way by Saturday night.

No matter how thorough the
carnival may be, there are always a
large number of people missed.
The General Chairman invites
those who have been overlooked to
send or bring their contributions
to headquarters at the Association
of Commerce, Lodges and Clubs
building. Money and gifts from
these groups are needed and will
be appreciated. It is hoped
by those interested that Bismarck
will go over the top for the Army,
BUT, this much desired result can-
not be attained unless everyone
does their individual bit.

DEBT BODY IS ASKED TO MEET

Washington, Oct. 18.—Secretary
Mellon today called the debt com-
mission to meet Saturday, October
20, but declined to disclose what
subjects will be considered, aside
from the commission's annual re-
port.

KU KLUX, BONUS CAUSE DEBATE AT CONVENTION

Legion Resolutions Commit-
tee Wrestles to Harmonize
Views of the Members

NOW IN FOURTH DAY

Organization Policy Develop-
ed Satisfactory on Most
Points During Session

San Francisco, Calif., Oct. 18.—
An amendment to the Constitu-
tion of the United States to give
Congress power concurrent
with that of all the states to lim-
it the labor and hire of chil-
dren under 15 years of age was
recommended by the child labor
committee of the American Leg-
ion here today.

OPPOSE RECOGNITION
San Francisco, Calif., Oct. 18.—
Opposition to the recognition
of Soviet Russia and demands
for the annual registration of all
aliens in the United States formed
the high lights of the Ameri-
can Legion Americanism commit-
tee report submitted to the con-
vention today.

San Francisco, Oct. 18.—Interest
of delegates attending the Fifth
annual convention of the American
Legion centered in the stand to be
taken by the organization on important
public questions as the fourth day
of the convocation opened this morning.
Confronted with the necessity of
speedy action on resolutions prepared
by committees during the last two
days, the delegates today wrestled
with the recommendations of the
committees and found the har-
monizing of widely divergent views
among the Legionnaires their most
difficult task.

Protracted committee sessions yester-
day and last night resulted in the
preparation of resolutions defining
the attitude of the Legion on organ-
ization policy in a manner generally
considered satisfactory, although
some delegates refused to reveal
the proposal prior to the convention
sessions.

The Ku Klux Klan issue, which de-
veloped into a deadlock yesterday
centering in the resolutions commit-
tee with Michigan delegates holding
out for complete repudiation of the
organization, was one of the major
questions confronting the delegates
today. Likewise the bonus problem,
on which some of the delegates hold
divergent views, loomed forth im-
portantly in today's deliberations. A
spirit of compromise developed in
connection with both issues last
night.

USES PLANE FOR BUSINESS

Scott Cameron, Local Attor-
ney, Conserves Time by
New Method

Even high-powered automobiles are
too slow for business these days.
Scott Cameron, Bismarck attorney,
was asked to go to Linton today on
business. To conserve time he de-
cided to use an airplane.

With "Chuck" Westfall piloting
Harry Potter's plane, he flew from
Bismarck to Linton in 45 minutes
and back against the wind in one
hour. The distance by auto is about
74 miles.

DRY OFFICER HURT DURING FIGHT ON GANG

Effort to Prevent Raid on
Minnesota Brewery Is Fol-
lowed by Attack

AID BEING RUSHED

Federal Judge Excuses Many
Agents From Court to Aid
in Tracing Violators

Minneapolis, Oct. 18.—A. E. Whit-
ney, special prohibition agent at-
tached to the Minneapolis office in
a St. Cloud hospital with a frac-
tured skull as a result of a fight be-
tween agents and a gang of liquor
law violators at New Munich, Minn-
nesota, Wednesday night, it was re-
vealed here today.

Federal agents raided a brewery at
New Munich Monday night and se-
ized a large quantity of beer. H. L.
Duncan, district enforcement
chief, Wednesday received word that
some of the beer seized by the agents
and which had been left at the
brewery pending its removal to Minn-
neapolis had been stolen.

Whitney and several other agents
were sent to Munich to investigate.
According to meager reported re-
ceived today agents caught a gang
of men removing more of the beer
Wednesday night and a fight ensued.
John F. McGee instructed Mr.
Duncan to take all available agents
and rush to New Munich immedi-
ately. Every available man save those
necessary in cases pending be-
fore the federal court were accom-
panied by Mr. Duncan.

CREWS WORK DESPERATELY TO ENTER MINE

Hope About Given Up That
Any of Entombed Miners
Will be Found Alive

Bingham, Utah, Oct. 18.—For 37
hours six crews working in relays
have been striving to penetrate
the mammoth pile of rock and
mine timbers which has entombed
and probably killed four workmen
and the superintendent of the
Utah-Apex Metal mine. No trace
of the men has been found and
mine officials say it will be a mir-
acle if the entombed men are taken
out alive.

The body of foreman Dan Egan,
who was nearest to the level when
the cave-in occurred, was recovered
yesterday.

NEW YORK MAY BE DEMS' HOST

New York, Oct. 18.—Cleveland has
withdrawn as a contender for the
next Democratic national convention,
according to John R. Young, secre-
tary of the committee, which is
seeking to bring the gathering to
New York. Chicago withdrew sev-
eral weeks ago, Mr. Young said, de-
claring the two withdrawals ap-
peared to leave this city alone in the
field as a contender.

BORAH WOULD REDUCE TAXES

New York, Oct. 18.—Senator Wil-
liam E. Borah of Idaho, here for
conferences in connection with
prospective coal legislation, today
issued a statement favoring the
drive at the coming session of Con-
gress to reduce the nation's tax
burden.

FELLS BANDITS, IS SHOT IN ARM, BUT SAVES HIS \$210 FROM ROBBERS

Great Falls, Mont., Oct. 18.—Offi-
cers throughout northern Montana
and southern Alberta are galling the
roads today for two Highwaymen
who yesterday wounded Tom Con-
ners, proprietor of a pool hall at
Neilhart, a mining town in the Little
Belt Mountains, 60 miles south of
here, while attempting to rob him
of his day's receipts.

EDISON FORESEES 4-HOUR WORK DAY, BUT DOUBTS IF IT IS WISE; PRESIDENCY WOULD SPOIL FORD

New York, Oct. 18.—Thomas A.
Edison, electrical wizard, in one of
the first interviews he has granted
newspapermen, spoke of the presi-
dential possibilities of his friend,
Henry Ford, and declared that it
would "spoil a good man" if the na-
tion sent Ford to the White House.
Mr. Edison expressed the opinion
that the automobile manufacturer
was more valuable to the nation as a
private citizen and then turned to
the prediction made recently by
Charles P. Steinmetz, inventor, con-
nected with the General Electric
company, that electricity eventually
would reduce the working day to
four hours. With this opinion Mr.
Edison agreed.

Mr. Edison was not sure that the
four hour day would be a good thing
for the nation. He expressed fear
that too large a leisure class would
be created and that this would have
a bad effect, particularly on the
young.

Within a very few years, he said,
coal would be transformed into elec-
trical energy at the mines and dis-
tributed throughout the country in
high power transmission lines, doing
more quickly and efficiently the work
now performed by the fuel after long
hauling and many handlings.

Transportation costs and the vari-
ous other charges now connected
with getting fuel energy to the con-
sumer would thus be obviated, he
said.

Mr. Edison was animated in his
discussion of the development of
the daily hours in which the world's
work is done.

TARIFF BODY CONTINUES ITS SUGAR INQUIRY

National Phase of Investiga-
tion Will be Undertaken
On January 15

Washington, Oct. 18.—Public hear-
ings to begin January 15 will mark
the national phase of the tariff
commission inquiry into the relation
of present tariff duty to the price
of sugar to the American consumer
undertaken when the price soared to
exorbitant levels months ago. The
increase brought charges that it was
caused directly by the duty of 1.75
cents a pound on imports from
Cuba and 2.25 cents on other foreign
sugar. In announcing its decision to
hold hearings to supplement the cost
production information gathered
from sugar producers and manufac-
turers the commission said it hoped
to be able to finally make a definite
recommendation to President Cool-
idge as to the advisability of action
under flexible provisions of the tar-
iff act.

ANTI-SALOON OFFICIAL SUED

Minneapolis, Oct. 18.—Rev. George
B. Safford, superintendent of the
Minnesota Anti-Saloon League, was
made defendant in a suit for \$50,000
damages filed in Hennepin county
district court by the St. Paul Dis-
patch and Pioneer Press. The action
charges Rev. Safford with libelous
statements made in a statement
made by Rev. Safford before the
Presbyterian synod of Minnesota last
Thursday, when he is said to have
declared that the St. Paul newspa-
pers were owned and controlled by a
brewing company in that city.

No date has been set for the trial.

DAUGHTER OF J. A. KITCHEN DIES

Miss Nina Lois Kitchen, daughter
of Commissioner of Agriculture and
Labor Joseph A. and Pearl S. Kitch-
en, died at a local hospital this
morning at 11:15 o'clock. Nina was
taken to hospital last night, physi-
cally active, her ailment being brain
paralysis. She was a member of the
First Presbyterian church, where she
resided in Bismarck nearly two
years. She was born February 12,
1911 at Sentinel Butte.

FLOUT DECREES OF MILITARY DICTATORSHIP

Saxon Government Appears
Inclined to go Its Own Way
In Conducting Affairs

STAND IS DEFIANT

Bavaria Watching Riots in
Industrial Section of Sax-
ony Close to Border

ULTIMATUM EXPIRES
Berlin, Oct. 18.—The govern-
ment of Saxony, having ignored
the ultimatum of General Von
Mueller, commander of the
Reichswehr in that state, expiring
at 11 a. m. today, the general
sent a second letter to Premier
Seigler saying:

"As you have not thought it
fit to answer my letter I beg to
inform you that I have referred
the affair to the minister of de-
fense."

Berlin, Oct. 18.—The frequency of
rioting in Saxony and the defiant
stand taken by the Socialist-Com-
munist ministry in Dresden are caus-
ing such concern here that the cen-
tral government is prepared to send
additional troops into Saxony should
the situation require it.

Advices from Munich also indicate
that Bavaria is watching the affairs
of her neighbor state inasmuch as
some of the disorders in the Saxony
industrial districts have occurred
near to the Bavarian border.

The central government is making
every effort to maintain its author-
ity in Saxony and General Von Mu-
eller, commander of the Reichswehr
in the state, is demanding assurances
from Premier Seigler that the de-
crees of the military dictators will
be respected. However, the Sax-
on government seems inclined to go
its own way and in one notable in-
stance at least the edicts of Von Mueller
have been disobeyed. This was the
meeting of the Saxon proletarian de-
fense organization which was held
against his orders.

The Saxon Diet last night rejected
a motion of lack of confidence in the
government by a vote of 48 to 45.

ASK CURRENCY REFORMS

Berlin, Oct. 18.—A resolution de-
manding immediate currency and fi-
nancial reforms on the ground that
a fixed currency is the only basis
on which the necessary increase in
production can be obtained was passed
at the first general meeting of the
central committee of the Social-
ist workers and officials' association
yesterday.

MOB ATTACKS WORKS

Gelsenkirchen, Ruhr Valley, Oct.
18.—A mob of women attacked and
badly damaged the administration
building of the Manneman Iron
Works today. The assault was in
protest against non-payment due the
women for their services.

SAYS FREIGHT CUTS CANNOT BE MADE NOW

Vice-President of Pennsylv-
vania Says Credits of
Roads Must be Restored

Philadelphia, Oct. 18.—Freight
rate reductions are impossible be-
cause of the "low earnings of rail-
roads," A. J. County, Vice-president
of the Pennsylvania Railroad, de-
clared last night in an address be-
fore the Philadelphia Bankers' Association.

If reductions are given to help
one class, he said, they must be
paid by the rest of the nation.
Although Mr. County did not
mention the conference of Pres-
ident Coolidge and Samuel Rea,
president of the Pennsylvania to
whom President Coolidge is said to
have suggested that carrying
charges for export wheat be re-
duced, his remarks were construed
as bearing on the conference.

FIVE MINERS ENTOMBED BY FALLING ROCK

Rescuers Find One Dead and
Push on in Effort to Reach
Other Utah Miners

Bingham, Utah, Oct. 17.—In view of and almost within reach of the rescue party the battered and mangled body of Dan Eden, 50-year-old foreman of the Utah-Apex Metal mine, at an early hour this morning was still in the grip of the huge rock pile which crushed it at 4 o'clock yesterday afternoon and which at the same time killed or entombed alive the five companions of the foreman.

No signals have come from the gigantic rock pile and whether the rescuers will be greeted by trembling miners or stark bodies is a matter of conjecture.

The rescue party itself hampered by lack of room and bad ground has been forced to see for safety, while cave-ins have undone the work of hours.

Eden's body is wedged in such a manner that it is impossible to move it without bringing down on the heads of rescuers the tons of rock which rest upon the stone which hold the body fast.

The incident occurred just as the men were preparing to leave the slope for the day.

ASKS TO BE SHOWN BEFORE HE BELIEVES

Will Traverse Entire Length
of the Rio Grande from
El Paso to Texas

By NEA Service.
Juarez, Mex., Oct. 17.—George Curry, best known of all public men in the southwest and one score years past the half century mark, wasn't born in Missouri.

Nevertheless he has to be shown to be convinced.

Hence his determination, at 70, to traverse the entire tortuous length of the Rio Grande from El Paso to its termination at Brownsville, Tex. Curry, ex-governor of New Mexico, former congressman and lately appointed commissioner on the U. S. Mexican Boundary Commission, will make the trip to acquaint himself with every twist and bend of the stream.

He has gathered up his cars and outboard engine of the quarter-in-the-slot variety, principally to test the river's navigability declared possible by a Supreme Court decision, but never demonstrated as practical.

In order to fill his role as commissioner he wants to know first-hand all about the boundary question, and though there are ample works on the subject, Curry isn't the type to take things second-hand when he can get the facts himself.

On the 1400 miles trip he will cook his own pork and beans and expects to reach the trail's end around Christmas.

Accompanied by an engineer as his sole companion, the exploration party, if it succeeds on its mission, will be the first to traverse the entire water route since the days of the Spanish settlers.

He suggested that designers might develop an all-steel type which could

Miss Almira Rockefeller, daughter of Mrs. W. G. Rockefeller, is rarely photographed at a public event. The photographer caught her, though, on a new polo field at Greenwich Conn.

withstand shock and obviate catatonic trophies similar to those of Igloo and Yokohama.

"Owing to the fact that we are in close contact with the Japanese in Hawaii, men who know how Japanese houses are built, there is a supreme opportunity here to design a light steel structure that could be built by the thousands to take the place of the destroyed buildings and houses in Japan," he said. "This is one of the problems that the Hawaiian research association will attack, a study of the facts evident on the ground in Japan."

GREAT ENGINE PASSES CITY

Mallet Type Locomotive Purchased by Northern Pacific

A mallet type engine, the largest type or railroad locomotive ever built, passed through Bismarck last night on the Northern Pacific railroad. It will be used on the mountain division.

The locomotive is 106 feet long, including the tender, weighs 756,300 pounds, has a tender with a capacity of 12,000 gallons of water and 32,000 pounds of coal, and is guaranteed to withstand the efforts of any automobile to knock it off the track.

It is the first of 50 similar type locomotives ordered by the Northern Pacific.

DANCES WITH SERVANTS
Aberdeen, Scotland, Oct. 17.—Queen Mary danced with six of her servants recently at the annual ball given by their majesties to the employees of the Royal Estate at Balmoral. The program, arranged by the Queen, did not contain a single fox-trot or one-step and only two waltzes. The dance was Highland reel, eightsome.

ENGINEERS IN PROTEST OVER WORK'S LETTER

Protest Dismissal of A. P. Davis Director of Reclamation, and Work's Explanation

CALL IT POLITICS

Richmond, Va., Oct. 18.—The American society of civil engineers today in convention unanimously endorsed action of the board of directors of the society recommending the sending of a scathing letter of protest to Secretary of Interior Work for his action in removing A. P. Davis as director of the reclamation service, and his statement that engineers are not qualified to direct government irrigation.

The letter, which was sent today to Dr. Work follows:

"Hon. Hubert Work, Secretary of the Interior, Washington, D. C.

"Sir: Your courteous reply of August 14, to our inquiry of June 27 has been very carefully considered and the whole matter of your dismissal of Director A. P. Davis of the Reclamation Service has been investigated by this board, advised by a special committee of two fair-minded engineers widely experienced in public service and business affairs, one of whom is an honorary member and the other a past president of this society. We regret to have to state that your action was a deliberate one, and that your action was not justified by the facts of the case. We regret to have to state that your action was a deliberate one, and that your action was not justified by the facts of the case. We regret to have to state that your action was a deliberate one, and that your action was not justified by the facts of the case."

"1. Because the dismissal, being so sudden and but little over three months after you became secretary, was arbitrary, and was unjust to a highly efficient and experienced public official, a most eminent civil engineer of long recognized national and international standing in his profession whose high qualifications you yourself have certified by offering to make him consulting engineer of the reclamation service.

"2. Because the action necessarily must undermine the morale and loyalty of the whole reclamation service, tending to substitute political standing for merit and leading to the danger that the public funds may be wasted through inefficiency. Similar action applied to other technical bureaus would demoralize the entire technical and scientific service of the government.

"3. Because action was taken by the device of nominally abolishing the position and immediately creating its equivalent under another name a subterfuge which, as we are informed it has been attempted to legalize by an ex-post facto executive order. Furthermore, the charge repeatedly has been made in the press and without denial by you that your offer to retain Mr. Davis as consulting engineer of the reclamation service was on condition that he omit to state that his resignation

Small Dwellings Set at Angle to the Street to Give More Light and Air and Greater Security against Intrusion: Heat and Electricity are Supplied from a Central Plant

More Light and Air for Small Homes

Some of the disadvantages of small dwellings built in groups for the sake of economy have been overcome in Germany by placing the houses at an angle to the street to provide more light and air for each dwelling. Such groups are easily supplied with heat, electricity, and water from a single center. Under

the German plan each of the houses has a little garden, secure against the prying curiosity of neighbors and equally protected against intruders in the front and rear.

Million Wasps Are Freed To War On Crop Pests

One million wasps, the size of pinheads, have been imported by the government and are now distributed in the East to destroy the corn borer. The wasps will save millions of dollars in crops for the farmer, if they serve as well as they have in Europe. Whether they can flourish in this climate has not been determined. The borer, resembling a caterpillar, attacks corn, beets, celery, beans, rhubarb, potatoes, buckwheat, clover, and many other products. By laying eggs on it, the female wasp kills the borer.

Registration of trucks and automobiles as reported recently indicates that there are now more than 13,048,128 motor vehicles in the United States, an average of one machine for every 8.5 persons. Between July 1, 1922, and July 1, 1923, there was a gain of 2,440,000, almost 23 per cent.

was requested by you. To this fact your letter contained no reference.

"4. Because there is great danger that the effect of your action may be eventually to lead to the waste of vast sums of public funds to meet political demands put forward in behalf of selfish private interests. Disagreeing entirely with your views, we consider it established that efficient technical bureaus such as the reclamation service in the past with its world wide recognition as a model for other nations can meet all just needs of the government irrigation projects. Farmers generally throughout the United States are suffering in present conditions no less than those on reclamation projects.

"5. Because business and engineering ability, both are necessary qualifications for the efficient discharge of the duties of the department of the reclamation service, or

Women Inventors Are Busy on Industrial Problems

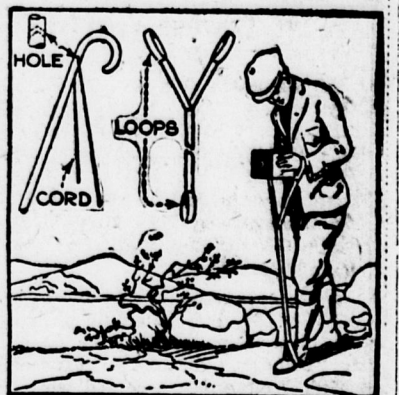

To learn just what part women were taking in inventions, government officials recently undertook a survey that showed over 5,000 patents had been granted to them in 10 years, more than the total for 105 years previous. The first patent granted an American woman was given by the British government to the wife of a Pennsylvania planter, for a device to clean and cure corn. Labor-saving machines are said to make up the majority of women's inventions, one making an apparatus for scattering fertilizer, another an article to strip sugar cane, while an adjustable horse collar was made by a Montana woman. For the kitchen, a pie pan was brought out that prevented juices from overflowing the rim, and a wooden mixing bowl was invented that would not split. Almost every line of business was included, but 1,385 patents were for articles of housekeeping.

as now called, the commissioner of reclamation. Indeed, the whole engineering profession represents most strongly the slander implied in your letter, that they cannot, or at least do not possess business qualifications of the highest order in transportation in mining, mechanic, electrical and other great industries. Engineering executives play a most important part. Engineers are presidents of the Pennsylvania railroad, the New Haven, the Delaware and Hudson, the Chicago and Northwest, the Santa Fe, the Great Northern, the Chicago and Great Western and many others. Both presidents of our two big electrical companies are engineers. Many of our large industrial and manufacturing operations are held by engineers, in fact, engineers play important parts in business affairs in a long list of human activities in the United States.

Novel Methods of Taking Time Exposures

Tripods are more or less of an annoyance to the camera enthusiast, and few use them. However, it is sometimes necessary to make a time exposure to get the desired picture, but the camera cannot be held steadily enough with the hands to avoid doubling the image. It is, however, a simple matter to hold the camera steady if a cane is carried along. Just below the crook of the cane two holes are drilled from opposite sides to meet in the center, both slanting down from the point of junction. Another hole is drilled through the crook to take a tripod screw, on which the camera is mounted. A cord is run through the angular hole, the ends of the cord are stepped on, and pulled taut by pulling back on the cane, which has the end planted on the ground in the position indicated, thereby holding the cane firmly in position.

Another method of steadying the camera is to cut a length of tape into three pieces, and to tie or sew these pieces together at the central point as shown, making a form of the letter Y. Loops are made at the ends so that the foot can be placed in one loop, and each

wrists in another. Then, with the camera clasped between both hands, an upward pull will enable the user to hold the camera steadily.

A waterproof glue is made by dissolving gelatin in hot water, to the consistency of thick cream, and adding a tablespoonful of acetic acid to each pint.

The fact that hundreds of thousands of Americans are content to trust investments of billions of dollars to the hands of engineers is ample proof—if any be needed—of the falsity of the charge that engineers are not business men."

Your explanation, therefore, is inadequate in every respect your action is of a character most dangerous as well as unjust. We protest, it in the strongest terms.

The board of directors of the American Society of Civil Engineers, by Charles F. Loweth, president, John S. Dunlap, secretary."

LOCAL FAIRS NOW URGED ON COMMUNITIES

J. M. Devine, Commissioner of Immigration, Proposes They Be Held All Over N. D.

COST SAID VERY SMALL

Result Will Be To Convince Many of What North Dakota Really Is, He Says

Local fairs throughout the state constitute one of the best methods of opening the eyes of people generally of the agricultural resources of North Dakota and of impressing upon them the great strides made in diversified farming. Joseph M. Devine, commissioner of immigration, said in a statement issued here today.

"This department is convinced of the great desirability and general

helpfulness of local agriculture fairs of which up to date several have been held this fall in the different sections of the state." Mr. Devine said. "These little local fairs have a marked tendency to produce optimism as against the despondency of many of our farmers and businessmen throughout the state. Most of the people are unaware of the great progress diversified farming is making in the state and in that statement I included both farmers and businessmen."

Mr. Devine foresees a consistent and steady advance in land values in North Dakota.

"The great corn crop of this year, both in quality and quantity, the rapid development of milk cows and their finished product, cream; the equally rapid advancement in alfalfa, sweet clover, poultry and hogs will continue until the lands in North Dakota will measure up in ability to successfully produce all the products that have made Illinois, Iowa, Wisconsin and Minnesota lands worth from \$150 to \$200 per acre. The increased production of hogs, sheep and beef stock at a more finished type will logically mirror the production of corn. We can produce all these things with as little overhead expense and successfully compete in the open markets with like products from the middle west states. The businessmen in each and every locality should recognize this fact and use every means to encourage the

farmers of their locality to catch the possibility of the New North and not give up their home and farm just at the time when North Dakota is about to swing into the 'bigger, better and brighter experiences.'

Mr. Devine declared he knows of no better way to accomplish this than by conducting local fairs in various communities, having products brought in, judged, assembled and put in order.

"The psychology of such a fair to all who see it results in the expressed or unexpressed thought 'North Dakota is Good Enough For Me!' said Mr. Devine. 'Corn in all its varieties is made the outstanding feature of these fairs, but small grain, alfalfa, sweet clover, vegetables, poultry, pumpkins, squash and honey, in fact anything and everything raised on the farm other than livestock should be on exhibit, and prizes given for the best specimen of their class. Give the farm mother a chance to display and prizes offered for all kinds of home-made products. The overhead expense incident to such a fair will be very little, yet it will be both an opportunity and incentive for both the businessman and the farmer. Farmers will bring the products if the fair is properly advertised. Two weeks' notice through the press in addition to some small posters sent out through the section will be sufficient. Farm products are now in

the best possible condition; the roads good and the weather right."

WEATHER REPORT

For twenty-four hours ending at noon today.
Temperature at 7 a. m. 32.
Temperature at noon 61.
Highest yesterday 57.
Lowest yesterday 43.
Lowest last night 31.
Precipitation 0.
Highest wind velocity 24.
Weather Forecast
For Bismarck and vicinity: Fair tonight and Friday. Little change in temperature.
For North Dakota: Fair tonight and Friday. Little change in temperature.

Weather Conditions

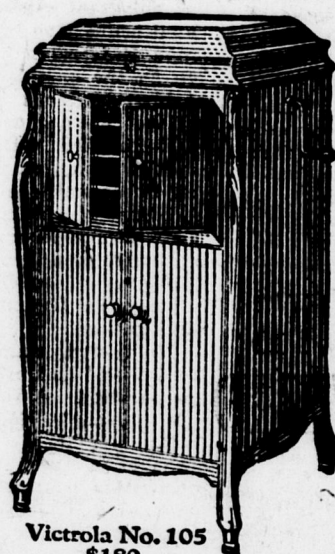

The low pressure area is centered over the middle Mississippi Valley this morning and heavy precipitation occurred in Missouri and Illinois. High pressure prevails over the Rocky Mountain region and the weather is generally fair from the Plains States westward. Temperatures are still quite high in the Great Lakes region and Mississippi Valley but it is considerable cooler over the Plains States and Rocky Mountain region this morning.

Orvis W. Roberts, Meteorologist.

Red Seal Concert and Operatic

DOUBLE-FACED	Number	List Price
Tosca—E lucevan le stelle (The Star of Shing) In Italian (Puccini)	Beniamino Gigli	942 \$1.50
Tosca—O dolci mani (Oh, Gentle Hands) (Puccini)	Beniamino Gigli	
Two numbers of intense and thrilling beauty. The first depicting a few moments of sad, sweet love-memory. Then in the second number, a few moments of false hope.		
The Juggler (Mozzkowski) Piano Solo	Sergei Rachmaninoff	943 1.50
Etude in F Minor (Dohnanyi) Piano Solo	Sergei Rachmaninoff	
In this remarkable piano record, hear Mozzkowski's "Juggler" throw silver balls in the air, and finish off with a whirl. Then hear the subtle and tremendously difficult Etude of Erno Dohnanyi. Both played with splendid virile power.		

Light Vocal Selections

Honey, Dat's All	Olive Kline	45367 1.00
Laddie o' Mine	Lucy Isabelle Marsh	
Two songs for the heart of Woman, however mute and however deeply hidden. "Honey, Dat's All" has wonderfully soft, smooth cadences. "Laddie o' Mine" is in waltz time. Both songs have orchestral interludes.		
My Sweetie Went Away	Billy Murray—Ed. Smalle	19144 .75
I'm a Lonesome Cry Baby	Aileen Stanley	
These three favorite Victor artists are appearing this week as blues artists. Murray and Smalle have a weepy number you already know as a fox trot. Miss Stanley is an excellent cry-baby in her home.		

Recitations

Ten Little Mice and When Father Shakes the Stove	Edgar Guest	45368 1.00
She Powders Her Nose and The Good Little Boy	Edgar Guest	
More of Edgar Guest's familiar little spoken rhymes of everyday life and everyday people. The poet "speaks his own pieces" which are in language and metre of the simplest order.		

Dance Records

Roses of Picardy—Waltz	The Troubadours	19117 .75
Marcheta—Waltz	Green-Arden Orchestra	
"Roses of Picardy" was first made famous in song form by John McCormack. It yields a smooth beautiful dance. "Marcheta" has delicate whistlings and shivery xylophone tremolos. Both ideal for the present fashion of waltzing.		
Last Night on the Back Porch—Fox Trot	Paul Whiteman and His Orchestra	19139 .75
If I Can't Get the Sweetie I Want—Fox Trot	Paul Whiteman and His Orchestra	
Paul Whiteman is back from his European triumphs. He has been crowned "King of the Jazz." In the first number he has a jolly fox trot with vocal refrain. In the second there are new effects. Brilliant, richly-colored, perfect records.		
Wolverine Blues—Fox Trot	Benson Orchestra of Chicago	19140 .75
House of David Blues—Fox Trot	The Virginians	
Two numbers that are sure to please dancers who like unusual effects in their accompaniment.

Community Action To Assure Better Child Health Nationally Is Chief Reason For Big Conclave

HERBERT HOOVER, UNDERWOOD-UNDERWOOD

MRS. WILLIAM BROWN MELONEY

DR. GEORGE E. VINCENT, UNDERWOOD-UNDERWOOD

The American Child Health Association's first annual meeting in Detroit, October 15 to 17, will be unique in that it will not only draw together some of the most eminent child health authorities in the United States, but from other nations as well. Among the chief speakers will be Herbert Hoover, president of the Association, who will deliver the opening address; Dr. George E. Vincent, president of the Rockefeller Foundation; Mrs. William Brown Meloney, noted author and editor, and a director of the Association; Mayor Frank E. Doremus, of Detroit; Dr. Haven Emerson, professor of Public Health Administration of the College of Physicians and Surgeons, New York, who was Health Commissioner of New York from 1915 to 1917; Miss Maud Brown, who is a child health education specialist of nation-wide reputation; Dr. William J. French, director of the Pargo, N. D., child health demonstration; A. D. Jamieson, secretary and scout executive of the Detroit Council of the Boy Scouts of America, and Monsieur J. Maquet, Directeur-General de l'Oeuvre Na-

tionale de l'Enfance, and Secrétaire de l'Oeuvre Nationale des Orphelins de la Guerre in Belgium. M. Maquet was given a place on the program at the suggestion of the Commission for Relief in Belgium Educational Foundation. He will speak on "Belgian Colonies for Dehilitated Children." Some of the topics for discussion and papers to be read will deal with "community programs for child health," "how the general public can bring about better co-ordination of community activities for child health," "the workers in child health education and their duties," "practical methods of teaching health to children," and "the newer phases of public health nursing, and the health of the child in relation to athletics and physical training."

This is a tentative list and is expected to be augmented as the convention draws nearer.

The convention, as the association's first, is expected to be the forerunner of others which will serve annually to bring together the child health experts of the country for suggestion and solution of subjects which will raise child and maternal

health in the United States to a higher plane. Since its organization in January, from a merger to the old American Child Hygiene Association and the Child Health Organization of America, the association has grown rapidly until now the membership numbers nearly 5,000 and extends to many foreign lands. The aims of the Association are to achieve this child-health improvement through helping communities to increase their own health protection to a maximum, through teaching literature, the founding of scholarships for doctors, teachers and nurses in health work, and by other means designed to increase the health knowledge of parents and children. Herbert Hoover is president of the Association. Dr. L. Emmett Holt, noted child health authority, is first vice-president; Courtney Dinwiddie is general executive, and Ella Phillips Crandall is associate general executive. Headquarters of the Association are at 532 Seventeenth Street, Washington, and executive offices at 370 Seventh Avenue, New York City.

FOOTBALL LINTON H. S. vs. BISMARCK H. S. — Second Team — SATURDAY, OCT. 20 — 3:30 P. M. — Bismarck Ball Park Admission 25c and 15c

RESULTS OF N. P. PARLEY ARE DEBATED

Andrews Says League "Insurgents" Win Victory; Nelson Says Harmony Failed

Two opposing views of the recent Nonpartisan League convention in Bismarck are given in "The Progressive," published by John Andrews, and "The Independent Review," organ of the Independent Voters' Association.

Andrews says the victory was one for Progressives.

The Independent Review says the harmony was only pretended and the league factions will be scarping again soon.

"The Progressive" says, "No one can tell whether the repudiation of bosses was made in good faith or accepted as another expedient upon which to get by in a difficult place."

In the latter case the paper warns, one of two things will happen: "the league will be divided or the bosses will find the law which they take as a job enforced with stringency."

Enumerates Points
The Progressive enumerates its victories as follows:

"Repudiation of old leaders—Townley, Lemke and Wood and establishment of state executive committee as supreme authority."

"Severance of relations with national executive committee."

"Establishment of official weekly paper whose editor was to be named by state executive committee though privately owned."

"Secured statement of membership drive of Townley in 1922; condition of Lemke fund; some accounting of \$70,000 accommodation notes; some arrangements to indemnify the signers."

"Repudiation of state executive committee in naming North Dakota Leader the official paper."

"Amended bylaws to accomplish these purposes; the amendments are effective immediately. Retention of present name and until February to remain as part of the Republican party—the third party and Farmer-Labor moved out first."

Another view, edited by Theodore G. Nelson, says: "That the Nonpartisan League convention held at Bismarck October 12, failed as a harmonizer is readily understood when it is realized that the whole proceeding was maneuvered so as to keep the farmer insurgents in the league under the leadership of John Andrews of Fargo, from getting a single opportunity to give the convention a broadside from their camp."

This maneuvering began with the adoption of the order of business and ended with the hurrying over to the adoption of a resolution separating the North Dakota Nonpartisan League from the National Committee, which has not existed for so long that most League members have forgotten it entirely. The only hope left for those who claim to be sincerely trying to make the League a purer farmers' organization lies in another convention to be held in mid-winter and to which the insurgents will undoubtedly try to elect a new set of delegates and incidentally install an executive committee which will not be a Townley-Lemke tool.

Leader Continues
The North Dakota Leader will continue publication despite its repudiation by the North Dakota Nonpartisan League convention in Bismarck October 10, it was announced yesterday by N. S. Davies, the editor. The Leader has been the official organ of the League in this state but at the Bismarck convention the League decided to start publication of a new weekly to be known as the North Dakota Nonpartisan. It had originally been intended to make the new paper a daily but the promoters found that enough money could not be raised to finance a daily. John Bloom, who for years published and edited the Devils Lake Journal, a Democratic paper, is one of the incorporators of the new League weekly.

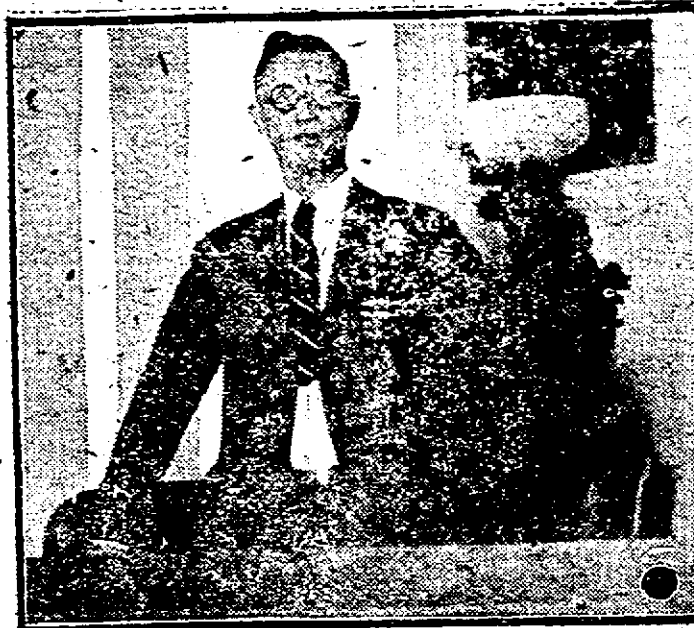

SELL WHEAT TO
CUT WAR DEBT

(Continued from Page 1)

venting the American wheat grower from receiving a reasonable price for the product he raises. In the first place, he has more wheat than the American public consumes, the average amount of such surplus for the past ten years being 170,000,000 bushels. This year that surplus is even larger, and the world surplus is estimated at more than 300,000,000 bushels. He is therefore constrained to sell his surplus in the markets of the world in competition with wheat raised in Canada, India, Australia, the Argentine and Russia, where lands are cheaper and the cost of living is lower than in the United States, which situation enables the foreign wheat raiser to sell his wheat cheaper and thus to establish the world price which the American farmer is unable to meet except by selling his product at less than the cost of production. In the second place, he has been lacking a strong and well-financed marketing organization that would make it possible to put his product on the market as needed, and has therefore been largely constrained to dump the greater share of his wheat on the market immediately after threshing, which practice has had a tendency to bring prices down at the very time when the man who needed adequate returns the most was compelled to sell.

Raise Big Surplus
In bettering marketing conditions the Governor urged support of the farm Bureau Federation and National Wheat Growers' cooperative sales plans. But to eliminate the surplus now on hand he said there should be

CHIEF SCALPER IN ACTION

PRIVATE PARTY offers for sale, holdings in an operating oil company in Oklahoma, which company, during the war, paid large dividends, and by reason of the present financial stress, is forced to sell some of the stock, par value, \$1.00. Address Tribune No. 670. 10-18-11

McHENRY FAIR SUCCESS
Velva, N. D., Oct. 18.—Despite bad roads and inclement weather, south-east McHenry county's agricultural fair, which came to a close here Saturday evening, was pronounced a success. The splendid manner in which the whole program was carried out is largely due to the work done by the secretary, Raymond Anne, director of agriculture, in the Velva schools.

BOUND OVER TO TRIAL
Hillsboro, N. D., Oct. 18.—A. J. Enard of Cummings has been bound over for trial at the next term of the district court here following a raid for liquor on his automobile which he had locked in a lumber yard at Cummings, according to officials.

POET WRITES LIFE STORY

D'Annunzio to Publish Three Books About Himself

Rome, Oct. 18.—Gabriele d'Annunzio, poet, statesman and soldier, has leased from the Italian government the Villa Falconieri, and will relinquish his present residence on Lake Garda. He promises to publish shortly two or three books; one of which, "About Me and Myself," is said to be autobiographical, audacious and outspoken, even for these unretiring days. Another is called "The Adventurer Without Adventure," and yet another, "The Archangel of Asia," gives d'Annunzio's impressions of the East.

The Villa Falconieri is one of the oldest and most romantic of the lovely 17th century villas which were laid out with so much taste and charm by the luxury-loving princes of the Church as their summer residences near Rome. It was acquired twelve years ago by the then emperor of Germany, who had it fitted up as a resting place for German artists, literary men and officers wishing to winter in Rome. During the war it was confiscated by the Italian authorities.

Like all these country houses of the Renaissance, the grounds of the Villa Falconieri are full of statuary, beautiful trees, and formal, exquisite fountains and waterfalls. There is also a romantic lake, surrounded by cypresses, which is said to be haunted by the spirit of a water nymph, or perhaps by that of a young girl of more modern days whose body like that of another Ophelia, was found floating there, crowned and covered with flowers.

Spreading Cheer
Is Contribution
To Mankind

Muskogean Mich., Oct. 18.—Believing that the greatest service any person can give to his fellow man is that of spreading cheer and happiness. A. H. Allen, the largest producer of gladioli in western Michigan, has consecrated his life to the raising of flowers for free distribution to hospitals, charitable institutions and public buildings in order that he may expand his message of human kindness to all who look upon his offerings.

About 15 years ago Mr. Allen became imbued with the idea of serving humanity. Always a lover of flowers, he decided to use them as his medium for showing his love for others.

The Allen farm has 11 acres devoted to the culture of gladioli. During the flowering season the tract is a riot of every color and color combination conceivable. In all there are 97 varieties of this popular flower, each with its distinctive coloring and its own characteristics.

Mr. Allen, during the flowering season, comes down town each day with a supply of blossoms, makes his rounds, and leaves bouquets at the hospitals and in other places where he believes they will be appreciated.

"The sight of flowers is the greatest tonic for persons who are ill or discouraged," Mr. Allen said. "I have proof that flowers do speak a language of gladness. Every morning when I come into Muskogean with a bunch of flowers strangers speak to me on the street. After I have delivered the blossoms and am empty handed no one pays any attention to me. It was the flowers that the strangers spoke to before."

On the Allen farm this year are 120,000 gladioli bulbs in blossom. The growers are at work on several new varieties, several years being required to develop a new species.

guage of gladness. Every morning when I come into Muskogean with a bunch of flowers strangers speak to me on the street. After I have delivered the blossoms and am empty handed no one pays any attention to me. It was the flowers that the strangers spoke to before."

M'KAIG LAND BOUGHT IN

Farm Loan Department of Bank of North Dakota Cannot Collect

Land on which Ray McKaig, formerly an active leader in the Nonpartisan League, obtained loans of \$7,103 from the farm loan department of the Bank of North Dakota, has been surrendered into the hands of the state. McKaig left Morton county, where the land was located, after obtaining loans on the land and failed to make the payment of principal and interest necessary on the land. He is now in Idaho.

There were two McKaig loans, one for \$3,500 and one for \$3,600, according to the records of G. Olgierson, head of the collection department of the Bank of North Dakota, on 713 acres of land. "Since McKaig made no payments the land went to foreclosure and the state bought it in at a sheriff's sale to protect its interest in the loan the best it might, Mr. Olgierson said."

The state has "bought" 2,750 additional acres of land through foreclosure on 11 farm loans made under the Nonpartisan League regime.

Payments being made on interest and principal of farm loans now are reported fairly satisfactory by the bank officials. The interest collections amount to upwards of \$2,700 a day, it is said. It is declared by Mr. Olgierson that interest payments on loans made under the present administration are far better than under the Nonpartisan League administration, though exact comparative figures are not available.

The bank reported to the state board of equalization that delinquencies on Series "A" and "B" loans, being loans made under the former administration, totalled \$319,751.80 on July 1.

Powdered "Pharaoh" Wanted.
Powdered "Pharaoh" was one of the sovereign remedies of medicine times. It cured wounds. It was made into salves and balms. It was swallowed as a physic. It formed the basis of all the black arts.

Othello's handkerchief owed its magic power to dyes made from mummified maidens' hearts. The witches in "Macbeth" gave potency to their charmed brew by adding powdered mummy. To such an extent was tomb-robbing carried on even in ancient times that mummies of the great kings were taken from their own tombs and hidden away in secret places while proxies were left in their stead.—Detroit News.

The Honest Neighbor.
At dusk an amiable neighbor headed his flock across to the next abode, called out the occupant and said: "Mr. Wombat, I want to return your lawn mower."

Wombat declined to take it, whereupon the other man was much perturbed.

"I know I have kept it a long time," he murmured. "Pardon me and let me return it."

To which Wombat responded: "I must be honest with you. I had only one lawn mower and neighbors have already returned six."

Find Old Rum Bottles.
Almost any Sunday a group of men may be seen within a few feet of upper Broadway industriously digging and stirring in the earth in search for Revolutionary relics. The upper section of the city in such places. During the Revolution some 60,000 British and Hessian troops were encamped there from time to time.

The commonest relics of the past unearthed in these excavations are pieces of black bottles. These are discovered by the bushel in scores of places.

Can't Remember.
Some are so exacting in their conception of happiness that they can only single out an hour here and an hour there "when they are happy."

WEBB BROTHERS

"Merchandise of Merit Only"

Christmas is not far off. Ask any woman who makes the gifts she gives and she will tell you what a long time is needed to embroider that little dress for cousin Nellie's baby, to crochet the slippers for grandmother and to work up the other remembrances on her list. Gifts have a way of demanding more time than one has planned to devote to them.

We have just received a large shipment of stamped goods that include many very handsome designs in Towels, Lunch Set, Dresses, Dolls, Baby Pillows, Pillow Cases, in fact one can choose an appropriate piece to meet just a certain demand.

LET US SHOW YOU THE NEW FINISHED MODELS.

Stuck.
The lovers had been sitting out on the porch until late in the evening. The chill of the night had forced them to seek warmer quarters. They went directly to the parlor. Not knowing it, the young man sat on a freshly-varnished chair. When he announced his intention of going home, a troubled look crept over his face.

"Ah, dear," whispered the girl, "you can't tear yourself away from me?"

"No," stammered the young man, "I can't tear myself away from this confounded chair!"

Father Was a Hard Worker.
"What does your father do, little girl?" asked the great lady.

"Oh, he works awful hard," replied the little girl. "He works at the custer house."

"Ah, yes," replied the lady, "the last time that I returned from Europe I thought that his duties were rather heavy."

Christmas Dishes in India.
In native India the favorite Christmas food is a gigantic plate of rice, which is handed round with as many as a score of different curries, all of which each guest is expected to partake. This disposed of, a dish of rice cooked with almonds and colored yellow with saffron invariably follows.

WHEAT WEAK EARLY TODAY

Reports of Russian Exports Lead to Bearish Condition

Chicago, Oct. 18.—Assertions that leading firms had concluded arrangements with Russia for cooperative associations to finance exports of Russian grain had some bearish effect on grain during the early dealings. A decline in Liverpool quotations acted also as a weakening factor. On the downturn, however, commission houses buying increased, the evening which varied from unchanged to one-half cent lower with December \$1.06 1/4 to % and May \$1.10 1/4 to \$1.11 1/4 was followed by a moderate setback.

Subsequently transient strength in corn gave something of an upturn to wheat, but the effect was slight. The close was heavy, 1-2 to 1-8 cents net lower with December \$1.05 1-2 to 5-8 and May \$1.10 1-2 to 5-8.

CHICAGO LIVESTOCK
Chicago, Oct. 18.—Hog receipts 45,000. Mostly 25 cents lower. Cattle receipts 18,000. Very slow. Prospects 15 to 25 cents lower. Early top yearlings \$11.50. Some heifers around \$12.00. Matured stock lower.

Sheep receipts 14,000. Slow, few early sales fat native lambs weak to around 25 cents lower.

ST. PAUL LIVESTOCK
St. Paul, Oct. 18.—Cattle receipts 5,000. Slow, generally weak to 25 cents or more lower. Grass-fed steers largely \$4.25 to \$6.50, with best westerns quotable on up to \$7.50 or somewhat higher. Grass-fat steers largely \$3.00 to \$4.50, with a few young cows and heifers on up to \$5.50 or \$6.00. Canners and cutters largely \$2.00 to \$2.75. Bologna, hams and feeders \$3.50 to \$4.00. Stockers and feeders \$3.50 to \$4.25 to \$7.50. Bulk selling \$3.00 to \$5.50.

Calves receipts 1,800. Twenty-five to 50 cents lower. Best lights largely \$9.50 to \$9.75.

Hog receipts 13,000. Mostly 25 cents lower. Choice-sorted 150 to around 450 pound averages to shippers \$11.00. Bulk mixed lights and butchers \$9.75. Some 300 to 325-pound butchers \$6.50. Bulk packing sows \$6.00 to \$6.10. Few smooth kind higher. Around 2,000 pigs here. Mostly early sales 25 cents or more lower.

Sheep receipts 4,000. Mostly 25 cents lower. Bulk desirable fat lambs \$11.00. Culls largely \$5.00. Sheep steady. Fleshy ewes to packers \$3.50 to \$5.00. Two loads choice 50-pound range feeding lambs late Wednesday \$12.50.

MINNEAPOLIS GRAIN
Minneapolis, Oct. 18.—Wheat receipts 288 cars compared with 527 cars a year ago. Cash No. 1 northern \$1.15 1/4 to \$1.19 1/4. No. 1 dark northern spring

Iowa Physician Makes Startling Offer To Catarrh Sufferers

Found Treatment Which Healed His Own Catarrh and Now Offers to Send It Free To Sufferers Anywhere

Davenport, Iowa.—Dr. W. O. Coffey, Suite 1520, St. James Hotel Bldg., this city, one of the most widely known physicians and surgeons in the central west, announces that he found a treatment which completely healed him of catarrh in the head and nose, and has since had no more of the disease.

He then gave the treatment to a number of other sufferers and they state that they also were completely healed. The Doctor is so proud of his achievement and so confident that his treatment will bring other sufferers the same freedom it gave him, that he is offering to send a 10 days' supply absolutely free to any reader of this paper who writes him. Dr. Coffey has specialized on eye, ear, nose and throat diseases for more than thirty-five years and is honored and respected by countless thousands. If you suffer from nose, head or throat catarrh, catarrh deafness or head noises, send him your name and address today.—Adv.

RESULTS OF N. P. PARLEY ARE DEBATED

Andrews Says League "Insurgents" Win Victory; Nelson Says Harmony Failed

Two opposing views of the recent Nonpartisan League convention in Bismarck are given in "The Progressive," published by John Andrews, and "The Independent Review," organ of the Independent Voters' Association.

Andrews says the victory was one for Progressives.

The Independent Review says the harmony was only pretended and the league factions will be scrapping again soon.

"The Progressive" says: "No one can tell whether the repudiation of bosses was made in good faith or accepted as another expedient upon which to 'get by' in a difficult place."

In the latter case the paper warns, one of two things will happen: "The league will be divided or the bosses will find the law which they take as a joke rendered by stringency."

Enumerates Points

The Progressive enumerates its victories as follows:

- "Repudiation of old leaders—Townley, Lemke and Wood and establishment of state executive committee as supreme authority."
- "Severance of relations with national executive committee."
- "Establishment of official weekly paper whose editor was to be named by state executive committee though privately owned."

"Secured statement of membership drive of Townley in 1922; condition of 'Lemke fund,' some accounting of \$70,000 accommodation notes and some arrangements to indemnify the signers."

"Repudiation of state executive committee in naming North Dakota Leader the official paper."

"Amended bylaws to accomplish these purposes: the amendments are effective immediately. Retention of present name and until February to remain as part of the Republican party—the third party and Farmer-Labor move did first."

Another View

The Independent Review, edited by Theodore G. Nelson, says: "That the Nonpartisan League convention held at Bismarck October 10, failed as a harmonizer is readily understood when it is realized that the whole proceeding was managed so as to keep the farmer insurgents in the League under the leadership of John Andrews of Fargo, from getting a single opportunity to give the convention a broadside from their camp. This maneuvering began with the adoption of the order of business and ended with the hurrying over the adoption of a resolution separating the North Dakota Nonpartisan League from the National Committee, which has not existed for so long that most Leaguers have forgotten it entirely. The only hope left for those who claim to be sincerely trying to make the League a purer farmers' organization lies in another convention to be held in mid-winter and to which the insurgents will undoubtedly try to elect a new set of delegates, and incidentally install an executive committee which will not be a Townley-Lemke tool."

Leader Continues

The North Dakota Leader will continue publication despite its repudiation by the North Dakota Nonpartisan League convention in Bismarck October 10, it was announced yesterday by N. S. Davies, the editor. The Leader has been the official organ of the League in this state but at the Bismarck convention the Leaguers decided to start publication of a new weekly to be known as the North Dakota Nonpartisan. It had originally been intended to make the new paper a daily but the promoters found that enough money could not be raised to finance a daily. John Bloom, who for years published and edited the Devils Lake Journal, a Democratic paper, is one of the incorporators of the new League weekly.

SELL WHEAT TO CUT WAR DEBT NESTOS URGES

(Continued from Page 1)

venting the American wheat grower from receiving a reasonable price for the product he raises. In the first place, he has raised more wheat than the American public consumes, the average amount of such surplus for the past ten years being 170,000,000 bushels. This year that surplus is even larger, and the world surplus is estimated at more than 300,000,000 bushels. He is therefore constrained to sell this surplus in the markets of the world in competition with wheat raised in Canada, India, Australia, the Argentine and Russia, where lands are cheaper, labor costs lower, taxes less, and the general standard of living in the last four mentioned much below that of the United States, which situation enables the foreign wheat raiser to sell his wheat cheaper and thus to establish the world price which the American farmer is unable to meet except by selling his product at less than the cost of production. In the second place, he has been lacking a strong and well-financed marketing organization that would make it possible to put his product on the market as needed, and has therefore been largely constrained to dump the greater share of his wheat on the market immediately after threshing, which practice has had a tendency to bring prices down at the very time when the man who needed adequate returns the most was compelled to sell."

Raise Big Surplus.

In bettering marketing conditions the Governor urged support of the Farm Bureau Federation and National Wheat Growers' co-operative sales plans. But to eliminate the surplus now on hand he said there should be

a governmental marketing agency created. During the war, he said, Northwest farmers responded nobly, raising wheat at a fixed price below the price of supply and demand, to feed the armies. Since the war this increased production has continued, he said, and a great surplus of wheat has resulted.

"Then, in order to make the early elimination of the surplus more certain, there should be a definite and aggressive campaign to increase the number and, within reasonable limits, the amount of diversified products raised in each state," Governor Nelson said. "Wherever we succeed in establishing a well balanced diversification, where poultry and the garden are highly regarded, where a large acreage of tame grasses and cultivated crops is maintained each year, and a sufficient number of farm animals to consume these and to make possible the restoration and maintenance of the fertility of the soil, we will not only insure the farmer some paying products each year but the resulting improvement in fertility of soil, in cleaner land, and better farming, will so increase the yield per acre as to make the wheat still raised, even at present prices, pay the cost of production. This development must be speeded and this condition of well balanced diversification secured as soon as possible in order to insure a satisfactory economic condition among our farmers with its attendant industrial prosperity and economic stability."

Wombat declined to take it, whereupon the other man was much perturbed.

"I know I have kept it a long time," he murmured. "Pardon me and let me return it."

To which Wombat responded: "I to which Wombat responded: 'I had only one lawn mower and neighbors have already returned six.'"

Find Old Rum Bottles.

Almost any Sunday a group of men may be seen within a few feet of upper Broadway industriously digging and stirring in the earth in search for Revolutionary relics. The upper end of Manhattan island is especially rich in such relics. During the Revolution some 60,000 British and Hessian troops were encamped there from time to time.

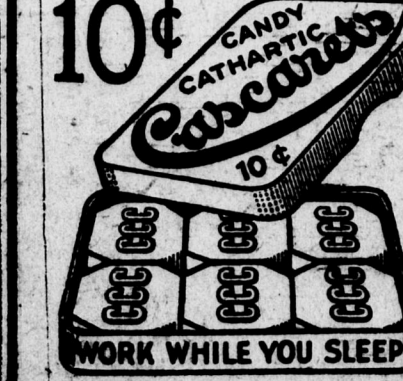

The commonest relics of the past unearthed in these excavations are pieces of black bottles. These are discovered by the bushel in scores of places.

Can't Remember.

Some are so exacting in their conception of happiness that they can only single out an hour here and an hour there "when they are happy."

IF CONSTIPATED, SICK, BILIOUS

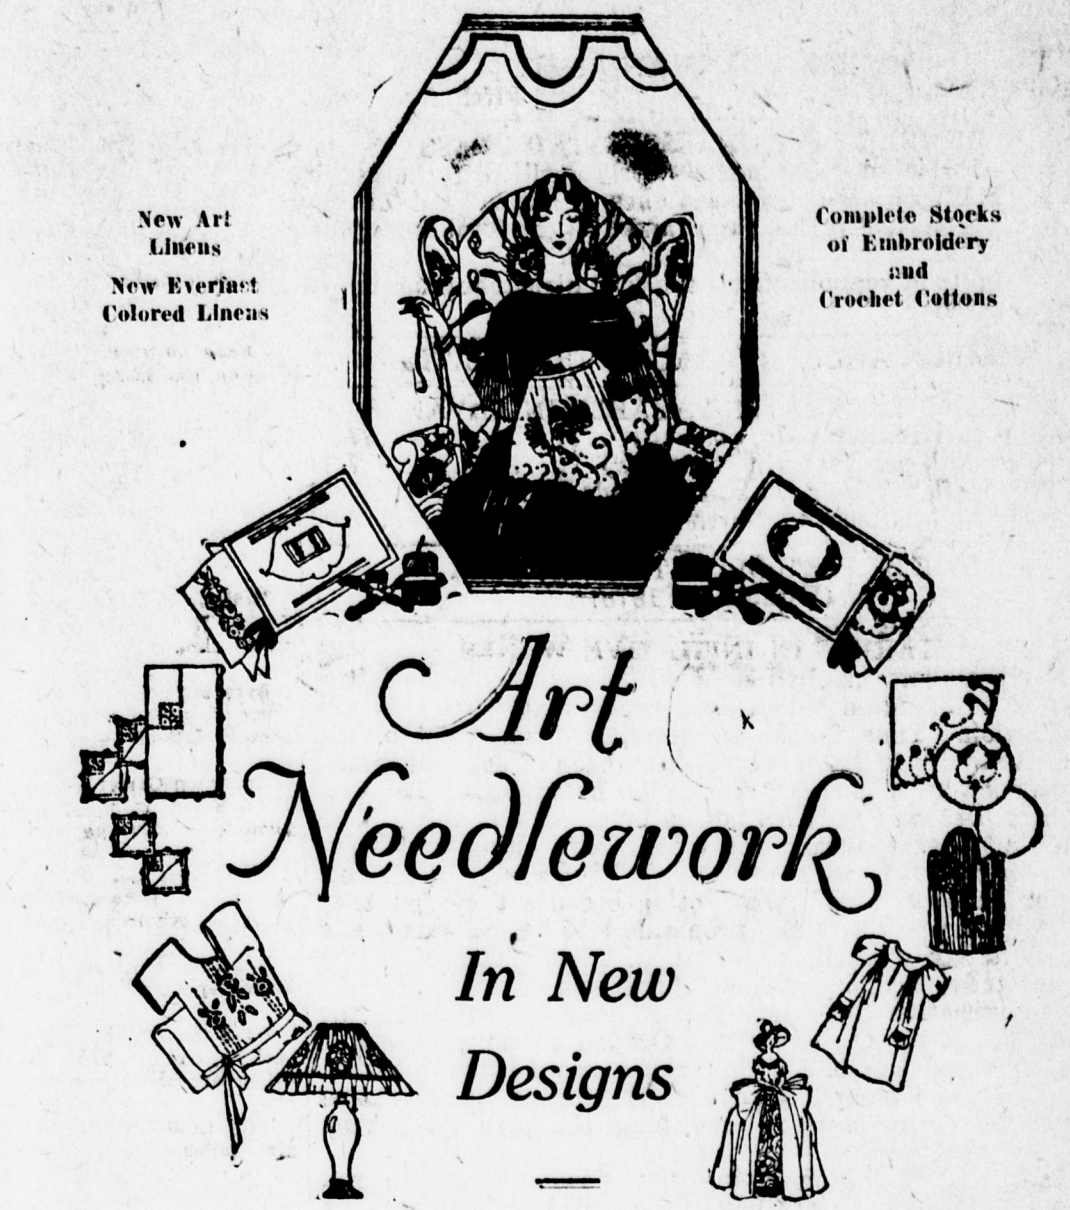

Harmless Laxative for the Liver and Bowels

Feel fine! No griping or inconvenience follows a gentle liver and bowel cleansing with "Candy Cathartic." Sick Headache, Biliousness, Gases, Indigestion, and all such distress gone by morning. For Men, Women and Children—10c boxes, also 25c and 50c sizes, any drug store.

WEBB BROTHERS

"Merchandise of Merit Only"

Christmas is not far off. Ask any woman who makes the gifts she gives and she will tell you what a long time is needed to embroider that little dress for cousin Nellie's baby, to crochet the slippers for grandmother and to work up the other remembrances on her list. Gifts have a way of demanding more time than one has planned to devote to them.

We have just received a large shipment of stamped goods that include many very handsome designs in Towels, Lunch Set, Dresses, Dolls, Baby Pillows, Pillow Cases, in fact one can choose an appropriate piece to meet just a certain demand.

LET US SHOW YOU THE NEW FINISHED MODELS.

Stuck. The lovers had been sitting out on the porch until late in the evening. The chill of the night had forced them to seek warmer quarters. They went directly to the parlor. Not knowing it, the young man sat on a freshly-varnished chair. When he announced his intention of going home, a troubled look crept over his face. "Ah, dear," whispered the girl, "you can't tear yourself away from me?"

ASPIRIN

Say "Bayer"—Genuine!

BAYER

Colds

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians over twenty-three years and proved safe by millions for Colds and gripe misery. Handy boxes of twelve tablets cost only a few cents at and drugstore. Each package contains proper directions for Colds and tells how to prepare an Aspirin gargle for sore throat and tonsillitis.

COUGHS-COLDS "FLU"

Go to the drug store and get a bottle of McMULLIN'S FORMULA. Use freely as directed for coughs, colds, bronchial troubles, weak lungs, asthma. A reliable germicide and preventive against germ diseases. Many uses in every home for grown ups and children. Mfrd only by Tilden McMullin Co., Sedalia, Mo. Sold by Lenhart Drug Co.

ENGINEERS IN PROTEST OVER WORK'S LETTER

Protest Dismissal of A. P. Davis, Director of Reclamation, and Work's Explanation

CALL IT POLITICS

Richmond, Va., Oct. 18.—The American society of civil engineers today in convention unanimously endorsed action of the board of directors of the society recommending the sending of a scathing letter of protest to Secretary of Interior Work for his action in removing A. P. Davis as director of the reclamation service, and his statement that engineers are not qualified to direct government irrigation.

The letter, which was sent today to Dr. Work, follows:

"Hon. Hubert Work, Secretary of the Interior, Washington, D. C.

"Sir: Your courteous reply of August 14, to our inquiry of June 27 has been very carefully considered and the whole matter of your dismissal of Director A. P. Davis, of the Reclamation Service has been investigated by this board, aided by a special committee of two fair-minded engineers widely experienced in public service and business affairs, one of whom is an honorary member and the other a past president of this society. We regret to have to state that after mature deliberation we feel constrained to protest against your action with the utmost vigor.

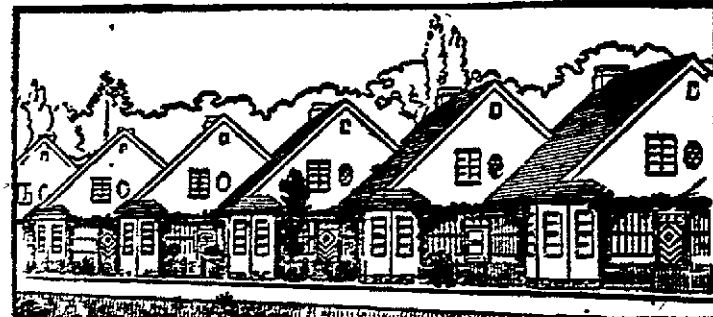

"1. Because the dismissal, being so sudden and but little over three months after you became secretary, was arbitrary, and was unjust to a highly efficient and experienced public official, a most eminent civil engineer of long recognized national and international standing in his profession whose high qualifications you yourself have certified by offering to make him consulting engineer of the reclamation service.

"2. Because the action necessarily must undermine the morale and loyalty of the whole reclamation service, tending to substitute political standing for merit and leading to the danger that the public funds may be wasted through inefficiency. Similar action applied to other technical bureaus would demoralize the entire technical and scientific service of the government.

"3. Because action was taken by the device of nominally abolishing the position and immediately creating its equivalent under another name a subterfuge which, as we are informed it has been attempted to legalize by an ex-post facto executive order. Furthermore, the change repeatedly has been made in the press and without denial by you that your offer to retain Mr. Davis as consulting engineer of the reclamation service was on condition that he omit to state that his resignation

Small Dwellings Set at Angle to the Street to Give More Light and Air and Greater Security Against Intruders and Electricity are Supplied from a Central Plant

More Light and Air for Small Homes

Some of the disadvantages of small dwellings built in groups for the sake of economy have been overcome in Germany by placing the houses at an angle to the street to provide more light and air for each dwelling. Such groups are easily supplied with heat, electricity, and water from a single center. Under

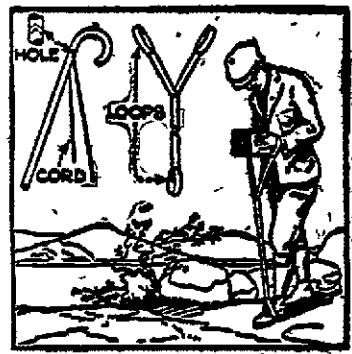

VEGETABLE GARDENS

Women Inventors Are Busy on Industrial Problems

To learn just what part women were taking in inventions, government officials recently undertook a survey that showed over 5,000 patents had been granted to them in 10 years, more than the total for 105 years previous. The first patent granted an American woman was given by the British government to the wife of a Pennsylvania planter, for a device to clean and cure corn. Labor-saving machines are said to make up the majority of women's inventions, one making an apparatus for scattering fertilizer, another an adjustable horse collar was made by a Montana woman. For the kitchen, a pie pan was brought out that prevented juices from overflowing the rim, and a wooden mixing bowl was invented that would not split. Almost every line of business was included, but 1,385 patents were for articles of housekeeping.

Novel Methods of Taking Time Exposures

Tripos are more or less of an annoyance to the camera enthusiast, and few use them. However, it is sometimes necessary to make a time exposure to get the desired picture, but the camera cannot be held steadily enough with the hands to avoid doubling the image. It is, however, a simple matter to hold the camera steady if a cane is carried along. Just below the crook of the cane two holes are drilled from opposite sides to meet in the center, both slanting down from the point of junction. Another hole is drilled through the crook to take a tripod screw, on which the camera is mounted. A cord is run through the angular hole, the ends of the cord are stepped on, and pulled taut by pulling back on the cane, which has the end planted on the ground in the position indicated, thereby holding the camera firmly in position. Another method of steadying the camera is to cut a length of tape into three pieces, and to tie or paste these pieces together at the central point, as shown, making a form of the letter Y. Loops are made at the ends so that the foot can be placed in one loop, and each

CORD

Wrist in another. Then, with the camera clamped between both hands, an upward pull will enable the user to hold the camera steadily.

A waterproof glue is made by dissolving gelatin in hot water, to the consistency of thick cream, and adding a tablespoonful of acetic acid to each pint.

The fact that hundreds of thousands of Americans are content to trust investments of billions of dollars to the hands of engineers is ample proof—if any be needed—of the falsity of the charge that engineers are not business men.

Your explanation, therefore, is inadequate in every respect your action is of a character most dangerous as well as unjust. We protest, in the strongest terms.

The board of directors of the American Society of Civil Engineers, by Charles F. Loweth, president, John S. Dunlap, secretary.

MINK WRAPS.

LOCAL FAIRS NOW URGED ON COMMUNITIES

J. M. Devine, Commissioner of Immigration, Proposes They Be Held All Over N. D.

COST SAID VERY SMALL

Result Will Be To Convince Many of What North Dakota Really Is, He Says

Local fairs throughout the state constitute one of the best methods of opening the eyes of people generally of the agricultural resources of North Dakota and of impressing upon them the great strides made in diversified farming. Joseph M. Devine, commissioner of immigration, said in a statement issued here today.

"This department is convinced of the great desirability and general

helpfulness of local agriculture fairs of which up to date several have been held this fall in the different sections of the state," Mr. Devine said. "These little local fairs have a marked tendency to produce optimism as against the despondency of many of our farmers and businessmen throughout the state. Most of the people are unaware of the great progress diversified farming is making in the state, and in that statement I included both farmers and businessmen."

Mr. Devine foresees a consistent and steady advance in land values in North Dakota.

"The great corn crop of this year, both in quality and quantity, the rapid development of milk cows and their finished product, cream; the equally rapid advancement in alfalfa, sweet clover, poultry, and hops will continue until the lands in North Dakota will measure up in ability to successfully produce all the products that have made Illinois, Iowa, Wisconsin and Minnesota lands worth from \$150 to \$200 per acre. The increased production of hops, sheep and beef stock at a more finished type will logically mirror the production of corn. We can produce all these things with as little overhead expense and successfully compete in the open markets with like products from the middle west states. The businessmen in each and every locality should recognize this fact and use every means to encourage the

farmers of their locality to catch the possibility of the New North Dakota and not give up their home and farm just at the time when North Dakota is about to swing into the bigger, better and brighter experiences."

Mr. Devine declared he knows of no better way to accomplish this than by conducting local fairs in various communities, having products brought in, judged, assembled and put in order.

"The psychology of such a fair to all who see it results in the expressed or unexpressed thought 'North Dakota is Good Enough For Me!' said Mr. Devine. "Corn in all its varieties is made the outstanding feature of these fairs, but small grains, alfalfa, sweet clover, vegetables, poultry, pumpkins, squash and honey, in fact anything and everything raised on the farm other than livestock should be on exhibit, and livestock should be the best specimen of their class. Give the farm mother a chance to display and prizes offered for all kinds of home-made products. The overhead expense incurred to such a fair will be very little, yet it will be both an opportunity and inducement for both the businessman and the farmer. Farmers will bring the products if the fair is properly advertised. Two weeks' notice through the press in addition to some small posters sent out through the section will be sufficient. Farm products are now in

the best possible condition; the roads good and the weather right."

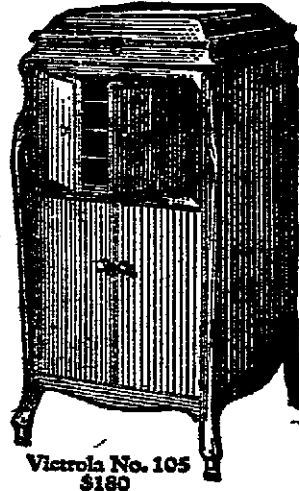

WEATHER REPORT
For twenty-four hours ending at noon today.
Temperature at 7 a. m. 32.
Temperature at noon 51.
Highest yesterday 67.
Lowest yesterday 43.
Lowest last night 31.
Precipitation 0.
Highest wind velocity 24.

Weather Forecast
For Bismarck and vicinity: Fair tonight and Friday. Little change in temperature.
For North Dakota: Fair tonight and Friday. Little change in temperature.

Weather Conditions
The low pressure area is centered over the middle Mississippi Valley this morning and heavy precipitation occurred in Missouri and Illinois. High pressure prevails over the Rocky Mountain region and the weather is generally fair from the Plains States westward. Temperatures are still quite high in the Great Lakes region and Mississippi Valley but it is considerable cooler over the Plains States and Rocky Mountain region this morning.

VELVET COAT DRESS
Striped velvet makes an unusually striking coat dress that is banded with fur and trimmed with buttons.

"HIS MASTER'S VOICE"

Out tomorrow New Victor Records October 19, 1923

Red Seal Concert and Operatic

Tosca—E lucevan le stelle Beniamino Gigli 942 \$1.50
(The Song of the Slave) In Italian (Puccini)
Tosca—O dolci mani (Oh, Gentle Hands) Beniamino Gigli
Two numbers of intense and thrilling beauty. The first depicts a few moments of sad, desperate love. Then, in the second number, a few moments of false hope.

The Juggler (Moszkowski) Piano Solo Sergei Rachmaninoff 943 1.50
Etude in F Minor (Debussy) Piano Solo Sergei Rachmaninoff
In this remarkable piano record, hear Moszkowski's "Juggler" throw silver balls in the air, and finish off with a whirl. Then hear the subtle and tremendously difficult Etude of Eino Holmberg. Both played with splendid violin power.

Light Vocal Selections

Honey, Dat's All Olive Kline 45367 1.00
Laddie o' Mine Lucy Isabelle Marsh
Two songs for the heart of Woman, however mute and however deeply hidden. "Honey, Dat's All" has wonderfully soft, smooth cadences. "Laddie o' Mine" is in waltz time. Both songs have orchestral introductions.

My Sweetie Went Away Billy Murray—Ed. Smalley 19144 .75
I'm a Lonesome Cry Baby Aileen Stanley
These three favorite Victor artists are appearing this week as blues artists. Murray and Smalley have a weepy number you already know as a fox trot. Miss Stanley is an excellent cry-baby in her home.

Recitations

Ten Little Mice and When Father Shakes the Stove Edgar Guest 45368 1.00
She Ponders Her Nose and The Good Little Boy Edgar Guest
More of Edgar Guest's familiar little spoken rhymes of every day life and everyday people. The poet "speaks his own pieces" which are in language and metre of the simplest order.

Dance Records

Roses of Picardy—Waltz The Troshadours 19117 .75
Marcheta—Waltz Green-Arden Orchestra
"Roses of Picardy" was first made famous in song form by John McCormack. It yields a smooth beautiful dance. "Marcheta" has delicate whistlings and shivery xylophone tremolos. Both ideal for the present fashion of waltzing.

Last Night on the Back Porch—Fox Trot Paul Whiteman and His Orchestra 19139 .75
If I Can't Get the Sweetie I Want—Fox Trot Paul Whiteman and His Orchestra
Paul Whiteman is back from his European triumphs. He has been crowned "King of the Jazz." In the first number he has a jolly fox trot with vocal refrain. In the second there are new effects. Brilliant, richly-colored, perfect records.

Wolverine Blues—Fox Trot Benson Orchestra of Chicago 19140 .75
House of David Blues—Fox Trot The Virginians
Two numbers that are sure to please dancers who like unusual effects in their accompaniment.

Community Action To Assure Better Child Health Nationally Is Chief Reason For Big Conclave

HERBERT HOOVER

MRS. WILLIAM BROWN MELONEY

DR. GEORGE E. VINCENT

The American Child Health Association's first annual meeting in Detroit, October 15 to 17, will be unique in that it will not only draw together some of the most eminent child health authorities in the United States, but from other nations as well.

Among the chief speakers will be Herbert Hoover, president of the Association, who will deliver the opening address; Dr. George E. Vincent, president of the Rockefeller Foundation; Mrs. William Brown Meloney, noted author and editor, and a director of the Association; Mayor Frank E. Bennett of Detroit; Dr. Haven Emerson, professor of Public Health Administration of the College of Physicians and Surgeons, New York; and Dr. A. D. Jamieson, medical commissioner of New York.

From 1915 to 1917, Miss Mary Brewster was a child health expert and a manager of nation-wide campaigns in France, Belgium, and Italy.

Dr. Vincent is a child health expert and a manager of nation-wide campaigns in France, Belgium, and Italy.

tionale de l'Enfance, and Secrétaire de l'Oeuvre Nationale des Orphelins de la Guerre in Belgium. M. Maquet was given a place on the program at the suggestion of the Commission for Relief in Belgium Educational Foundation. He will speak on "Belgian Colonies for Dehydrated Children."

Some of the topics for discussion and papers to be read will deal with "community programs for child health," "how the general public can bring about better co-ordination of community activities for child health," "the workers in child health education and their duties," "practical methods of teaching health to children," and "the newer phases of public health nursing, and the health of the child in relation to athletics and physical training."

This is a tentative list and is expected to be augmented as the convention draws nearer.

The convention, as the association's first, is expected to be the first of others which will serve as a model to bring together the child health experts of the world for cooperation and solution of child health problems which will raise child and maternal

health in the United States to a higher plane. Since its organization in January, from a merger to the old American Child Hygiene Association and the Child Health Organization of America, the association has grown rapidly until now the membership numbers nearly 5,000 and extends to many foreign lands.

The aims of the Association are to achieve this child-health improvement through helping communities to increase their own health protection to a maximum, through teaching literature, the founding of scholarships for doctors, teachers and nurses in health work, and by other means designed to increase the health knowledge of parents and children.

Herbert Hoover is president of the Association. Dr. L. Emmett Holt, noted child health authority, is first vice president; Courtney Dirwin is general executive, and Ella Phillips Crandall is associate general executive. Headquarters of the Association are at 552 Seventeenth Street, Washington, and executive offices at 370 Seventh Avenue, New York City.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

INTEREST IN INITIATIVE WANES

North Dakota has had some experiences with the initiative and referendum which have evoked expressions of dissatisfaction. Thus far in the state, however, most of the initiative and referred measures have been of political nature and as such have caused a remarkably heavy vote. The vote has been less on measures not so involved, and there is no doubt but that thousands of voters have either cast their ballot or have refrained from voting because they felt they had not time to study the proposals laid before them, and which ordinarily would be left to legislators whose duty it was to study, consider and act upon them.

The initiative has been used to greater extent on the Pacific Coast. In California and Oregon so many measures have cluttered the ballot that there has been a reaction, laws have been passed to restrict the use of the initiative and serious proposals for abolishing the plan have been made.

Just now Oregon is giving attention to the initiative. Since 1904 Oregon voters have been called upon to vote on 174 initiative measures, and have exercised the recall twice. A table issued in Oregon shows that when the initiative first came into being from 40 to 60 per cent of the voters cast ballots on the measures. Interest has steadily dwindled until in the last few years only 15 to 30 per cent have been exercising the privilege of direct legislation.

The result is plain. Legislation is enacted by a minority of the voters. A few thousand citizens banded together in a well-knit organization are enabled to put laws on the statute books, which may serve their special interests and which might be displeasing to the large body of voters. If the initiative, in Oregon, is establishing a rule by minorities its effect is just the opposite from what the originators of the method of legislation intended. The initiative was invented to prevent powerful minorities from frustrating the majority of the people.

BEST BRAINS

Rodger Dolan writes: These contraptions such as radio and the airplane and the auto are wonderful, of course. And they've all come in our generation, so we must be a race of super-men. But isn't it more remarkable—at least, difficult to understand—how it took the human race so long to figure these things out?

There is a definite thought.

In the last 100 years, man has made greater progress than in all time that went before. This is debatable, but the "yes" side will win every time.

When the novelty wears off, we learn that the new marvels are simple after all. So simple, we say, "It's a wonder no one thought of it before."

Men of history, through thousands of generations—possibly millions—made very little real progress. Then everything seemed to come overnight, and is still coming. As if the whole past had been preparatory and our century merely is reaping the harvest.

To some extent, that's true.

The real answer, though, is this: It is only within the last century that the best brains have devoted themselves to industry, mechanics and higher sciences applied to practical things.

The best brains used to "go in for" the arts and professions. In our generation, they apply themselves to economics—inventing and putting the great inventions to use.

Jules Verne DREAMED about it. The modern Jules Verne DOES it.

With this as a background, it's logical that most of our big present economic problems are in the nature of details or loose ends which will be caught up later, when we LEARN TO APPLY THE GREAT INVENTIONS CORRECTLY.

THE OTHERS

Occasionally you meet a strange personality—and try to fathom him or her. When you succeed, you discover that the strange personality is pretty much like the rest of us after the mask is removed.

Differences in people are largely on the surface. In nine-tenths of our ways, we're all alike. Though often it takes individual trouble or a common calamity to tear the masks aside and literally bare us down to bedrock.

A decided contrast in human personalities is presented by a group of people. No two look alike. Yet basically they're the same, just as gold is gold even when tarnished or plated.

Men occasionally forget that other people are also human, with the same basic emotions as themselves. This misunderstanding of our neighbors—of strangers in the crowd—causes much of the troubles of life. Especially wars.

PROFITS OF BUILDING

Big office buildings, five to 30 stories high, earn an average of only 4 to 7 per cent on the money invested in the building, according to an architectural magazine.

For the smaller skyscrapers, the land or site is usually worth more than the building. When it comes to 30-story buildings, the land is generally worth a quarter as much as the building.

The value of land, of course, usually is created by people who work on it or nearby, not by the land owner. It's an interesting system of the public being taxed by individuals who got there first.

DOLLAR'S WORTH

The dollar is worth only 65 cents now, compared with its buying power in 1913. This is the government estimate.

Either discouraging situation to anyone preaching thrift, the fact that 35 cents of each dollar saved in 1913 has vanished. It works another way. The 65 cents saved now may be worth 100 cents of buying power later on. That'll depend on the range trend of prices.

Well, funny news is so scarce we wish it would snow in Africa or Bryan or Ford say something.

News from King Tut. Carter wants to open the tomb. Bet he finds a silver or filling station.

Who knows what they will find in Tut's tomb? We don't. May even find that no banana song.

One thing that probably will be found in Tut's tomb is a set of pre-election promises to voters.

No doubt Tut's tomb contains writings proving the younger generation was going to the dogs.

Man in Fort Smith, Ark., wants the city to get him a wife. If they did it would serve him right.

Portland (Ore.) man asks divorce because she was a bootlegger instead of because she wasn't.

Hollywood beauty parlor remodels faces. If it isn't kept busy it certainly should be.

Syracuse boy of 11 goes to college. Some day you may see a college campus full of nurses.

Bet when Carter enters Tut's tomb Tut thinks it was a plumber he phoned for 4500 years ago.

When they get Tut's tomb open they may find the world series played in New York in those days.

But Tut's tomb shows some ancient stenographer couldn't spell.

Washington ragpicker got \$3,230 back pension. We refuse to say things are picking up for him.

They think outdoor life is making girls taller. We think it is standing up in street cars.

Firpo, the prize boxer, will make a movie. He will not play the part of a threshing machine.

More cow news. Los Angeles people drink a pint of milk a day, when it isn't half water.

In Paris an actress has been denied divorce. No cause for such cruelty is given.

They will make flivvers in Poland. Poles will make them. Well, poles frequently break them.

In London the bally monacle gains popularity. But don't wear one unless you can fight.

They are planning to make all chickens lay twice daily. Now if hogs only had eight legs.

A bargain counter is where a woman ruins her clothes trying to get some more clothes cheap.

California man says he caught a fish weighing 324 pounds. Wire doesn't say what the fish weighed.

Marquette (Mich.) burglar thanked a bank he robbed, which is more than cashiers do.

Two Milwaukee sisters, both teachers, married the same day, which was a streak of luck.

ADVENTURE OF THE TWINS

By Olive Roberts Barton

Mister Dodge wrote this poem and read it to Nancy and Nick in his corn-shock house in Squeaky-Moo Land:

Said the guinea-pig to the guineahen, "I haven't been away in I don't know when."

Said the guineahen to the guinea-pig, "Why that's just because you are not very big."

So you get your coat and I'll get my hat, And we'll both go and see where the king lives at."

So off they went in a ten-cent bus, With plenty of feathers but without any furs.

A big guinea-piece made out of gold Was the only money they had, I'm told;

They rode and they rode but were two days late, And they missed the express so went by freight.

They shipped on a boat o'er the briny deep, Guinea-pig got sick and he cried, "Peep, peep!"

But Miss Hen found a great big book, And she said as she read with a long, deep look.

"Here's a place called Guinea, right on the sea, Piggy-Wig, that's the place for you and me."

So she put on her hat, and the pig got his coat, And they jumped o'er the side of the great big boat.

And as luck would have it, they caught a whale, And they hoisted a muslin sheet for a sail.

And they landed in Guinea in time for tea, But alas, there was nothing to drink but sea.

"Oh, me, oh, my!" called the pig to "I'd dearly love a yellow carrot."

"While I" said the hen in a hungry voice, "Twist corn and oats would have no choice."

But the parrot laughed till he couldn't see, And she said with a "My, oh me!"

The two friends stood on the sand

To the Rescue

LETTER FROM ABRAM EINSTEIN TO JACOB BLOOM.

MY DEAR JAKE:
Of course you know by this time what a ten strike that little girl stole away from you has made. I was sorry I couldn't get on to New York for her opening there but we are putting in a new production for her immediately.

You have to work fast with these young women if you want to get the money out of them. The public soon gets tired of even the best of them and they have only a few years to make good.

I think perhaps that with Paula things will be a little bit different as she is very far from being a dumb-bell like the most of them and she has a very great sense of gratitude toward you truly, and I am sure that she won't get off my lot the moment some other moving picture pirate offers her ten dollars a week.

"Don't think I haven't a contract with her because I say this. I have, my boy, but you know how much good a contract is to anyone when someone really wants to break it. I don't think, however, that little Perier will break any contract. The only time she seems happy is when she is on one of the sets going through her part. So far she seems very grateful to me.

This certainly is a bear for work. Of course everybody thinks she is "Abe Einstein's sweetie" but they are all mistaken, Jake, every one of them. She treats me as though I was her daddy and between you and I she has got them all guessing, including myself.

It's only once in a while that anybody can get her away from her bungalow, where she lives all alone.

(Copyright, 1923, NEA Service, Inc.)

A Thought

Herein is love, not that we loved God, but that he loved us, and sent his Son to be the propitiation for our sins.—I John 4:10.

The captain of a ship put into a little harbor in Scotland to recruit two seamen. One man presented himself with a sheaf of excellent testimonials, and another offered his services without possessing a single credential. As they were the only two applicants, however, the skipper had no choice but to engage both. Before the voyage had gone far the two new "hands" were instructed to swab the deck, and one of them was washed overboard together with his pall. The other rushed to the captain's cabin.

"I've remember that fellow with the great bunch of 'characters' you signed on?" he exclaimed.

"I do," replied the officer.

"Well," said the other, "he's awa' wi' your bucket."—London Tit-Bits.

(Copyright, 1923, NEA Service, Inc.)

EVERETT TRUE BY CONDO

(WELL, EVERETT, HOW'S THE OLD BOY? SINCE I SAW YOU LAST I'VE BEEN AWAY ON A FISHING TRIP. I LEFT HERE ON THE FIRST OF LAST MONTH AND GOT BACK ON THE FIFTEENTH. AND SAY, MAN, I CAUGHT.....)

I'll be going now!! WHAT LITTLE YOU'VE TOLD ME SOUNDS REASONABLE!!

Rev. Dan Higgins, C. S. R. of St. Louis is visiting in North Dakota this week in the interests of the deaf and dumb.

Mrs. Arthur Booth and baby left last evening for Minneapolis to spend a month visiting relatives.

Mrs. W. J. Rung has left for Iowa to spend a month or six weeks with relatives.

Mrs. V. L. Wilson who has been a guest at the home of her aunt, Mrs. J. F. Williams has left for her home at Hebron.

Funeral services for Mrs. Thomas Adams who died Monday at the home of her daughter in Livingston, Mont., will be held this afternoon from the Presbyterian church. Mrs. Adams who is about 65 years of age has resided on the farm just south of the city for the past 40 years, leaving only about six months ago to make her home with a daughter.

A cancer was responsible for her death. She is well known in Mandan and this section of Morton county with a wide circle of friends.

A son was born yesterday to Mr. and Mrs. George Beaumont of Jamestown. Mrs. Beaumont is a daughter of Mr. and Mrs. Chris Sakariassen of Mandan.

Mr. and Mrs. Mike Haider who have been guests at the home of their daughter, Mrs. J. B. Fredericks for the past two months left today for their home in Los Angeles, Calif. Enroute the plan to spend about a week with another daughter, Mrs. Carl Johnson of St. Paul.

Mrs. Elma Ransvåg who has been a guest for the past week at the home of Mr. and Mrs. C. I. Larson has left for her home in Spokane Wash.

The Chinese Family

By MORRIS SCHULTZ

The prettiest, daintiest little bride that ever stepped out of Chinatown, the missionary lady called her. Honeyblossom had been the pride of the mission school, and her marriage with Cheng Yung, which was celebrated according to the mission rites, was a love match.

At least, so far as the Chinese were capable of love, it was admitted. When Cheng Yung bore Honeyblossom away to his lair, the other end of the city, every eye was grieved.

"I hope he doesn't ill-treat her," said old Miss Wimpole, "I hope they don't backslide," sighed the missionary lady.

"Two heavy when Miss Wimpole stopped and sniffed.

"Incense!" she muttered. They looked at each other in alarm. They quickened their footsteps. They reached the door. The smell of incense was unmistakable.

Honeyblossom admitted them. She was wrapped in a Chinese kimono, her beautiful black hair was done up with jade pins and, bowing almost to the ground, she opened the door of the living room.

Lacquers and bronzes, tiny tables a foot or so from the floor, trays of catkin and willow—everything was Chinese. And in one corner—

"It's an opium pipe!" cried Mr. Clatterbuck.

The trio fell upon poor Mrs. Yung. "This is an outrage!" exclaimed the missionary. "Five left you perfectly decent, respectable American woman and you've turned into a heathen."

"And you'd better hurry up and turn back," said Miss Wimpole, "or we'll have your husband's right to live in America inquired into."

Honeyblossom turned pale. Every one knew that not one Chinaman in ten resided in this country by right of law.

Honeyblossom promised amendment, in her pretty, lisping English. The next morning she paid her surprise visit and found things the same.

"Those Chinese are incorrigible," said Miss Wimpole. "It's a disgrace to a civilized land, not having proper furniture and burning that horrible smelly incense. I think Yung's credentials ought to be looked into."

That was agreed upon. If Yung could be sent out of the country a divorce might be obtained and then Honeyblossom could be married again to a civilized Chinaman.

But Yung and I didn't think their next visit the cottage was closed. "No, I don't know where they Chinks is gone to," said a neighbor.

In spite of the utmost investigation nothing could be learned of the Yungs. In the next morning, however, they had simply disappeared—vanished from the ken of all who had known them.

It was about two years later that a letter came to Miss Wimpole: "Dear Miss Wimpole: I think Yung's credentials ought to be looked into."

"Yung and I are civilized people now. Please come and see us and say you are satisfied."

"Yours respectfully, "HONEYBLOSSOM YUNG."

She summoned the missionary lady and Mr. Clatterbuck and they made their way to the address indicated.

It was a tenement house in an unsavory district. A push at the button, which elicited an opening door, showed that the Yungs were at home. And there stood Honeyblossom, in a cheap, ill-fitting suit, welcoming them at the door.

"Oh, yes, we're quite civilized now," Miss Wimpole, said Honeyblossom, showing them into the living room.

Upon a chair sat Yung in his short-sleeved, smoking a pipe. Two at-mond-eyed Celestial infants crawled on the floor. A pot of Irish stew was cooking on the stove.

"Say, why don't you get up and say good-morning to the ladies?" demanded Honeyblossom of her husband, acidly.

Mr. Yung got up and bobbed. The infants set up a wail. The pot boiled over. In the next room were to be seen two twin beds, not yet made. On the walls were pictures cut from the Sunday papers. Some clothes were boiling in a pot. Honeyblossom looked hot, worried and worn out.

"Well, I'm glad to see you've become civilized at last," Miss Wimpole said. (Copyright, 1923, NEA Service, Inc.)

Pigeons Set Fast Pace. Pigeon racing used to be confined to Belgium, but during the last 30 years has increased prodigiously in the British Isles, though it is still essentially a North of England sport. The pace and distance these birds accomplish are remarkable. Three years ago the race which was held between Nantes and Lancashire showed that the winning bird could cover a distance of 447 miles at a rate of 1,000 yards a minute. The winner of the Marennes race flew 317 miles at a rate of 1,467 yards a minute.

HURLED IN AIR BY TIGER

Hunter in India Shot Animal Through the Heart While Being Carried into Jungle.

The most terrible experience I ever came across in India, reports W. A. Fraser, was that of a sahib whose name I have forgotten, though I remember the name of his associate, Mr. Fowndes.

This sahib was lying flat on a gravelly bar beside a suit lick, waiting for sambar (deer), when suddenly some terrific force hit him between the shoulders, driving his face into the gravel.

It was in the cold weather, so he was wearing an ulster, and now he was lifted by the something that ripped the coat across his shoulders and dragged along the bar. He could hear a purring, like the whirl of an electric fan. A ghastly smell of carrion was in his nostrils, and on either side of his head showed the yellow forearm of a tiger.

He realized that as soon as they reached the jungle, 50 yards away, the tiger would make a meal of him. And he was helpless!

Suddenly it flashed through his mind that he had a heavy revolver in his coat pocket. His hands were quite free, so he reached over to get the pistol, cocked it, and fired upward, trying for the tiger's heart.

At the pistol's report he was lifted bodily, whirled around and thrown several feet. They had reached the jungle, and six feet away the tiger was roaring, clawing up and rolling over.

The sahib crawled through the bushes and came out to the river, where he was seen by Fowndes. He was a wreck, naturally.

Next day they found the tiger dead, the big bullet having gone through his heart.—Saturday Evening Post.

ESKIMOS CARE FOR THE OLD

Elders' Counsel Always Considered—Mutual Kindness the Rule in Arctic.

Old people are held in great respect among the Eskimos and their counsel is always considered. They help as far as they are able in the household work, the old men repairing the igloos and the old women in sewing and tending the lamps. In times of scarcity, as in winter, meat and oil is always shared around.

Directly a seal or deer is brought in it is cut up and sent to each need family. In times of plenty each family is supposed to provide for itself, but old people, widows and orphans have always the first claim upon those who have the means.

Among these people mutual kindness is a general obligation. A widow or orphan child is never left alone, but taken into the house and family circle of the nearest relative. The widow gives her services in return for food and lodging and clothing and the child is cared for exactly as the man's own offspring.—Detroit News.

Bonaparte Still Fascinates. An electrical engine, history of Charlottesville, Va., who recently died, left to Princeton university a collection of 3,000 volumes having to do with the French Revolution and Napoleon. There is an era in nearly every man's life when he reads this chapter in world history tentatively. The fascination of Bonaparte is persistent. The Yale senior class recently rated him at or near the head of their favorite characters. It is presumably the dramatic quality in the man; just as people troop to the playhouse, so they divert themselves in reading of his great actor. The emotion cannot be called admiration—men supremely admire Washington and Lincoln, but none ever called them "actors."

Tried to Convert Egypt. The story of Akhnaton, who was the sovereign of a mighty realm, is told in H. G. Wells' "Outline of History." From Ethiopia to the Mediterranean, from the Nile to the Euphrates, Akhnaton was worshipped as a god. But he was human.

He loved his beautiful wife passionately. He had himself sculptured with her seated upon his knee—kissing her in his chariot. He tried to turn Egypt from the service of many gods to the worship of one.

For 18 years he made headway against all the priests of his empire, but the hold of the old religion was too strong for him, and at his death his son-in-law, Tut-Ankh-Amen, fell, again beneath their sway.—Detroit News.

Another Fallacy. It has been said that lightning never strikes twice in the same spot. The remark is about the most foolish and unscientific that could be made, for the electric discharge between the earth and the clouds must find a conductor, and where a good conductor is present, there, of course, the discharge is most frequent. Iron or ironstone forms the best conductor, and the writer has known lightning to strike four times during one storm in a field where the subsoil was ironstone, while the top soil was touched on the next property, which happened to be stiff clay.

Gallant. A really polite Frenchman can be complimentary in the face of unlikely remarks.

Such a man, who had been bestowing upon a lady many compliments, asked her why she kept a large and apparently savage dog which had just entered the room.

"I bought him only yesterday," she answered flippantly, "and I am going to keep him in to front hall to eat up all my admirers."

"Ah, the poor beast!" exclaimed the Frenchman, "to die of indigestion!"

Social and Personal

District Meeting of Star Opens Oct. 27

The district meeting of the Eastern Star will be held in Bismarck Saturday, Oct. 27, at 8 o'clock in the district hall. The meeting will be held in the district hall of the Eastern Star, which is located in the building formerly occupied by the Bismarck Hotel. The meeting will be held in the district hall of the Eastern Star, which is located in the building formerly occupied by the Bismarck Hotel. The meeting will be held in the district hall of the Eastern Star, which is located in the building formerly occupied by the Bismarck Hotel.

Make Elaborate Plans For Dance

Preparations are under way to make the U. C. T. and U. C. T. Auxiliary Halloween dance at the Grand Pacific hotel dining room Friday night, Oct. 26, one of the most elaborate affairs of the season. The general committee appointed to take charge of the dance includes the following: Mrs. T. E. Flaherty, Mrs. E. B. Gorman, Mrs. W. C. Bush, Mrs. A. C. Martin, Mrs. L. E. Bankston, Mrs. A. E. Blum, Mrs. L. E. Bankston, Mrs. A. E. Blum, Mrs. L. E. Bankston.

The men's committee appointed to cooperate with the women is composed of the following: J. Griggs, chairman, Fred Dahl, and L. E. Bankston.

Invitations for the affair have already been sent out. Decorations about the large dining hall will be in hallowe'en colors and designs representative of that season.

SURPRISE PARTY

A surprise party was given last night in honor of A. Wyciskala and the wedding anniversary of his daughter, Mrs. H. L. Patterson, at the home of the former, 424 Fourteenth street. The party was arranged by Mrs. L. C. Patterson and Mrs. Charles Wyciskala and the evening was spent delightfully. The honor guests received many beautiful presents. A midnight lunch was served.

RETURN FROM HEALTH MEETING

Dr. F. R. Smyth of the United States Public Health office has returned from Boston, Mass., where he attended the Medical Public Health Association's annual meeting. Dr. A. A. Whitmore who was also present at the meeting stopped at Indianapolis, Ind., on his way home. North Dakota had five representatives at the meeting.

FORMER RESIDENT STOPS OVER

Mrs. Charles Brewer of New Orleans, La., a resident of Bismarck since six years ago, was a guest at the home of Mr. and Mrs. L. E. Richmond Tuesday. Mrs. Brewer was enroute to her home after spending some time visiting in Seattle. Mrs. Brewer will be remembered as an official at the capital at one time.

HY-LO BRIDGE CLUB

The Hy-Lo Bridge club was entertained at the home of Mr. J. L. Setzer yesterday afternoon, when the following cards were won by Mrs. W. W. McEwen and Mrs. P. G. Peterson. Mrs. J. L. Setzer was the guest of honor. At the conclusion of the game refreshments were served.

MRS. AGRE RETURNS

Mrs. M. A. Agre who was called to Groton, S. D., by the serious illness of her father several weeks ago returned last night. She reports that while her father shows considerable improvement, it is feared that it is only temporary.

MOTORING TO MINNESOTA

Mr. and Mrs. L. E. McGee and daughter, Miss Hazel, expect to leave tomorrow morning for Marietta, Minn., where they will make their future home. They will motor through.

MORGAN-SHEEHAN MARRIAGE

Miss Agnes L. Sheehan and Edwin S. Morgan of Wilton were married in Bismarck yesterday afternoon by the Rev. Victor Bartling. Witnesses were Miss Esther Sheehan and William Manley.

GUEST OF SISTER

Mrs. John A. Hammer of Elkton, S. D., is a guest at the home of her sister, Mrs. Eva D. Sheldon, 723 Fifth street. While visiting here she will also be a guest of her niece, Mrs. Ralph Madland.

BRIDGE-DINNER AT MCKENZIE

Mrs. Eugene Patterson entertained at a bridge-dinner yesterday evening at the McKenzie hotel in honor of Mr. Patterson's birthday. Covers were laid for sixteen.

HERE FOR "BLOSSOM TIME"

State's Attorney and Mrs. Oliver Dunn of Center and Mrs. F. P. Wernli of Bismarck were in Bismarck Tuesday to attend "Blossom Time" at the auditorium.

M. B. A. DANCE

The M. B. A. will have a dancing party at A. O. U. W. hall tonight following their regular meeting. All members and their friends are invited to attend.

CITY VISITORS

J. C. Erickson of Hagen, Dr. and Mrs. E. Everett Hamilton of New Leipzig were city visitors in Bismarck the first of the week.

SUNSHINE CLUB PICNIC

A picnic was enjoyed by members of the Sunshine club yesterday at Wild Wood.

CITY SHOPPER

Mrs. George Britton of Britton arrived in Bismarck last night to spend today shopping and visiting here.

Miss Gudrun Erickson of Hagen was a city visitor yesterday.

Hairbows, Sashes and Girdles Decorate Clothes of Children

By JULIA BOTTOMLEY

When one is very young in a world full of wonderful things to see and play with, furbelows are a nuisance—unless they are of the kind that are fastened on and can't come off. Everything else has a brief career and is sure to be lost, so the list of detachable belongings, for the little miss, may well be brief. But she rejoices in hair bows and hair bands of ribbon, combs, berets, sashes, sweaters and a little jewelry, besides mittens, leggings and muffs in winter time, and adorable bonnets and hats all the time.

We must concede to French designers the happiest faculty for making lovely clothes for children. They are using cashmere and wool crepe for dresses and broadcloth for both coats and dresses. On the coats one is apt to find narrow fringes of monkey fur, outlining hands on the sleeves or body of the coat, and a tiny muff of the same fur to go with the coat. Rows of little buttons, in a contrasting color, decorate bands of material, and adorn coats and hats to match. These same designers made much of legging, that are fastened with a row of small buttons up the side of the leg. They are needed with the very short dresses and coats that leave the little tot nearly all legs.

As a decorative feature for little girls' clothes nothing is more useful than ribbon, which makes sashes, girdles and ties and trimmings. Scalloped flounces, edged into narrow ribbons, bands, furbelows and bows of it applied to frocks, flower and fruit motifs, cut out and used in the place of embroidery, vary the simple wardrobe of little ladies.

(© 1923 Western Newspaper Union.)

Mrs. C. H. Bower and Miss Mary Ziner of Warner stopped here yesterday.

Mrs. E. E. Rudisill of McClusky was a city visitor today.

MEDICUM BROWN HAIR looks best of all after a Golden Gilt Shampoo.

Adolph Basson received the news of the death of his cousin Clarence Basson at Marion, and accompanied by Ernest Gerts, departed from Steele Thursday evening to be present at the funeral which was held Friday afternoon. Returning on the following Sunday.

Mr. and Mrs. Frank Berkham motored to Wilton on Friday to consult Dr. Sandelein in regards of Mrs. Berkham's health.

M. A. Lein returned home Friday from his trip to the twin cities.

Mr. and Mrs. O. N. Nelson and their niece Hazel Nelson were shopping at the capital city on Saturday.

Miss Vivian Shaffer spent Saturday until Monday as the guest of Miss Myrtle Christensen.

A. O. Kroger who has been at the Bismarck Hotel for treatment returned to his home on Friday.

Mr. and Mrs. M. A. Lein and part of the family expect to leave Tuesday morning for a visit with relatives at Columbus, North Dakota and also plan a visit with Mr. and Mrs. Henry Espeseth on their way.

H. Smith, Clifford Nelson and Mrs. George Carlson and children departed Monday by car for a short visit at Fort Ransom. Mr. Smith is a father of Mrs. Carlson and has spent the past week visiting at her home.

J. M. Lien and George Carlson spent several days of last week attending the Nonpartisan League convention, which was held at the capital city.

L. B. Olson assisted Martin Anders in moving household goods and farm machinery to his new location east of Driscoll.

William Robidoux, Jr. of St. Paul, a son of the deceased arrived last night to attend the funeral services. The body was laid to rest in St. Mary's cemetery.

WE desire to thank the many friends for their kindness during the last illness of our mother, Mrs. Gertrude Robidoux, for their comforting words of condolence and the beautiful floral offerings.

Mrs. Mary McDonald, Mrs. Charles Fisher, Mrs. Dan McDonald, John Robidoux, William Robidoux, Amos Robidoux, James Robidoux.

Twenty years ago when the popular way of smallpox vaccination swept the land, and when every school girl bared her arm for the medical process that necessitated a permanent scar, it is probable that neither mothers nor doctors foresaw the coming of the present-day fashions in sleeveless gowns.

Those were the days of trailing skirts, bustles, long sleeves and high feminine collars, and when the doctor inquired of the solicitous mother as to where he should put the mark upon the little girl the mother felt quite safe in choosing a position so well concealed as the upper arm.

For mothers of those days could believe that a scar upon the arm would ever find its way into the light of public attention, but the passing of years, with the consequent changing of styles, has brought about circumstances that were unexpected, and the marks are at last out in the open, exposed to the gaze of whoever cares to look.

Observing persons assert they have little difficulty in telling the age of a young woman merely by noting the kind and size of vaccination scar. The doctors at one time thought it necessary to make marks the size of a half dollar, but with the passing of years they became smaller and smaller until now a scratch that is almost invisible is all the grocer's register. The size of vaccination mark corresponds to the size of a dime belongs to a different period from the girl with the nickel mark, the quarter mark or the half-dollar mark, and with the donning of the sleeveless gown she feels that her age is stamped indelibly upon her.

The modern physician's system marks an advance in the science that will be appreciated by the debutante a decade or so hence.

Boys of 1,400 years ago in a room of Chinese art relics in the Field Museum of Natural History at Chicago hang a curious, beautiful painting on silk, called "A Hundred Boys at Play." It is a panel, many yards long, which was made during the Sung period of Chinese history, about 1,400 years ago, by an artist named Su Hanchun.

There you may see a hundred Chinese boys busily occupied with indoor and outdoor pastimes. And from the expressions on their little painted faces it seems that they are about as boisterously happy at their play as boys of the present day. The interesting part is to see so long ago were the same sort that boys of today.

Those boys seemed to know a form of football, for you see boys scrambling for a kicked ball. Others are wrestling, shooting at targets, playing war and amusing themselves with fighting crickets. Still others are engaged in less active sports, such as playing chess, riding hobby horses, flying kites, and dancing and playing the organ and lute.

On one bank sits a boy with a fishing pole. Across from him a Chinese friend has set up a store and is a merchant.

"Our Feet." "Hee don't not only show the way, but growth and a prospect into the way, as well as a man to enter into it. May be doth as if your journey should lie through a vineyard, at the very first give you a cluster of grapes, that full of that taste, you may long to pass further. Hee beginneth not with obscure details, which must blur the margin with interpretations and false promises, but he cometh to you with words set in delightful proportion, either accompanied with or prepared for the well enchanting skill of music, and with a tale forthwith he cometh unto you, with a tale which holdeth children from play, and old men from the chimney corner."—St. Philip Sydney.

SRIOUS BLADDER TROUBLE. "I had not been long in the hospital, but I was forced to cry out from intense pain," writes Henry Williams, Tokio, Mon. The doctors said I had inflammation of the bladder and an operation was necessary. Tried Foley Kidney Pills and improved at once. "I all my friends about Foley Kidney Pills as it will save many from suffering and perhaps, as in my case, a dangerous operation." Bladder and kidney trouble demands prompt treatment. Foley Kidney Pills give quick relief.

Strengthen Weak Eyes. Old-fashioned eyeglasses, which have been used for centuries, are now being replaced by a new method of strengthening the eyes and relieving any pain, strain or sore eyes. Acts surprisingly quick. Atkinson eye cup free. Jos. Brewlow, druggist.

Robidoux Rites Held Today

Many friends of Mrs. William Robidoux, who died Tuesday, attended the funeral services held today in St. Mary's church at 2:30 p. m. Father John Slag officiated. Many beautiful floral offerings rested about the bier of the deceased. Pallbearers were Patrick Kelley, James Williams, Charles Swanson, Irvin and William Small.

William Robidoux, Jr. of St. Paul, a son of the deceased arrived last night to attend the funeral services. The body was laid to rest in St. Mary's cemetery.

CARD OF THANKS

We desire to thank the many friends for their kindness during the last illness of our mother, Mrs. Gertrude Robidoux, for their comforting words of condolence and the beautiful floral offerings.

Mrs. Mary McDonald, Mrs. Charles Fisher, Mrs. Dan McDonald, John Robidoux, William Robidoux, Amos Robidoux, James Robidoux.

SCAR TELLS WOMAN'S AGE

Size of Vaccination Mark, Bared by Sleeveless Gown, Shows Period of Infancy.

Twenty years ago when the popular way of smallpox vaccination swept the land, and when every school girl bared her arm for the medical process that necessitated a permanent scar, it is probable that neither mothers nor doctors foresaw the coming of the present-day fashions in sleeveless gowns.

Those were the days of trailing skirts, bustles, long sleeves and high feminine collars, and when the doctor inquired of the solicitous mother as to where he should put the mark upon the little girl the mother felt quite safe in choosing a position so well concealed as the upper arm.

For mothers of those days could believe that a scar upon the arm would ever find its way into the light of public attention, but the passing of years, with the consequent changing of styles, has brought about circumstances that were unexpected, and the marks are at last out in the open, exposed to the gaze of whoever cares to look.

Observing persons assert they have little difficulty in telling the age of a young woman merely by noting the kind and size of vaccination scar. The doctors at one time thought it necessary to make marks the size of a half dollar, but with the passing of years they became smaller and smaller until now a scratch that is almost invisible is all the grocer's register. The size of vaccination mark corresponds to the size of a dime belongs to a different period from the girl with the nickel mark, the quarter mark or the half-dollar mark, and with the donning of the sleeveless gown she feels that her age is stamped indelibly upon her.

The modern physician's system marks an advance in the science that will be appreciated by the debutante a decade or so hence.

BOYS OF 1,400 YEARS AGO

Field Museum at Chicago Has Beautiful Chinese Painting Which Shows Youngsters at Play.

In a room of Chinese art relics in the Field Museum of Natural History at Chicago hangs a curious, beautiful painting on silk, called "A Hundred Boys at Play." It is a panel, many yards long, which was made during the Sung period of Chinese history, about 1,400 years ago, by an artist named Su Hanchun.

AT THE MOVIES

"Hell's Hole," the William Fox production coming to the Capitol theater tonight for a run of two days, with Charles Jones, is one of the fastest, sure-fire action plays in many a day. There's only one thing in the picture that gets ahead of Charles. That's the avalanche near the end of the feature. Hurling tons of dirt and rock smash down the hill-side. Hot on the heels of this hair-raising smash comes the posse racing through the cool beauty of the lovely country.

Director Emmett J. Flynn has made a picture in "Hell's Hole." His action, straight to the end, increases in suspense, until the arrival of the posse at the buried cabin in the nick of time. Even then, the action crescendos to one great climax. Ruth Clifford plays the leading feminine role.

The cast supporting Jones consists, in addition to the star and his lead, Maurice Flynn, the heavy, Kathleen Key, Hardy Kirkland, and Eugene Pallette. Pallette contributes a "humorous heavy" bit, as the Mexican, that is splendid.

A Pair of Good Fitting Shoes

Is the Foundation of the Well Dressed Woman

EVERY woman should bear the above thought in mind when selecting her footwear.

A shoe may be charmingly pretty in a window but if it ails at the heel or bulges at the side it loses all its graceful lines. The result is "shabby" looking footwear.

What is needed to give your foot a neat appearance is a shoe designed to "hug the heel."

HEEL HUGGER shoes are made from special lasts and patterns and will fit snugly at the heel when other shoes sag.

Social and Personal

District Meeting of Star Opens Oct. 27

The district meeting of the Eastern Star will be held in Bismarck Saturday, Oct. 27. Included in the district will be Linton and Hasen. The meeting will be partly in the nature of a school of instruction. Mrs. Maud Plohar of Valley City, grand matron, will be present to assist in the conducting of the meeting. In the evening at 6:30 o'clock a dinner will be served at the Temple. Those wishing to make reservations for this, are asked to notify Mrs. Clifton Johnson, worthy matron, or Mrs. Wilbur Targart, secretary.

Make Elaborate Plans For Dance

Preparations are under way to make the U. C. T. and U. C. T. Auxiliary hallow'en dance at the Grand Pacific hotel dining room Friday night, Oct. 26, one of the most elaborate affairs of the season. The general committee appointed to take charge of the affair includes the following: Mrs. T. E. Flattery, Mrs. E. B. Gorman, Mrs. W. C. Bush, Mrs. A. C. Martin, Mrs. L. E. Bankston, Mrs. A. E. Brink, Mrs. Richard A. Tracy.

The men's committee appointed to cooperate with the women is composed of the following: J. Grills, Chairman, Fred Dahl, and L. E. Bankston.

Invitations for the affair have already been sent out. Decorations about the large dining hall will be in hallow'en colors and designs representative of that season.

SURPRISE PARTY.

A surprise party was given last night in honor of A. Wyciskala and the wedding anniversary of his daughter, Mrs. H. L. Patterson, at the home of the former, 424 Fourteenth street. The party was arranged by Mrs. L. C. Patterson and Mrs. Charles Wyciskala and the evening was spent delightfully. The honor guests received many beautiful presents. A midnight lunch was served.

RETURN FROM HEALTH MEETING
Dr. F. R. Smyth of the United States Public Health office has returned from Boston, Mass. where he attended the Medical Public Health Association's annual meeting. Dr. A. A. Whittemore who was also present at the meeting stopped at Indianapolis, Ind., on his way home. North Dakota had five representatives at the meeting.

FORMER RESIDENT STOPS OVER
Mrs. Charles Brewer of New Orleans, La., a resident of Bismarck until six years ago, was a guest at the home of Mr. and Mrs. L. H. Richmond Tuesday. Mrs. Brewer was enroute to her home after spending some time visiting in Seattle. Mr. Brewer will be remembered as an official at the capitol at one time.

HY-LO BRIDGE CLUB
The Hy-Lo Bridge club was entertained at the home of Mrs. J. I. Setzer yesterday afternoon, when the members and guests were won by Mrs. W. W. Moore and Miss P. G. Plomason. Mrs. Plomason is a new member taken into the club at the opening of this year. At the conclusion of the game refreshments were served.

MRS. AGRE RETURNS
Mrs. M. O. Agre who was called to Groton, S. D., by the serious illness of her father several weeks ago returned last night. She reports that while her father shows considerable improvement, it is feared that it is only temporary.

MOTORING TO MINNESOTA
Mr. and Mrs. L. McBride and daughter, Miss Hazel expect to leave tomorrow morning for Marietta, Minn. where they will make their future home. They will motor through.

MORGAN-SHEEHAN MARRIAGE
Miss Agnes L. Sheehan and Edwin S. Morgan of Wilton were married in Bismarck yesterday afternoon by the Rev. Victor Bartling. Witnesses were Miss Esther Sheehan and William Manley.

GUEST OF SISTER
Mrs. John A. Hammer of Elkton, S. D., is a guest at the home of her sister, Mrs. Eva D. Sheldon, 723 Fifth street. While visiting here she will also be a guest of her niece, Mrs. Ralph Madland.

BRIDGE-DINNER AT MCKENZIE
Mrs. Eugene Patterson entertained at a bridge-dinner yesterday evening at the McKenzie hotel in honor of Mr. Patterson's birthday. Covers were laid for sixteen.

HERE FOR "BLOSSOM TIME"
State's Attorney and Mrs. Oliver Dunn of Center and Mr. and Mrs. F. P. Wernli of Hasen were in Bismarck Tuesday to attend "Blossom Time" at the auditorium.

M. B. A. DANCE
The M. B. A. will have a dancing party at A. O. U. W. hall tonight following their regular meeting. All members and their friends are invited to attend.

CITY VISITORS
J. C. Erickson of Hasen, Dr. and Mrs. E. Everett Hamilton of New Leipzig were city visitors in Bismarck the first of the week.

SUNSHINE CLUB PICNIC
A picnic was enjoyed by members of the Sunshine club yesterday at Wild Wood.

CITY SHOPPER
Mrs. George Britton of Britton arrived in Bismarck last night to spend today shopping and visiting here.

MISS GORDON BIRTHDAY
Miss G. Gordon of Hasen was a city visitor yesterday.

Hairbows, Sashes and Girdles Decorate Clothes of Children

By JULIA BOTTOMLEY

When one is very young, in a world full of wonderful things to see and play with, furbelows are a nuisance—unless they are of the kind that are fastened on and can't come off. Everything else has a brief career and is sure to be lost, so the list of detachable belongings, for the little miss, may well be brief. But she rejoices in hairbows and hair bands of ribbon, combs, berets, sashes, sweaters and a little jewelry, besides mittens, legging and garters, in winter, and adorable bonnets and hats all the time.

We must concede to French designers the happiest faculty for making lovely clothes for children. They are using cashmere and wool crepe for dresses and broadcloth for both coats and dresses. On the coats one is apt to find narrow fringes of monkey fur, outlining bands on the sleeves or body of the coat and a tiny muff of the same fur—to go with the coat.

Mrs. C. H. Rowe and Miss Mary Ziner of Werner shopped here yesterday.

Mrs. R. E. Rudisill of McClusky was a city visitor today.

MEDIUM BROWN HAIR looks best of all after a Golden Gilt Shampoo.

CLEAR LAKE
A birthday surprise party was given at the home of Mr. and Mrs. Christ Schoon, Wednesday evening, Oct. 10 in honor of their son, Ernest's birthday anniversary. Dancing and games of cards were the diversions of the evening, and at midnight a delicious birthday luncheon was served.

Adolph Basson received the news of the death of his cousin Clarence Basson at Marion, and accompanied by Ernest Gertz, departed from Steele Thursday evening to be present at the funeral which was held Friday afternoon. Returning on the following Sunday.

Mr. and Mrs. Frank Berkvam motored to Wilton on Friday to consult Dr. Sandelein in regards of Mrs. Berkvam's health.

M. A. Lein returned home Friday from his trip to the twin cities.

Mr. and Mrs. O. N. Nelson and their niece Hazel Nelson were shopping at the capitol city on Saturday.

Miss Vivian Shaffer spent Saturday until Monday as the guest of Miss Myrtle Christensen.

A. O. Krogan who has been at the Bismarck Hospital for treatment returned Monday by car for a short

FARE PLEASE

Society again has received a shock. Francis O. French, eldest son of Amos French and cousin of William Vanderbilt, has taken a job as taxi chauffeur in New York. He wants to make another start in life. First photo taken showing French in his uniform.

Robidou Rites Held Today

Many friends of Mrs. William Robidou, who died Tuesday, attended the rites held this morning in St. Mary's church at 9:30 p. m. Father John Slag officiated. Many beautiful floral offerings rested about the bier of the deceased. Pall-bearers were Patrick Kelley, James Wallace, Charles Swanson, Irvin and William Small.

L. B. Olson assisted, Martin Ambers in moving household goods and farm machinery to his new location east of Driscoll.

PIONEER OF STATE FOUND DEAD IN BED

Mrs. Sarah Frost Dies of Heart Failure While Sleeping in Home Here

Mrs. Sarah Frost, 75 years old, wife of C. H. Frost, was found dead in bed at her home, 303 Third street, shortly after 6 o'clock this morning by relatives. A physician was called but life was extinct. She had died between 5 and 6 o'clock of heart failure, while sleeping, it is believed.

Mrs. Frost had been an invalid for about five years, following a severe fall. She and Mr. Frost came to North Dakota in 1903, and took a homestead south of Flasher. They lived there until about two years ago when they moved to Bismarck. Mrs. Frost was born in Sheboygan, Wisconsin, on January 19, 1848. They were among the real pioneer farmers of southern Morton county.

Mr. and Mrs. Frost would have been married 50 years on October 30 and relatives were making plans for a celebration in honor of their 50th wedding anniversary.

Surviving are Mr. Frost, one son, Frank D., who lives in California, and Mrs. Myra Dawson, Bismarck.

Catholic Association Has Fine Meeting

The first meeting of the board of directors of the Catholic Women and Girls in the Bismarck diocese was held yesterday at St. Mary's school auditorium. The board of directors consists of members from Dickinson, Richardson, Garrison, Mandan, Hague, Minot, Underwood, Strasburg, Germany, national headquarters for the United States, eastern section, New York City; central section, Milwaukee and western section, St. Cloud, Minn. The Bismarck diocese is under the immediate supervision of the St. Cloud Central office and the Bismarck branch of the local organization, is under the direct supervision of the Bismarck diocese, officers, of whom Mr. Edward L. Bannon, appointed by Bishop Wheeler, is director.

The Missionary Association of Catholic Women and Girls has its international headquarters at Cologne, Germany, national headquarters for the United States, eastern section, New York City; central section, Milwaukee and western section, St. Cloud, Minn. The Bismarck diocese is under the immediate supervision of the St. Cloud Central office and the Bismarck branch of the local organization, is under the direct supervision of the Bismarck diocese, officers, of whom Mr. Edward L. Bannon, appointed by Bishop Wheeler, is director.

E. A. Van Vleet has been reported on the sick list and consulted Dr. Barrette on Saturday.

Harold Swanson, who has spent the past three months at his old home state of Iowa, returned to his parental home Friday.

Mr. and Mrs. Christ Bjørke and their daughter Esther of Arena were Sunday guests of Mr. and Mrs. Clarence Swanson.

Miss Caroline Schoon spent Wednesday until Sunday at the home of her aunt, Mrs. A. G. Basson.

Mrs. M. J. Brenden is spending several days with her daughter, Mrs. Frank Birkvam, who is on the sick list.

Miss Emma Sell and who has been staying at the home of her brother Grenville Selland returned to Steele Sunday.

Mr. and Mrs. Christ Schoon had as their guests Sunday, Mr. and Mrs. Jens Hanson and family, Mr. and Mrs. A. G. Basson and family, Mr. and Mrs. Ole Newland, and Mr. Robert Sharp Sr.

Mr. and Mrs. M. A. Lein and part of the family expect to leave Tuesday morning for a visit with relatives at Columbus, North Dakota and also plan a visit with Mr. and Mrs. Henry Espeneth on their way.

H. Smith, Clifford Nelson and Mrs. George Carlson and children departed Monday by car for a short

KITCHEN CUPBOARD

By NELLIE MAXWELL

TIMELY TIPS

NOW is the time to fill the fruit closet shelves for winter. Red peppers are so good to add to salads and meat dishes that a few jars will be enjoyed.

Canned Red Peppers.—Wash and cut peppers in strips with scissors. Cover with boiling water; let stand three minutes; drain, plunge into ice water to cover, in which there is a large piece of ice. Let stand to thoroughly chill; drain again and pack in sterilized jars. To one quart of vinegar add two cupsful of sugar; bring to the boiling point and boil fifteen minutes. Pour the boiling hot vinegar over the peppers to overflow the can. Seal and store in a cool place.

Best Relish.—Wash, peel and chop two dozen small bell peppers. Put one-half cupful of horseradish, then two blades of mace, one tablespoonful of ginger, six cloves into a cheesecloth bag, place in a saucepan with one quart of vinegar. Bring to a boil and when boiling hot pour over the beans. Seal and keep for a week, when it will be ready for use.

Pepper Relish.—Wash and cut into halves or quarters one dozen sweet red peppers and one dozen green peppers; chop fine; add 14 medium-sized onions, sliced and chopped fine, one cupful of sugar, two cupfuls of vinegar and one tablespoonful of salt. Pour the vinegar-sugar mixture, drop in the vegetables and boil fifteen minutes. Seal while hot.

Tomato Conserve.—Take five pounds of ripe tomatoes, two pounds of sugar, three lemons cut into dice, one cupful of sliced citron and one and one-half cupfuls of raisins. Slice the tomatoes, chop the citron or cut fine with scissors; add all the other ingredients and cook until thick. Add one cupful of walnut meats, coarsely chopped, and, when boiling hot, pour into jars and seal.

A nice combination for marmalade is equal parts of tomatoes and crabapple, prepared as usual. The mixture is put through a sieve and sugar added to suit the taste.

(© 1923 Western Newspaper Union.)

Strengthen Weak Eyes
Old-fashioned remedy, which hasel, hyacinth, etc., is mixed in Lavoptik eye wash, strengthens eyes and vision. Any eye wash, strained or not, is a waste of money. Try this. It is a sure cure for all eye troubles. Write for free. Joe. Brewster, drugist.

AT THE MOVIES

"Hell's Hole," the William Fox production coming to the capitol theater tonight for a run of two days, with Charles Jones, is one of the fastest, sure-fire action plays in many a day. There's only one thing in the picture that gets ahead of Charlie. That's the avalanche near the end of the feature. Hurtling tons of dirt and rock smash down the hill-side. Hot on the heels of this hair-raising smash comes the posse racing through the cool beauty of the lovely country.

Director Emmett J. Flynn has made a picture in "Hell's Hole." His action, straight to the end, increases in suspense, until the arrival of the posse at the buried cabin in the nick of time. Even then, the action crescendoes to one great climax. Ruth Clifford plays the leading feminine role.

The cast supporting Jones consists, in addition to the star and lead, Maurice Flynn, as the heavy; Kathleen Key, Hardy Kirkland, and Eugene Pallette. Pallette contributes a "humorous heavy" bit, as the Mexican, that is splendid.

CARD OF THANKS.
We desire to thank the many friends for their kindness during the last illness of our mother, Mrs. Gertrude Robidou, for their comforting words of condolence and the beautiful floral offerings.

Mrs. Mary McDonald, Mrs. Charles Fisher, Mrs. Dan McDonald, John Robidou, William Robidou, Amos Robidou, James Robidou.

SCAR TELLS WOMAN'S AGE

Size of Vaccination Mark, Bared by Sleeveless Gown, Shows Period of Incubation.

Twenty years ago when the popular wave of smallpox vaccination swept the land, and when every school girl bared her arm for the medical process that necessitated a permanent scar, it is probable that neither mothers nor doctors foresaw the coming of the present-day fashion in sleeveless gowns.

Those were the days of trailing skirts, bustles, long sleeves and high feminine collars, and when the doctor inquired of the solicitous mother as to where he should put the mark upon the little girl the mother felt quite safe in choosing a position so well concealed as the upper arm.

Few mothers of those days could believe that a scar upon the arm would ever find its way into the light of public attention, but the passing of years, with the consequent changing of styles, has brought about circumstances that were unexpected, and the marks are at last out in the open, exposed to the gaze of whoever cares to look.

Observing persons assert they have little difficulty in telling the age of a young woman merely by noting the kind and size of vaccination scar. The doctors at one time thought it necessary to make marks the size of a half dollar, but with the passing of years they became smaller and smaller until now a scratch that is almost invisible is all the process required. The girl whose vaccination mark corresponds to the size of a dime belongs to a different period from the girl with the nickel mark, the quarter mark or the half-dollar mark, and with the donning of the sleeveless gown she feels that her age is stamped indelibly upon her.

The modern physician's system marks an advance in surgical science that will be appreciated by the debutante a decade or so hence.

BOYS OF 1,400 YEARS AGO

Field Museum at Chicago Has Beautiful Chinese Painting Which Shows Youngsters at Play.

In a room of Chinese art relics in the Field Museum of Natural History at Chicago hangs a curious, beautiful painting on silk, called "A Hundred Boys at Play." It is a panel, many yards long, which was made during the Sung period of Chinese history, about 1,400 years ago, by an artist named Su Hanchen.

There you may see a hundred Chinese boys busily occupied with indoor and outdoor pastimes. And from the expressions on their little painted faces it seems that they are about as boisterously happy at their play as boys of the present day. The interesting part is to see so long ago were the same sort that boys play now.

Those boys even seemed to know a form of football, for you see boys scrambling for a kicked ball. Others are wrestling, shooting at targets, playing war and aiming at targets with fighting crickets. Still others are engaged in less active sports, such as playing chess, riding hobby horses, flying kites, dancing and playing the organ and lute.

On one bank sits a boy with a fishing pole. Cicero, from him a Chinese friend has set up a store and is a merchant.

"Our Feet."
"Hee doth not only show the way, but giveth so sweet a prospect into the way, as will entice any man to enter into it; Nay, hee doth as if your journey should lie through a false vineyard, at the very first glimpse you a cluster of grapes, that full of that taste, you may long to pass further. Hee beginneth not with obscure definitions, which most blur the margin with interpretations, and loads the memory with doubtfulness; but hee cometh to you with words set in delightful proportion, either accompanied with or prepared for the well sounding skill of Musicks, and with a tale forthwith hee cometh unto you, with a tale which holdeth children from play, and old men from the chimney corner."—Sir Philip Sydney.

SERIOUS BLADDER TROUBLE.
"Could not stand any more and was forced to cry out from intense pain," writes Henry Williams, Tarkio, Mo. "The doctors said I had inflammation of the bladder and an operation was necessary. Tried Foley Kidney Pills and improved at once. All my friends about me were so confident and perhaps, as they said, a 'miraculous' operation. I tried Foley Kidney Pills and improved at once. All my friends about me were so confident and perhaps, as they said, a 'miraculous' operation. I tried Foley Kidney Pills and improved at once. All my friends about me were so confident and perhaps, as they said, a 'miraculous' operation."

A Pair of Good Fitting Shoes

Is the Foundation of the Well Dressed Woman

EVERY woman should bear the above thought in mind when selecting her footwear.

A shoe may be charmingly pretty in a window but if it slips at the heel or bulges at the side it loses all its graceful lines. The result is "shabby" looking footwear.

What is needed to give your foot a neat appearance is a shoe designed to "hug the heel."

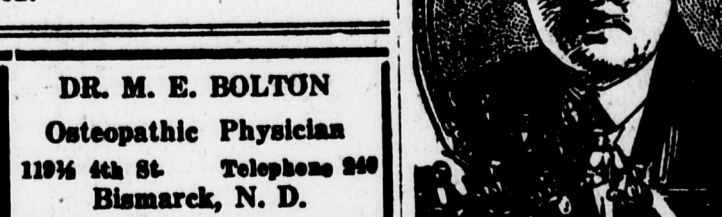

HEEL HUGGER shoes are made from special lasts and patterns and will fit snugly at the heel when other shoes sag.

THE STATE'S OLDEST NEWSPAPER
(Established 1873)

INTEREST IN INITIATIVE WANES
North Dakota has had some experiences with the initiative and referendum which have evoked expressions of dissatisfaction. Thus far in the state, however, most of the initiative and referred measures have been of political nature and as such have caused a remarkably heavy vote. The vote has been less on measures not so involved, and there is no doubt but that thousands of voters have either cast their ballot on such a measure without full knowledge of its portent or have refrained from voting because they felt they had not time to study the proposals laid before them, and which ordinarily would be left to legislators whose duty it was to study, consider and act upon them.

The initiative has been used to greater extent on the Pacific Coast. In California and Oregon so many measures have cluttered the ballot that there has been a reaction, laws have been passed to restrict the use of the initiative and serious proposals for abolishing the plan have been made.

Just now Oregon is giving attention to the initiative. Since 1904 Oregon voters have been called upon to vote on 174 initiative measures, and have exercised the recall twice. A table issued in Oregon shows that when the initiative first came into being from 40 to 60 per cent of the voters cast ballots on the measures. Interest has steadily dwindled until in the last few years only 15 to 30 per cent have been exercising the privilege of direct legislation.

The result is plain. Legislation is enacted by a minority of the voters. A few thousand citizens banded together in a well-knit organization, are enabled to put laws on the statute books, which may serve their special interests and which might be displeasing to the large body of voters. If the initiative, in Oregon, is establishing a rule by minorities its effect is just the opposite from what the originators of the method of legislation intended. The initiative was invented to prevent powerful minorities from frustrating the majority of the people.

BEST BRAINS

Rodger Dolan writes: These contraptions such as radio and the airplane and the auto are wonderful, of course. And they've all come in our generation, so we must be a race of super-men. But isn't it more remarkable—at least, difficult to understand—how it took the human race so long to figure these things out?

There is a definite thought.

In the last 100 years, man has made greater progress than in all time that went before. This is debatable, but the "yes" side will win every time.

When the novelty wears off, we learn that the new marvels are simple after all. So simple, we say, "It's a wonder no one thought of it before."

Men of history, through thousands of generations—possibly millions—made very little real progress. Then everything seemed to come overnight, and is still coming. As if the whole past had been preparatory and our century merely is reaping the harvest.

To some extent, that's true.

The real answer, though, is this: It is only within the last century that the best brains have devoted themselves to industry, mechanics and higher sciences applied to practical things.

The best brains used to "go in for" the arts and professions. In our generation, they apply themselves to economics—inventing and putting the great inventions to use.

Jules Verne DREAMED about it. The modern Jules Verne DOES it.

With this as a background, it's logical that most of our big present economic problems are in the nature of details or loose ends which will be caught up later, when we LEARN TO APPLY THE GREAT INVENTIONS CORRECTLY.

THE OTHERS

Occasionally you meet a strange personality—and try to fathom him or her. When you succeed, you discover that the strange personality is pretty much like the rest of us after the mask is removed.

Differences in people are largely on the surface. In nine-tenths of our ways, we're all alike. Though often it takes individual trouble or a common calamity to tear the smokes aside and literally bare us down to bedrock.

A decided contrast in human personalities is presented by a group of people. No two look alike. Yet basically they're the same, just as gold is gold even when tarnished for plated.

Men occasionally forget that other people are also human, with the same basic emotions as themselves. This misunderstanding of our neighbors—of strangers in the crowd—causes much of the troubles of life. Especially wars.

PROFITS OF BUILDING

Big office buildings, five to 30 stories high, earn an average of only 4 to 7 per cent on the money invested in the building, according to an architectural magazine.

For the smaller skyscrapers, the land or site is usually worth more than the building. When it comes to 30-story buildings, the land is generally worth a quarter as much as the building.

The value of land, of course, usually is created by people who work on it or nearby, not by the land owner. It's an interesting system of the public being taxed by individuals who got there first.

DOLLAR'S WORTH

The dollar is worth only 65 cents now compared with its buying power in 1913. This is the government estimate.

Rather discouraging situation to anyone preaching thrift, the fact that 35 cents of each dollar saved in 1913 has vanished. It works another way. The 65 cents saved now may be worth \$1 of buying power later on. That'll depend on long-range trend of prices.

Well, funny news is so scarce we wish it would show in Africa or Bryan or Ford say something.

News from King Tut. Carter wants to open the tomb. But he finds a silver or filling station.

Who knows what they will find in Tut's tomb? We don't. May even find that no banana song.

One thing that probably will be found in Tut's tomb is a set of pre-election promises to voters.

No doubt Tut's tomb contains writings proving the younger generation was going to the dogs.

Man in Fort Smith, Ark., wants the city to get him a wife. If they did it would serve him right.

Portland (Ore.) man asks divorce because she was a bootlegger instead of because she wasn't.

Hollywood beauty parlor remodels face. If it isn't kept busy it certainly should be.

Syracuse boy of 11 goes to college. Some day you may see a college campus full of nurses.

But when Carter enters Tut's tomb Tut thinks it was a plumber he phoned for 4500 years ago.

When they get Tut's tomb open they may find the world series played in New York in those days.

But Tut's tomb shows some ancient stenographer couldn't spell.

Washington ragpicker got \$3.20 back pension. We refuse to say things are picking up for him.

They think outdoor life is making girls taller. We think it is standing up in street cars.

Firpo, the prize boxer, will make a movie. He will not play the part of a threshing machine.

More cow news. Los Angeles people drink a pint of milk a day, when it isn't half water.

In Paris an actress has been denied divorce. No cause for such cruelty is given.

They will make rivers in Poland. Poles will make them. Well, poles frequently break them.

In London the bully-monocle gains popularity, but don't wear one unless you can fight.

They are planning to make all chickens lay twice daily. Now if hogs only had eight legs.

A bargain counter is where a woman ruins her clothes trying to get some more clothes cheap.

California man says he caught a fish weighing 324 pounds. Wire doesn't say what the fish weighed.

Marquette (Mich.) burglar thanked a bank he robbed, which is more than cashiers do.

Two Milwaukee sisters, both teachers, married the same day, which was a streak of luck.

ADVENTURE OF THE TWINS

By Olive Roberts Barton

Mister Dodge wrote this poem and read it to Nancy and Nick in his corn-shock house in Squeaky-Moo Land:

Said the guinea-pig to the guineahen, "I haven't been away in I don't know when."

Said the guineahen to the guinea-pig, "Why, that's just because you are not very big."

So you get your coat and I'll get my hat, And we'll both go and see where the king lives at."

So off they went in a ten-cent bus, With plenty of feathers, but without any fust,

A big guinea-piece made out of gold Was the only money they had, I'm told;

They rode and they rode but were two days late, And they missed the express so went by freight.

They shipped on a boat o'er the briny deep, Guinea-pig got sick and he cried, "Peep, peep!"

But Misses Hen found a great big book, And she said as she read with a long, deep look,

"Here's a place called Guinea, right on the sea, Piggy-Wig, that's the place for you and me."

So she put on her hat, and the pig got his coat, And they jumped o'er the side of the great big boat.

And as luck would, have it they caught a whale, And they hoisted a muslin sheet for a sail.

And they landed in Guinea in time for tea, But alas, there was nothing to drink but seal.

"Oh, me, oh, my!" called the pig to a parrot, "I'd dearly love a yellow carrot."

"While I" said the hen in a hungry voice, "I'd love a carrot and oats would have no choice."

But the parrot laughed till he couldn't see, And all he said was, "My, oh me!"

The two friends stood on the sandy

**The Tangle**

LETTER FROM ABRAHAM EINSTEIN TO JACOB BLOOM.

MY DEAR JAKE:
Of course you know by this time what a ten strike that little girl stole away from you has made. I was sorry I couldn't get on to New York for her opening there but we are putting in a new production for her immediately.

You have to work fast with these young women if you want to get the money out of them. The public soon gets tired of even the best of them and they have only a few years to make good.

I think perhaps that with Paula things will be a little bit different as she is very far from being a dumb-bell, like the most of them and she has a very great sense of gratitude toward your truly, and I am sure that she won't get off my lot the moment some other moving picture plate offers her ten dollars a week.

Don't think I haven't a contract with her because I say this. I have, my boy, but you know how much good a contract is to anyone when someone really wants to break it. I don't think, however, that little Paula will break any contract. The only time she seems happy is when she is on one of the sets going through her part. So far she seems very grateful to me.

She certainly is a bear for work. Of course everybody thinks she is "Abey Einstein's sweetie," but they are all mistaken, Jake, every one of them. She treats me as though I was her daddy and between you and I, she has got them all guessing, including myself.

It's only once in a while that anybody can get her away from her bungalow, where she lives all alone with an old woman she took out of the old ladies' home soon after she got her. Smart trick of hers that, wasn't it? Mrs. Hawkins is devoted to her and although she only speaks English with a most rasping Yankee accent, and little Paula is French as French can be, you know, Paula calls her "sunt" and "the damned if she don't put it over."

Because she keeps so much to herself the moving picture colony seems to think she is Ritz but I've never seen anything high hatted about her, although she won't let even me be nice to her unless I spend the money on half a dozen other girls to make up a party with Mrs. Hawkins for chaperon.

Oh, yes, Jake. She's got me going but she's got everybody else, in the procession. I even saw that new production manager of mine, who seems to have an adding machine inside his head, watching her closely the other day. If you haven't seen her in "Trumping His Heart," be sure and go the moment you get this letter. I'll tell the world you'll see something.

ABEY.

MANDAN NEWS

Elect Officers of New Association

R. G. Meyers of the Union Farmers bank of New Salem has been named president of the Morton county bankers association a new organization formed at New Salem following a banquet served to representatives of 13 or 16 banks of the county at the Metropolitan hotel Tuesday night.

Other officers elected were: Paul Mann, Merchants State bank of Hebron, vice-president; Kirk Krauth, Hebron, secretary and treasurer, and the above three with E. A. Ripley of the Farmers State bank of Mandan and L. A. Davis of the Associated Banks of the First National, Mandan, members of the advisory board.

The association has been formed for the purpose of cooperating with the farmers in developing the dairy industry.

Mr. and Mrs. H. F. Wilde of Portland, Ore., arrived last evening for a visit at the home of their niece, Mrs. Oscar Zeamer, Mrs. S. G. Wilde, grandmother of Mrs. Zeamer is now a guest here.

L. L. Holmes who has been farming three miles northwest of Schmidt for the past several years disposed of the bulk of his farm machinery and equipment at an auction sale Saturday and has returned to make his home in this city.

Rev. Dan H. Smith, C. S. R. of St. Louis is visiting in North Dakota this week in the interests of the deaf and dumb.

Mrs. Arthur Root and baby left last evening for Minneapolis to spend a month with relatives.

Mrs. W. J. Root has left for Iowa to spend a month or six weeks with relatives.

Mrs. V. J. Root who has been a guest at the home of her aunt, Mrs. J. E. Williams has left for her home at Hebron.

Funeral services for Mrs. Thomas Adams who died Monday at the home of her daughter in Livingston, Mont., will be held this afternoon from the Presbyterian church. Mrs. Adams who is about 65 years of age has resided on the farm just south of the city for the past 43 years, leaving only about nine months ago to make her home with a daughter.

A cancer was responsible for her death. She is well known in Mandan and this section of Morton county with a wide circle of friends.

A son was born yesterday to Mr. and Mrs. George Beaumont of Jamestown. Mrs. Beaumont is a daughter of Mr. and Mrs. Chris Sakariassen of Mandan.

Mr. and Mrs. Mike Haider who have been guests at the home of their daughter, Mrs. J. B. Fredericks for the past two months left today for their home in Los Angeles, Calif. Enroute the plan to spend about a week with another daughter, Mrs. Carl Johnson of St. Paul.

Mrs. Elma Ransover who has been a guest for the past week at the home of Mr. and Mrs. C. I. Larson has left for her home in Spokane Wash.

HURLED IN AIR BY TIGER

Hunter in India Shot Animal Through the Heart While Being Carried Into Jungle.

The most terrible experience I ever came across in India, reports W. A. Fraser, was that of a sahib whose name I have forgotten, though I remember the name of his associate, Mr. Powden.

This sahib, who was lying flat on a gravelly bar beside a salt lick, waiting for sambar (deer), when suddenly some terrific force hit him between the shoulders, driving his face into the gravel.

It was in the cold weather, so he was wearing an ulster, and now he was lifted by the something that struck him, and he was thrown into the air and landed on the gravelly bar.

He could hear a purring, like the whirr of an electric fan. A ghastly smell of carrion was in his nostrils, and on either side of his head showed the yellow forearm of a tiger.

He realized that as soon as they reached the jungle 50 yards away, the tiger would make a meal of him. And he was helpless!

Suddenly it flashed through his mind that he had a heavy revolver in his coat pocket. His hands were quite free, so he managed to get the pistol, cocked it, and fired upward, trying for the tiger's head.

At the pistol's report, the tiger leaped, and landed around and around several feet. They had reached the jungle, and six feet away the tiger was roaring, clawing up the earth, and rolling over. The sahib crawled through the bushes and came out to the river, where he was seen by Powden.

He was a wreck, naturally. Next day they found the tiger dead, the big bullet having gone through his heart—Saturday Evening Post.

ESKIMOS CARE FOR THE OLD
Elders' Counsel Always Considered—Mutual Kindness the Rule in Arctic.

Old people are held in great respect among the Eskimos and their counsel is always considered. They help as far as they are able in the household work, the old men repairing weapons, harness, etc., and the old women sewing and tending the lamps. In times of scarcity, as in winter, meat and oil is always shared around.

Directly a seal or deer is brought in it is cut up and sent to each needy family. In times of plenty each family is supposed to provide for itself, but old people, widows and orphans have always the first claim upon those who have the means.

Among these people mutual kindness is a general obligation. A widow or orphan child is never left alone, but taken into the house and family circle of the nearest relative. The widow gives her services in return for food and clothing and the child is cared for as the man's own offspring.—Detroit News.

Bonaparte Still Fascinates.
An electrical engineer of Charlottesville, Va., who recently died, left to Princeton university a collection of 3,000 volumes having to do with the French Revolution and Napoleon. There is an era in nearly every man's life when he reads this chapter of world history. Interest is persistent. The Yale senior class recently rated him at or near the head of their favorite characters. It is presumably the dramatic quality in the man; just as people troop to the playhouse, so they divert themselves in reading of a great actor. The actor cannot be called an admiration—men, especially, admire Washington and Lincoln, but none ever called them "actors."

Tried to Convert Egypt.
The story of Akhnaton, who was the sovereign of a mighty realm, is told in H. G. Wells' "Outline of History." From Ethiopia to the Mediterranean, from the Nile to Euphrates, Akhnaton was worshipped as a god. But he was human.

He loved his beautiful wife passionately. He had himself sculptured with her seated upon his knee—kissing her in his chariot. He tried to turn Egypt from the service of many gods to the worship of one.

For 18 years he made headway against all the priesthood of his empire, but the hold of the old religion was too strong for him, and at his death his son-in-law, Tut-Ankh-Amen, fell again beneath their sway.—Detroit News.

Another Fallacy.
It has been said that lightning never strikes twice in the same spot. The remark is about the most foolish and unscientific that could be made, for the electric discharge between the earth and the clouds must find a conductor, and where a good conductor is present, there, of course, the discharge is most frequent. In some forests the best conductor, and the writer has known lightning to strike four times during one storm in a field where the subsoil was limestone, while not a tree was touched on the next property, which happened to be stiff clay.

Gallant.
A really polite Frenchman can be complimentary in the face of unkind remarks.

Such a man, who had been bestowing upon a lady many compliments, asked her why she kept a large and apparently savage dog which had just entered the room.

"I bought him only yesterday," she answered flippantly, "and I am going to keep him in my front hall to eat up all my admirers."

"Ah, the poor beast!" exclaimed the Frenchman, "to die of indigestion!"

SPORTS

HIGH SCHOOLS BATTLING FOR CHAMP HONORS

Plenty of Action on Gridiron
This Week, With Cham-
pionship Rounds Ahead

B. H. S. HAS HARD GAME

(By Bruce Murphy)
Followers of North Dakota high school football are destined to see plenty of action on the gridiron this week. With the state championship round scheduled for the first of next month, competition is especially keen for district laurels. The contending eleven all over the state are stronger and more evenly matched than was the case last season.

Fargo High School, champion for the past two seasons, will again make a strong bid for state honors, but will find many stumbling blocks on the road. Valley City and Oakes are both out to wrench the district title from the larger school. The Valley City team, who were forced out of the running last year by failure to pay the high school league dues, is back in the melee this season with a formidable bunch of huskies. Oakes high, hitherto unknown on the gridiron, has rapidly sprung into the limelight by defeating Jamestown, Enderlin and several other eleven by decisive scores. Valley City and Oakes lock horns Saturday, and the winner will undoubtedly be matched against Fargo, to decide the honors in the South-eastern District.

Bismarck High School's team, runner-up in last year's championship fray, have again put a winning combination in the field, but will be forced to exert itself to successfully cope the district title from Mandan and Dickinson, who are giving the Capital City crew a merry chase this season. Mandan's win over Dickinson, and its subsequent loss to Bismarck last Saturday, leaves Bismarck as the favorite. Dickinson, however, in bowing to Mandan by a close margin, showed good form, and when the Bismarck eleven goes to the western city on Friday of this week, it will have a hard struggle on its hands. Dickinson athletic teams are noted for their tenacious ability displayed on the home grounds, and this year, the players have set their hearts in defeating the Bismarck squad. A win by Dickinson, will leave the Southwestern District in a three-cornered tie. Mandan still has a chance to the Bismarck, in the return game a week from Saturday.

Williston Looks Good
Williston, who for many years held supremacy on the gridiron, and has captured the Northwestern District flag for the last six or seven successive seasons, looks good again this year. Last year, Minot lacked one point of defeating Williston, and intends to turn the trick, when the two rival schools meet on the Williston field Saturday. The game will settle the district championship. The Bowbells eleven, which appeared as a likely contender, fell before the Williston machine last week by a 48-0 score.

Grafton and Grand Forks meet Saturday, in a contest that will undoubtedly decide the winner of the Northeastern District honors. Grafton is planning on the biggest season in the history of the school, and is slated to come out on top. Neither team has been defeated, and a fast game is expected.

If the awarding of the District Championships is not hampered by tie games, the semi-final round of the State Championship should be played off the first week in November. The two Western Districts will undoubtedly be matched against each other, as was the case last year, and the two Eastern Districts will play off for the right to meet the winner, in the final title-go.

NO SMILES

Captaining the Rutgers football eleven must be a grim business. W. W. Kingman, who holds the job this year, wouldn't smile for our photographer. Wouldn't even look at the camera. Wouldn't do nuffin'. But Kingman happens to be a serious young gent, and he's seriously interested in the uplift of Rutgers football.

SCOTT MAY LEAVE GAME

Holder of Record for Consecutive Performances Considers Action

New York, Oct. 18.—Not only will the New York Giants, fallen world's champions, go through a rebuilding process, before they are ready to scale title heights again, but the Yankees, their successors to last year's crown, also may bolster a few weak links in their victorious machine before the 1924 season gets under way.

It developed that Everett Scott, veteran shortstop of the Yankees, considering voluntary retirement, although Miller Huggins, manager of the New champions, has no desire himself to part with the game's greatest "iron man".

Scott, however, has an attractive business enterprise in view, which, if accepted, would mean his passing after having piled up the remarkable record of participating in 1,138 consecutive games, a record he started in 1916 with the Boston Red Sox and which nearly doubles the best previous major league mark. Scott may find the call of the game too strong to resist when spring comes around, but in the event he drops out, his shoes may be filled by Joe Boley, "100,000 beauty" of the Baltimore Orioles who has been eagerly sought by a number of major league clubs for several seasons. The purchase of Boley has never been officially announced by the Yankees or Jack Dunn, manager of the Baltimore International champions, but it is understood the world's champions have first claim on him.

"DEMONS" OFF FOR DICKINSON

Bismarck high school's football squad under the leadership of Coach Houser, went to Dickinson today, where tomorrow the team meets the Dickinson High School eleven.

PAPYRUS IN GOOD WORKOUT

New York, Oct. 18.—Papyrus, the English derby winner, staged the rail-birds at Belmont park today with a dazzling workout in the international match with Zev on Saturday. The English colt went a mile in one minute, thirty-eight and three-fifths seconds and galloped a mile and a furlong at one minute, fifty-one and two-fifths seconds. He was never fully extended. Critical observers were unanimous in declaring that it was by far the most impressive trial shown by either candidate.

MAKES STUDY OF FOOTBALL LIGHTNING

Princeton investigator Does
Not Follow Orthodox Sys-
tem in Developing Theory

BY JOE WILLIAMS.
NEA Service Writer.

Princeton, N. J., Oct. 18.—Alderman Bill Roper of Princeton is in cloistered seclusion these days investigating the scientific theory that lightning never delivers its electrical fury to the same address twice.

A year ago the Princeton football squad riddled by the departure of five outstanding stars, Louie, Keck, Witmer, Garrity and Gilroy, was struck by the lightning of a football miracle, the effect of which was to lift a team of obvious mediocrities to the dizzy heights of a championship.

This year Roper finds himself in a similar situation with the entire center of his line shot away, the two surviving veterans ends standing as heroic reminders of a glorious past.

On these two ends and a backfield of four seasoned men the Phil-outplat a stodgy star any day in build his new team, a team which will be called on to battle Notre Dame, Navy, Harvard and Yale in quick jumps.

The Nassau Tiger rather makes a specialty of picking out the tough ones. Last year it was Chicago, Harvard and Yale. This year Notre Dame replaces Stag's men on the schedule and the midshipmen are added to heighten the flavor.

Nobody expected the Tiger to come through with a clean slate last fall, but he did. Nobody thinks the Tiger can repeat this fall—but he may.

They do things in an interesting if not an orthodox manner at Princeton. Roper has no set system, beyond the development of a winner in a general way. Since the thrilling days of Sammy White and the Poe boys the Tigers have been known as a team of "opportunists" close, eager followers of the ball, men who are schooled to wait for the "break" and the capitalize it.

Roper has a way of appealing to the individuality of the player as distinguished from the highly systematized mass maneuvers of other coaches. Roper banks heavily on the inspirational spark. It is his theory that the inspired scrub will outplay a stodgy star any day in the week, and twice on Saturday after noons. To have the best team is not important, to play the best game always is.

The physical aspects of the Tiger while dark are not utterly discouraging. Roper has two fine ends in Stout and Drews. The return of Hutson to tackle is a big help. Hutson did not play last year. Hills, a 200-pounder, will probably go to the other tackle. Howard is a guard with experience. Pachal has the inside track for the other guard position. Caldwell, an all-round man, is filling the center berth acceptably.

The old backfield is back in action, with the tiny Johnny Gormann audacious hero of the Chicago game last year, still calling signals at quarterback. Captain Snively, Beattie Newby and Crum are smashing backs, able defensive workers and smart players. Barring injuries this backfield, as an effective unit, will rank with the best in the game.

Ambitions, hopeful second stringers abound in the usual numbers. Forrest, Helmrath, Reynolds and Hemminger are capable reserves for the line. Foster, Ewing, Shackelford Gibson and Legendre, a brother of the former Princeton star, are lurking in the background wishing nobody ill-luck but hoping a flock of backfield men fall down and bump their heads.

SUMMONS

STATE OF NORTH DAKOTA, County of Burleigh. In District Court, Fourth Judicial District.

Willis H. Cawley, Plaintiff, vs. Elizabeth E. Cawley, Defendant. The State of North Dakota to the above named defendant:

You are hereby summoned and required to answer the complaint of the plaintiff in this action a copy of which is hereto annexed and herewith served upon you and to serve a copy of your answer upon the sub-

MARINES' COACH

All smiles is John W. Beckett as he looks over the work of the huskies who make up the Marines football eleven. Beckett is head coach of the Devil Dogs and is hopeful of a season of cheer notwithstanding the heavy schedule with which he has burdened himself.

scriber at his office in the city of Bismarck, in Burleigh County, North Dakota within thirty days after the service of this summons upon you, exclusive of the day of such service, and in case of your failure to so appear and answer, judgment will be taken against you by default for the relief demanded in the complaint.

Dated Sept. 24, 1923.

The Cock and the Gem

A cock came down from his roost

at dawn and scratched the ground in

search of food. By and by, he turned

up a fine gem. He gave it a kick and

muttered softly to himself, "Huh,

you're a fine thing, no doubt, but to

my mind one good grain of wheat is

worth all the gems in the world."

It's all in the way you look at it.

The wealth of the universe wouldn't

be worth much to you if it couldn't

buy you something to eat. Inversely,

the more you can buy for your

money, the more your money is

worth.

The advertisements are intimate

lessons in buying efficiency. They

teach you how to get the most in

value and enjoyment for the least

money. They give you knowledge

that pays.

That is why the shopper who reads

the advertisements always has the

advantage when it comes to stretch-

ing the dollars.

Millions of thrifty folks find that it

pays them well to be guided by the

advertisements.

So will you.

The advertisements will show you how
to get the most for your money

get the most for your money

Ball games are won on narrow margins sometimes. Babe Ruth was on base during the second inning of the fifth world series game. Pipp grounded to Frisch, who whipped the ball home. Babe came in and looked out a mile, but the big fellow, shown here just about to launch into a tremendous slide, evaded Gowdy's hand, thus scoring what proved to be the winning run in an 8-to-1 score.

SOME NATIONS BAR KISS

In Japan it is looked upon as the depth of human degradation—Cut Them Out of Film.

Remarkable penalties are exacted in some countries from those found indulging in kissing. In Milan guilty parties are liable to a heavy fine; in certain towns in Russia before the war it was also a punishable offense, while elsewhere men cannot kiss the womenfolk on Sunday without the risk of prosecution.

Recently, in Belgium, a man and his wife were fined 78 francs each for having kissed in public. This case is all the more surprising as in Belgium and France a public kiss between spouses on meeting or separating is recognized as a national salute.

In Japan kissing is looked upon as the depth of human degradation. Every kiss in film has to be cut out, and there are film censors who do almost nothing else but look out for kisses.

Perhaps the worst sufferers from the kissing habit are railway authorities, and in a number of instances kissing on the station premises is forbidden in view of the danger that might be caused by the Bavarian state railways.

The penny platform tickets were introduced on railways in England during the war to prevent kissing on the platform and consequent delay.

How did kissing originate? The Bible is full of mention of the widest range of kisses, from the kiss of Jacob to Jacob's tender salute of Rachel at the well. The early Romans sealed all their negotiations with kisses, and kisses were a popular observance among the early Christians until, in 397, such salutes between the sexes were forbidden.

If we are to credit the Scandinavian tradition, kissing was a pleasurable habit introduced into England by Rowena, the beautiful Saxon.

Kisses have helped in no small degree to mold history. In 1794 the beautiful Duchess of Gordon founded and raised the Gordon Highlanders, one of the most noted of Highland regiments, by kissing. —Baltimore Sun.

USE PAPERS FOR WALLS

Two Thousand Tons Shipped From Europe in Year—Helps Keep Vermin From Houses.

The Chinese, it is thought, are the greatest of all consumers of old newspapers. The official returns of the customs house at New-chang show that that port alone, during the year for which figures are available, received approximately 2,000 tons of old European newspapers valued at \$75,000.

It is not as first easy to imagine to what use so much obsolete news can be put. It is, however, ascertained that the middle-class Chinese prefer newspaper to native wall paper as a covering for their walls. It has a greater power of resistance and affords a more effective barrier to the invasion of the vermin that infest Chinese houses, often driving out the insects.

Moreover, the Chinese are experts at cutting out of newspapers wallcoats which they wear next to the skin. These paper wallcoats are said to be the best possible protection against a sudden "cold snap." In view of these admirable uses to which European newspapers may be put, it is not surprising to learn that the imports constantly show increase in weight.

It should be added, however, that the value of the import has declined. This fact is explained by the rapid development of the native newspaper press that has occurred during the last few years.

Franks of Climate Shown.

Through use of an observation station, geologists have recently completed a series of experiments that indicate Mt. Desert island, a few miles off the coast of Maine, has a higher average temperature and greater evaporation than Long Island, more than 200 miles to the south. The recording instruments consist of thermometers that register maximum and minimum temperatures and specially designed bottles, filled with distilled water and fitted with porous stoppers that protrude above the ground. When the sun strikes them, the liquid is drawn from the glass containers in the same manner that moisture is extracted from the earth. Measurements of the water are taken at intervals and the differences noted give the amount of evaporation. On this island, trees, flowers and plants that are characteristic of the lands of ice and the more southern climes thrive, while birds of the Arctic and the southland make it their common home during the spring and summer months.—Popular Mechanics.

Reason Why a Top Spins.

Every one who has ever whirled a string to which a stone is tied must have noticed the strong "pull" as the stone tried to get away. Every part of a spinning top is trying to fly away from the center. As each particle of the top has an equal pull, none of them can upset the balance of the others. So long as this force is strong enough—that is, so long as the spin lasts—it counteracts the ordinary power of gravity, which has to confine itself to the peg of the top, the only point actually touching the earth. When the top slows down the centrifugal force relaxes, gravity comes into its own again, and the top falls over.—Scientific American.

Very Livid.

Doctor—What is your chief complaint? Suffering Swede—Chronic diarrhoea. As you like—Jude.

HAT TRIMMING.

Gold braid and floral embroideries, as well as feather trappings decked with gold, are popular trimmings for fall hats.

The Clever Advertiser

By MORRIS SCHULTZ

"This is the room occupied by General Washington after the battle of Trenton," piped the little, withered-up old landlady. "Looks like an ordinary room to me," grunted Jim Crane. "Oh, James, how perfectly awfully!" exclaimed his wife enthusiastically. "Just think of our sleeping in the room Washington slept in after the battle of Trenton. Who else slept here, Mrs. Starch?" "This room," piped Mrs. Starch in melancholy tones, "is called the celebrities' room. It has been occupied by Lincoln, General Grant and Edgar Allan Poe at various times. This chair is one of the things that came down here." "Oh, Jim, do look at Benedict Arnold's chair! Isn't it dear?" cried Molly. "Well, they can say that James Crane also sat down in this chair," grumbled her husband, planting himself heavily in it. "Jim, you are a weak knave," "Gently, buddy, a weak knave, just to say we sat down in B. Arnold's chair and slept in the room occupied by—"

"But that bed was slept in by General Washington after the battle of Trenton!" exclaimed Molly. "Just think of it, James! It's something to be proud of all one's life, to say one slept in the bed Washington slept in."

Jim Crane grunted without answering. He had too much common sense to respond. He knew his wife was crazy on the subject of antiques.

Besides, the little country inn, which looked no better than a small farmer's cottage, was packed with the wealthy, indulging their luxury of residing in the same house as Washington, Grant, Lincoln, Edgar Allan Poe and Benedict Arnold. But of all the guests none equaled the Cranes, who were envied and esteemed for they had the celebrities' room.

"All I got to say," grunted Jim Crane next morning, "that if Washington, Lincoln, Grant and Edgar Allan Poe occupied that bed they must have slept mighty badly."

"Now, Jim, you are horrid!" exclaimed Molly. "You know perfectly well in those days they had great soft feather mattresses."

"Humph!" said Jim Crane. "Still, I'm not surprised B. Arnold preferred to sit up all night in that chair. I don't look like a very old man."

In fact he had a curious sort of idea that he had sat in that chair before. He dared not tell Molly, however, because he knew she would tell him it was reincarnation.

The week wore away. The Cranes were tortured and envied; they slept the sleep of the damned, but everyone pointed out during the day as the people occupying the celebrities' room.

Old Mrs. Starch was the fifth of the generations to occupy the old Starch mansion. It had housed all the leading men of Revolutionary and Colonial times. In short, Mrs. Starch, when she was left impoverished, had suddenly struck a gold mine by converting her home into a hotel and charging proportionate prices.

"Well, I hope you've enjoyed your visit, Molly," growled Jim Crane, on the last afternoon. "One more night in George Washington's bed and I'll be glad to hit the hay in our own little home."

"Listen, Jim, said Molly. 'I believe, Mrs. Starch would sell us Benedict Arnold's chair for two thousand dollars.' She hinted."

"Two thousand! Say, that's the limit!" yelled Jim Crane, tearing his hair.

"But, Jim, dear, just think of having it in our drawing-room and—"

"I won't fall for that stuff! howled Jim, and with an offended gesture, drew out the room. Jim was in despair.

He knew that she would have her way. It was a clear waste of two thousand honest dollars. Left alone, he stared at the chair, which leered back at him with its crooked arms and splay legs sprawling.

With sudden uncontrollable anger Jim Crane raised his shoe-er and brought it down, smash, upon Benedict Arnold's chair.

The chair collapsed into brittle sections. Startled by the sounds, Molly and Mrs. Starch came running in. They screamed.

"Jim, what have you done?" Jim grabbed

SOME NATIONS BAR KISS

In Japan it is looked upon as the depth of human degradation—Cut Them Out of Film.

Remarkable penalties are exacted in some countries from those found indulging in kissing. In Milan guilty parties are liable to a heavy fine; in certain towns in Russia before the war it was also a punishable offense while elsewhere men cannot kiss the womenfolk on Sunday without the risk of prosecution.

Recently, in Belgium, a man and his wife were fined 78 francs each for having kissed in public. This case is all the more surprising, as in Belgium and France a public kiss between spouses on meeting or separating is recognized as a traditional salute.

In Japan kissing is looked upon as the depth of human degradation. Every kiss in film has to be cut out, and there are film censors who do almost nothing else but look out for kisses.

Perhaps the worst sufferers from the kissing habit are railway authorities, and in a number of instances kissing on the station premises is forbidden in view of the delay thus caused. Special notices to this effect were issued by the Bavarian state railways.

The penny platform tickets were introduced on railways in England during the war to prevent kissing on the platform and consequent delay.

How did kissing originate? The Bible is full of kissing of the widest range, from the treacherous kiss of Judas to Jacob's tender salute of Rachel at the well. The early Romans sealed all their nuptials with kisses, and kisses were a popular observance among the early Christians until, in 397, such salutes between the sexes were forbidden.

If we are to credit the Scandinavian tradition, kissing was a pleasurable habit introduced into England by Rowena, the beautiful Saxon.

Kisses have helped in no small degree to mold history. In 1794 the beautiful duchess of Gordon founded and raised the Gordon Highlanders, one of the most noted of Highland regiments, by kissing.

USE PAPERS FOR WALLS

Two Thousand Tons Shipped From Europe in Year—Helps Keep Vermin From Houses.

The Chinese, it is thought, are the greatest of all consumers of old newspapers. The official returns of the customhouse at Newchwang show that that port alone, during the year for which figures are available, received approximately 2,000 tons of old European newspapers valued at \$75,000.

It is not at first easy to imagine to what use so much obsolete news can be put. It is, however, ascertained that the middle-class Chinese prefer newspaper to native wall paper as a covering for their walls. It has a greater power of resistance and affords a more effective barrier to the invasion of the vermin than the native Chinese houses, often driving out the inmates.

Moreover, the Chinese are experts at cutting out of newspapers waistcoats which they wear next to the skin. These paper waistcoats are said to be the best possible protection against a sudden "cold snap." In view of these admirable uses to which European newspapers may be put, it is not surprising to learn that the imports constantly show increase in weight.

It should be added, however, that the value of the imports has declined. This fact is explained by the rapid development of the native newspaper press that has occurred during the last few years.

Freaks of Climate Shown.

Through underground observation stations, scientists have recently completed a series of experiments that indicate Mt. Desert Island, a few miles off the coast of Maine, has a higher average temperature and greater evaporation than Long Island, more than 200 miles to the south. The recording instruments consist of thermometers that register maximum and minimum temperatures and specially designed bottles, fitted with distilled water and fitted with porous stoppers that protrude above the ground. When the sun strikes them, the liquid is drawn from the glass containers in the same manner that moisture is extracted from the earth. Measurements of the water are taken at intervals and the differences noted give the amount of evaporation. On this island, trees, flowers and plants that are characteristic of the lands of ice and the mile southern limit of the Arctic and the Arctic and the southland make it their common home during the spring and summer months. Popular Mechanics.

Reason Why a Top Spins. Every one who has ever whirled a string to which a stone is tied must have noticed the strong "pull" as the stone tried to get away. Every part of a spinning top is trying to fly away from the center. As each particle of the top has an equal pull, none of them can upset the balance of the others. So long as this force is strong enough—that is, so long as the spin lasts—it counteracts the ordinary power of gravity, which has to confine itself to the peg of the top, the only point actually touching the earth. When the spin slows down, the centrifugal force relaxes, gravity comes into its own again—and the top falls over. Scientific American.

Very Livid. Doctor—What is your chief complaint? Suffering Swede—Chronic diagnosis, Ar. f. n. d. Judge.

HAT TRIMMING.

Gold braided chain embroidered as well as feather trims decorated with gold, are popular trims for fall hats.

FOR SALE—Dining room set, table in Queen Anne style, one bed, one 10-18-23

"Listen, Jim," said Molly. "I believe Mrs. Starch would sell us Benedict Arnold's chair for two thousand dollars. She hinted—"

"Two thousand! Say, that's the limit!" yelled Jim Crane, tearing his hair.

"But, Jim, dear, just think of having it in our drawing-room and—"

"I won't fall for that stuff!" howled Jim, and Molly, with an offended gesture, sailed out of the room, leaving him in despair.

He knew that she would have her way. It was a clear waste of two thousand honest dollars. Left alone, he stared at the chair, which leered back at him with its crooked arms and splay legs sprawling.

With sudden uncontrollable anger Jim Crane raised his shoe-heel and brought it down, smash, upon Benedict Arnold's chair.

The chair collapsed into brittle sections. Startled by the sound, Molly and Mrs. Starch came running in. They screamed.

"Jim, what have you done?" Jim grabbed Molly by the arm and pointed something lying among the debris.

"See that pocket-knife?" he asked grimly. "That's mine. I lost it down the back of the seat five years ago, when that chair belonged to me, before I sold off our old junk to C. B. Grand Rapids, and—"

He turned on Mrs. Starch. "It's all bunk!" he shouted. "Washington never slept here, nor Lincoln, nor anybody more interesting than James and Molly Crane. But I take off my hat to you as the greatest little scrapper I've ever seen."

Wireless for Cars. Wireless sets for motorcars manufactured in England cost \$500 and enable passengers to listen in while the car is moving. This is for large covered-in cars with an aerial tacked away in the rear. There is also a smaller \$125 set which must be connected with a tree for an aerial. But it offers motorists the advantage of listening in while picnicking in the heart of the woods.

THE CLEVER ADVERTISER

BY MORRIS SCHULTZ

"This is the room occupied by General Washington after the battle of Trenton," piped the little, withered-up old landlady.

"Looks like an ordinary room to me," grunted Jim Crane.

"Oh, James, how perfectly sweet!" exclaimed his wife ecstatically. "Just think of our sleeping in the room Washington slept in after the battle of Trenton. Who else slept here, Mrs. Starch?"

"This room," piped Mrs. Starch in melancholy tones, "is called the celebrities' room. It has been occupied by Lincoln, General Grant and Edgar Allan Poe at various times. This chair is one Benedict Arnold once sat down in."

"Oh, Jim, do look at Benedict Arnold's chair! Isn't it dear?" cried Molly.

"Well, they can say that James Crane also sat down in this chair," grumbled Jim, but, planting himself heavily in it.

"Jim, you are so unromantic—" "Seventy bucks a week, just to say we've sat down in B. Arnold's chair and slept in the room occupied by—"

"But that bed was slept in by General Washington after the battle of Trenton!" exclaimed Molly.

"Just think of it, James! It's something to be proud of all one's life, to say one slept in the bed Washington slept in."

Jim Crane granted without answering. He had too much common sense to respond. He knew his wife was crazy on the subject of antiques.

Besides, the little country inn, which looked no better than a small farmer's cottage, was packed with the wealthy, indulging in the luxury of residing in the same house as Washington, Grant, Lincoln, Edgar Allan Poe and Benedict Arnold. But of all the guests none equaled the Cranes, who were envied and esteemed for they had the celebrities' room.

"All I got to say," grunted Jim Crane next morning, "that if Washington, Lincoln, Grant, and Edgar Allan Poe occupied that bed they must have slept mighty badly."

"Now, Jim, you are horrid!" exclaimed Molly. "You know perfectly well in those days they had great soft, feathered mattresses."

"Humph!" said Jim Crane. "Still, I'm not surprised B. Arnold preferred to sit up all night in that chair. It doesn't look like a very old chair to me."

In fact he had a curious sort of idea that he had sat in that chair before. He dared not tell Molly, however, because he knew she would tell him it was reincarnation. The week wore away. The Cranes were tortured and envied; they slept the sleep of the damned, but everyone pointed them out during the day as the people occupying the celebrities' room.

Old Mrs. Starch was the fifth of the generations to occupy the old Starch mansion. It had housed all the leading men of Revolutionary and Colonial times. In short, Mrs. Starch, when she was left impoverished, had suddenly struck a gold mine by converting her home into a hotel and charging proportionate prices.

"Well, I hope you've enjoyed your visit, Molly," growled Jim Crane, on the last afternoon. "One more night in George Washington's bed and I'll be glad to let the hay in our own little home."

"Listen, Jim," said Molly. "I believe Mrs. Starch would sell us Benedict Arnold's chair for two thousand dollars. She hinted—"

"Two thousand! Say, that's the limit!" yelled Jim Crane, tearing his hair.

"But, Jim, dear, just think of having it in our drawing-room and—"

"I won't fall for that stuff!" howled Jim, and Molly, with an offended gesture, sailed out of the room, leaving him in despair.

He knew that she would have her way. It was a clear waste of two thousand honest dollars. Left alone, he stared at the chair, which leered back at him with its crooked arms and splay legs sprawling.

With sudden uncontrollable anger Jim Crane raised his shoe-heel and brought it down, smash, upon Benedict Arnold's chair.

The chair collapsed into brittle sections. Startled by the sound, Molly and Mrs. Starch came running in. They screamed.

"Jim, what have you done?" Jim grabbed Molly by the arm and pointed something lying among the debris.

"See that pocket-knife?" he asked grimly. "That's mine. I lost it down the back of the seat five years ago, when that chair belonged to me, before I sold off our old junk to C. B. Grand Rapids, and—"

He turned on Mrs. Starch. "It's all bunk!" he shouted. "Washington never slept here, nor Lincoln, nor anybody more interesting than James and Molly Crane. But I take off my hat to you as the greatest little scrapper I've ever seen."

Wireless for Cars. Wireless sets for motorcars manufactured in England cost \$500 and enable passengers to listen in while the car is moving. This is for large covered-in cars with an aerial tacked away in the rear. There is also a smaller \$125 set which must be connected with a tree for an aerial. But it offers motorists the advantage of listening in while picnicking in the heart of the woods.

HIGH SCHOOLS BATTLING FOR CHAMP HONORS

Plenty of Action on Gridiron This Week, With Championship Rounds Ahead

B. H. S. HAS HARD GAME

(By Bruce Murphy)
Followers of North Dakota high school football are destined to see plenty of action on the gridiron this week. With the state championship round scheduled for the first of next month, competition is especially keen for the district laurels. The contending eleven all over the state are stronger and more evenly matched than was the case last season.

Farro High School, champion for the past two seasons, will again make a strong bid for state honors, but will find many stumbling blocks on the road. Valley City and Oakes are both out to wrench the district title from the larger school. The Valley City team, who were forced out of the running last year by failure to post the high school league dues, is back in the melee this season with a formidable bunch of huskies. Oakes high, hitherto unknown on the gridiron, has rapidly sprung into the limelight by defeating Jamestown, Endicott and several other eleven by decisive scores. Valley City and Oakes both have scheduled to be matched against Farro, to decide the honors in the South-eastern District.

Bismarck High School's team, run-up in last years championship fray, have again put a winning combination in the field, but will be forced to exert itself to successfully cop the district title from Mandan and Dickinson, who are giving the Capital City crew a merry chase this season. Mandan's win over Dickinson, and its subsequent loss to Bismarck last Saturday, leaves Bismarck as the favorite. Dickinson, however, in bowing to Mandan by a close margin, showed good form, and when the Bismarck eleven goes to the western city on Friday of this week, it will have a hard struggle on its hands. Dickinson athletic teams are noted for their tenacious ability displayed on the home grounds, and this year, the players have set their hearts in defeating the Bismarck squad. A win by Dickinson, will leave the Southwestern District in a three-cornered tie. Mandan still has a chance to tie Bismarck, in the return game a week from Saturday.

Williston Looks Good
Williston, who for many years held supremacy on the gridiron, and has captured the Northwestern District flag for the last six or seven successive seasons, looks good again this year. Last year, Minot lacked one point of defeating Williston, and intends to turn the trick, when the two rival schools meet on the Williston field Saturday. The game will settle the district championship. The Bowbells eleven, which appeared as a likely contender, fell before the Williston machine last week by a 48-0 score.

Grafton and Grand Forks meet Saturday, in a contest that will undoubtedly decide the winner of the Northeastern District honors. Grafton is planning on the biggest season in the history of the school, and is slated to come out on top. Neither team has been defeated, and a fast game is expected.

If the awarding of the District Championships is not hampered by tie games, the semi-final round of the State Championship should be played off the first week in November. The two Western Districts will undoubtedly be matched against each other, as was the case last year, and the two Eastern Districts will play off for the right to meet the winner, in the final title-go.

NO SMILES

Captaining the Rutgers football eleven must be a grim business. W. W. Kingman, who holds the job this year, wouldn't smile for our photographer. Wouldn't even look at the camera. Wouldn't do nuffin'. But Kingman happens to be a serious young gent, and he's seriously interested in the uplift of Rutgers football.

SCOTT MAY LEAVE GAME

Holder of Record for Consecutive Performances Considers Action

New York, Oct. 18.—Not only will the New York Giants, fallen world's champions, go through a rebuilding process, before they are ready to take title heights again, but the Yankees, their successors to baseball's crown, also may bolster a few weak links in their victorious machine before the 1924 season gets under way.

It developed that Everett Scott, veteran shortstop of the Yankees, consecutive games played, is considering voluntary retirement, although Miller Huggins, manager of the New champions, has no desire himself to part with the game's greatest "iron man".

Scott, however, has an attractive business enterprise in view, which, if accepted, would mean his passing after having piled up the remarkable record of participating in 1,138 consecutive games, a record he started in 1916 with the Boston Red Sox and which nearly doubles the best previous major league mark. Scott may find the call of the game too strong to resist when spring comes around, but in the event he drops out, his shoes may be filled by Joe Boley, "\$100,000 beauty" of the Baltimore Orioles who has been eagerly sought by a number of major league clubs for several seasons. The purchase of Boley has never been officially announced by the Yankees or Jack Dunn, manager of the Baltimore International champions, but it is understood the world's champions have first claim on him.

"DEMONS" OFF FOR DICKINSON

Bismarck high school's football squad under the leadership of Coach Houser, went to Dickinson today, where tomorrow the team meets the Dickinson High School eleven.

PAPYRUS IN GOOD WORKOUT

New York, Oct. 18.—Papyrus, the English derby winner, staged the rail-birds at Belmont today with a dazzling workout in the international match with Zev on Saturday. The English colt went a mile in one minute, thirty-eight and three-fifths seconds and galloped a mile and a furlong at one minute, fifty-one and two-fifths seconds. He was never fully extended. Critical observers were unanimous in declaring that it was by far the most impressive trial shown by either candidate.

MAKES STUDY OF FOOTBALL LIGHTNING

Princeton investigator Does Not Follow Orthodox System in Developing Theory

BY JOE WILLIAMS, NEA Service Writer.

Princeton, N. J., Oct. 18.—Alderman Bill Roper of Princeton is in cloistered seclusion these days investigating the scientific theory that lightning never delivers twice.

A year ago the Princeton football squad, riddled by the departure of five outstanding stars, Louie, Keck, Wittmer, Garrity and Gilroy, was struck by the lightning of a football miracle, the effect of which was to lift a team of obvious mediocrities to the dizzy heights of a championship.

This year Roper finds himself in a similar situation with the entire center of his line shot away, the two surviving veterans ends standing as heroic reminders of a glorious past.

On these two ends and a backfield of four seasoned men the Phil-outplat a stodgy star any day in build his new team, a team which will be called on to battle Notre Dame, Navy, Harvard and Yale in quick jumps.

The Nassau Tiger rather makes a specialty of picking out the tough ones. Last year it was Chicago, Harvard and Yale. This year Notre Dame replaces Stag's men on the schedule and the midshipmen are added to heighten the flavor.

Nobody expected the Tiger to come through with a clean slate last fall, but he did. Nobody thinks the Tiger can repeat this fall—but he may.

They do things in an interesting if not an orthodox manner at Princeton. Roper has no set system, beyond the development of a winner in a general way. Since the thrilling days of Sammy White and the Pos boys the Tigers have been known as a team of "opportunists" close, eager followers of the ball, men who are schooled to wait for the "break" and the capitalize it.

Roper has a way of appealing to the individuality of the player as distinguished from the highly systematized mass maneuvers of other coaches. Roper banks heavily on the inspirational spark. It is his theory that the inspired scrub will outplay a stodgy star any day in the week, and twice on Saturday after noons. To have the best team is not important, to play the best game always is.

The physical aspects of the Tiger while dark are not utterly discouraging. Roper has two fine ends in Stout and Drews. The return of Hutan to tackle is a big help. Hutan did not play last year. Hills, a 200-pounder, will probably go to the other tackle. Howard is a guard with experience. Khal has the inside track for the other guard position. Caldwell, an all-round man, is filling the center berth acceptably.

The old backfield is back in action, with the tiny Johnny Gorman, audacious hero of the Chicago game last year, still calling signals at quarterback. Captain Snively, Beattie Newby and Cram are smashing backs, able defensive workers and smart players. Barring injuries this backfield, as an effective unit, will rank with the best in the game.

Ambitions, hopeful second stringers abound in the usual numbers. Forrest, Helmuth, Reynolds and Hemminger are capable reserves for the line. Foster, Ewing, Shackelford Gibson and Legendre, a brother of the former Princeton star, are lurking in the background wishing nobody ill-luck but hoping a flock of backfield men fall down and bump their heads.

SUMMONS

STATE OF NORTH DAKOTA, County of Burleigh, In District Court, Fourth Judicial District.

Willie E. Cawley, Plaintiff, vs. Elizabeth E. Cawley, Defendant. The State of North Dakota to the above named defendant:

You are hereby summoned and required to answer the complaint of the plaintiff in this action a copy of which is hereto annexed and herewith served upon you and to serve a copy of your answer upon the sub-

MARINES' COACH

All smiles is John W. Beckett as he looks over the work of the huskies who make up the Marines football eleven. Beckett is head coach of the Devil Dogs and is hopeful of a season of cheer notwithstanding the heavy schedule with which he has burdened himself.

scriber at his office in the city of Bismarck, in Burleigh County, North Dakota within thirty days after the service of this summons upon you, exclusive of the day of such service, and in case of your failure to so appear and answer, judgment will be taken against you by default for the relief demanded in the complaint.

Dated Sept. 24, 1923.

The Cock and the Gem

A cock came down from his roost at dawn and scratched the ground in search of food. By and by, he turned up a fine gem. He gave it a kick and muttered softly to himself, "Huh, you're a fine thing, no doubt, but to my mind one good grain of wheat is worth all the gems in the world."

It's all in the way you look at it.

The wealth of the universe wouldn't be worth much to you if it couldn't buy you something to eat. Inversely, the more you can buy for your money, the more your money is worth.

The advertisements are intimate lessons in buying efficiency. They teach you how to get the most in value and enjoyment for the least money. They give you knowledge that pays.

That is why the shopper who reads the advertisements always has the advantage when it comes to stretching the dollars.

Millions of thrifty folks find that it pays them well to be guided by the advertisements.

So will you.

The advertisements will show you how to get the most for your money

Base games are won on narrow margins. Sometimes Babe Ruth was on the base during the second inning of the fifth world series game. Pipp grounded to Frisch, who whiffed the ball home. Babe came in and looked out a mile, but the big fellow, shown here just about to launch into a tremendous slide, evaded Gowdy's hand, thus scoring what proved to be the winning run in an 8-to-1 score.

PLANS ROUND WORLD TOURS FOR WOMEN

Miss Keely Says its Most Fascinating Work in World to Pilot Travelers

BY MARIAN HALE.
NEA Service Writer.
New York, Oct. 18.—An opportunity to meet the world's leaders of their sex is now open to the women of America.

At the same time comes the additional opportunity of seeing the world. Both are afforded through the first round-the-world tour for women exclusively, to be conducted by Edith H. Keely of New York. The tour will start from this city in November.

Miss Keely has planned this venture after having gained experience in piloting parties through the orient and South America.

"Travel is the most fascinating, as well as the most enlightening, shall I say, work—in the world," says Miss Keely. "Of course it is work for me, for I have the itineraries, trunks and railroad connections on my mind. But at the same time, it's the most worth-while thing I know of."

"I believe if more women who lead life dull would invest less heavily in clothes and more heavily in travel, they would be surprised at the increased pleasure they could extract from the same amount of money."

"There are," she hastens to add, "women who are fortunate enough to do both. But I find myself always thinking of the women with a fairly limited income."

Women leaders in political and social life in such countries as Italy, Palestine, Egypt and the orient will be asked to meet and address the members of this first women's world tour. Besides, the tourists will have the rare opportunity of seeing and studying the people and problems of other countries, particularly those problems that are faced by woman.

"If you have ambitions of becoming that elusive, indefinable, clever specimen of humanity known as the woman of the world," Miss Keely concludes, "an excellent way of realizing this is to pay your little home planet a visit."

SUMMONS
STATE OF NORTH DAKOTA, County of Burleigh. In District Court, Fourth Judicial District.

Midland Insurance Co., Plaintiff, vs. Jennie J. Velure, John J. Velure and O. T. Ness, Defendants.

The State of North Dakota to the above named defendants:

You are hereby summoned and required to appear and answer the complaint of the plaintiff herein, a copy of which complaint is hereto attached and herewith served upon you, and to serve a copy of your answer upon the subscriber hereto at his office in the City of Bismarck, North Dakota, within thirty (30) days after the service of this summons upon you, exclusive of the day of service, and in case of your failure to so appear and answer, plaintiff will take judgment against you by default for the relief prayed for in his said complaint.

SAYS U. S. CAN HELP EUROPE

Grand Forks, Oct. 18.—"If Europe will accept our proposals we can lead Europe out of its quagmire, otherwise we cannot," said Senator Simeon D. Fess of Ohio, discussing the European situation before the annual convention of the Northeastern section of the North Dakota Teachers' Association today.

The great question in Europe is the divergent economic interests of England and France and this cannot be settled by conferences, the Senator said. England is interested in a market for her food while France's great object is to obtain reparations from Germany for her losses, he said.

BLUES, ORIOLES PLAYING TODAY

Kansas City, Mo., Oct. 18.—The Baltimore Orioles and the Kansas City Blues, champions respectively of the International League and the American Association, were greeted by bright sunlight as they opened the fourth game of the series here this afternoon. The game has been postponed four times because of rain or wet grounds.

SEES GOOD TURN
Washington, Oct. 18.—Reports of a more favorable turn in the agricultural situation in the Northwest were presented to President Coolidge today by Julius H. Barnes, President of the Chamber of Commerce of the United States, and L. H. Shaw, editor of the Billings, Montana, Gazette.

—AND DOING NICELY, THANK YOU

A careless autoist got Fido into all this trouble as shown in the picture. With back broken, hips dislocated and otherwise tormented, J. W. Dierck, his owner, at first was advised to shoot him. Instead a veterinary surgeon was called, and enemas and the help of a plaster cast and splints, the vet soon had Fido to a point of recovery where he can now do everything but dream, eat and walk the streets.

WORK OF BOY SCOUTS SHOWN IN EXHIBITS

Fine Window Displays Arranged Downtown to Inform Public of Boys' Work

Excellent window displays showing what Boy Scouts do have been arranged by Boy Scouts of the Bismarck troops, under the direction of their leaders.

Two large windows at Hoskins' store are used to show the camp fire of the Boy Scouts, the exhibits including numerous photographs, as well as displays of actual camping equipment used.

There is a fine display of merit badges in the windows of Klein's Toggery, Fifth and Broadway. Under the Scout rules boys earn merit badges for performing definite duties and for increasing their learning in Scout matters.

Another display in the windows of S. E. Bergeson and Son, will show Scout equipment, wearing apparel and also indicate how the rank is distinguished.

There are three Boy Scout troops in the city at the present time, at the Baptist, Methodist Episcopal and Presbyterian churches. S. O. LeBaron is master of the first-named troop, B. M. Dunn of the Methodists and F. J. Grady of the Presbyterians.

J. J. MacLeod, boys' welfare director in the city, is aiding the Boy Scout troops and those in charge of them in every way possible, and has supervised their summer camps.

In Hoskins' window is a fine picture of the first Boy Scout camp on Apple Creek. Last year the camp was held at Lake Isabelle, and next year it is proposed to have a two weeks' camping trip in the Black Hills of South Dakota, with boys of all troops making the trip under proper supervision.

The exhibits downtown are arranged to give the people generally an insight into Boy Scout work, and especially boys who are not members. Any boys desiring to join the Boy Scouts may apply to the master of any troop.

Tennis Popular With Frenchmen

Paris, Oct. 18.—There were 13,720 players entered and 14,123 actually took place in the popular tennis tournaments organized throughout France by the French Tennis Federation during the season just closed.

Several promising youngsters were uncovered who, with a few years more practice, may develop into Davis Cup timber.

The French are very proud of the development of tennis in France of recent years. It is pointed out that for the Davis Cup matches, in 1921, 1922 and 1923, they have put on the court an entirely different team each year.

It is a common saying in France that if the Davis Cup matches were played six men to a side, French tennis would have a chance.

having elaborate annual dinners in observance of all the holidays peculiar to their trade.

The trade in London has an ancient record going back to the thirteenth century when the Lombard merchants were great money-lenders and played the chief part in the exchanges and money brokerage shops of those days. They kept up connection with the wealthy Italian republics.

The pre-eminence of the Medici family at Florence in commercial and financial matters caused the London merchants to adopt part of the arms of this house as a trade sign, from which comes the familiar three golden balls.

Pawnbrokers Are Erecting New Home

London, Oct. 18.—London pawnbrokers are going up in the world. The latest example of this is the erection of an eighteenth century guild building among the many other famous guilds of London.

The pawnbrokers will moreover in the future co-operate on a plan similar to the old guilds and will live up to the reputation of the guilds, by

The salaries and expenses for all the vaccinating parties amount to \$66,200 annually. Of 419,210 vaccinations made up to July 31, 153,503 were positives.

Attributes Finest Year
Of His Life To Health
Tanlac Gave Him

Harry S. Fairman, proprietor of the Ideal Art Co., 2183 East 19th St., Cleveland, Ohio, says: "1923 has been one of the best years of my life, and I attribute the fact to unusual health, strength and energy I have enjoyed since taking Tanlac."

"Indigestion, nervousness, lack of appetite and loss of sleep had me feeling all played out. Since taking Tanlac I am in first class working trim and feel like a brand new man."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Take Tanlac Vegetable Pills.

Dodge Bros. Supply Special Lubricants

To protect car owners against the harmful effects of the many unsatisfactory lubricants now on the market, Dodge Brothers have compounded special brands which may be used with complete assurance of satisfaction. This applies not only to gear lubricants, but to motor oil as well.

The manufacture of these lubricants is based on the result of thorough laboratory tests covering a period of several years. Each of the lubricants is known to be ideally suited to its special purpose. Dodge Brothers car owners are therefore

urged to use these products exclusively, as this practice will add materially to the car's long life and smoothness of operation.

While Dodge Brothers motor oil is a specially compounded high-grade oil yet the price is the same as other oils. Being made according to Dodge Brothers own laboratory formula it is naturally much better adapted to their own motor than types working under vastly varying conditions.

These Dodge Brothers greases and oils may be obtained from any Dodge Brothers approved service station, at very reasonable prices. The local dealers—M. B. Gilman & Co., are un-

loading a carload of the special motor oil today. This can be had in one or five can gallons, or in 30 or 50 gallon steel drums.

DIG FOR OIL
Charlson, N. D., Oct. 18.—Some seven or eight years ago Andrew Olson of Charlson is said to have struck iron at a depth of 100 feet when digging a well and during the past week several options on sur-

rounding land have been secured, and at the present time a crew is at work sinking a shaft five feet in diameter.

Opening of fall classes in water coloring, china and oil painting. Phone 929-M. 113 Thayer St.
